(2) provide assurances that an adequate proportion of the amount allotted for part B to the planning and service area will be expended for the delivery of each of the following categories of services—

(G) develop and publish methods by which priority of services is determined, particularly with respect to the delivery of services under clause (2); and [2]

(H) establish effective and efficient procedures for coordination between the programs assisted under this subchapter and programs described in section 3013(b) of this title;

(I) conduct efforts to facilitate the coordination of community-based, long-term care services designed to retain individuals in their homes, thereby deferring unnecessary, costly institutionalization, and designed to emphasize the development of client-centered case management systems as a component of such services;

(J) identify the public and private nonprofit entities involved in the prevention, identification, and treatment of the abuse, neglect, and exploitation of older individuals, and based on such identification, determine the extent to which the need for appropriate services for such individuals is unmet; and

[*See main edition for text of* (*11*)]

SUBCHAPTER XI—OLDER AMERICANS PERSONAL HEALTH EDUCATION AND TRAINING PROGRAM

§ 3058. Findings

The Congress hereby finds that—

(1) individuals 60 years of age or older constitute the fastest growing segment of the Nation's population;

(2) the process of aging, as well as the changes in lifestyle which accompany it, such as retirement, the end of parenting roles, and relocation, seem to increase and exacerbate health problems faced by older individuals (such health problems include physical, mental, and emotional health problems);

(3) many of the health problems faced by individuals 60 years of age or older, such as arteriosclerosis, arthritis, adult-onset diabetes, hypothermia, heat stress, Alzheimer's disease, circulatory problems, hypertension, diminished hearing and eyesight, reduced strength, social isolation, and bone fragility are particularly common to the older American population;

(4) although older individuals make up only 11 percent of our population, they consume 29 percent of the total health care expenditures and 50.5 percent of Federal health care (non-military) expenditures, and as our population ages the percentage of Federal health care dollars absorbed by older individuals will inevitably increase;

(5) older individuals consume more prescription and over-the-counter drugs than any other age group and are therefore more likely to be exposed to two or more active drugs which negatively interact;

(6) many of the health problems faced by older individuals and the fear of those health problems can be ameliorated and in some cases prevented if proper health education and training is available;

(7) health education and training focused specifically on the needs of older individuals can play an important role in health promotion and illness prevention and simultaneously help reduce medical costs for both individuals and the Government;

(8) the educational institutions of public health, the medical sciences, psychology, pharmacology, nursing, social work, health education, nutrition, and gerontology have much to offer in the design and implementation of health education and training services for older individuals; and

(9) the existing 3,300 multipurpose senior centers established under this chapter which already serve over 9,000,000 older individuals each year, are appropriate points of contact from which health education and training can be provided, but there is currently no uniform, standardized program consistently in place across the Nation.

(2) before the approval of the application and any amendment thereto the Bureau has made an affirmative finding in writing that the program or project has been reviewed in accordance with section 3745 of this title.

Each application or amendment made and submitted for approval to the Bureau pursuant to section 3745 of this title shall be deemed approved, in whole or in part, by the Bureau not later than sixty days after first received unless the Bureau informs the applicant of specific reasons for disapproval.

(b) Failure to conform to requirements or statutory purposes; suspension of funding; adjustment of grants

The Bureau shall suspend funding for an approved application in whole or in part if such application contains a program or project which has failed to conform to the requirements of this subchapter or purposes of section 3743(a) of this title. The Bureau may make appropriate adjustments in the amounts of grants in accordance with its findings pursuant to this subsection.

(c) Prohibited uses of grant funds

Grant funds awarded under this subchapter shall not be used for—

(4) programs or projects which, based upon evaluations by the National Institute of Justice, Bureau of Justice Assistance, Bureau of Justice Statistics, State or local agencies, and other public or private organizations, have been demonstrated to offer a low probability of improving the functioning of the criminal justice system. Such programs must be formally identified by a notice in the Federal Register after opportunity for comment.

The Bureau shall not finally disapprove any application, or any amendment thereto, submitted to the Director under this subchapter without first affording the applicant reasonable notice and opportunity for reconsideration.

§ 3747. Allocation and distribution of funds

(a) Percentage of appropriation for allocation to States; basic amount; remainder amount

Of the total amount appropriated for this subchapter and subchapter V of this chapter in any fiscal year, 80 per centum shall be set aside for this subchapter and allocated to States as follows:

(b) Formula for distributions to units of local government; priority of needy jurisdictions; State expenditure of available funds; data requirements

(1) Each State which receives funds under subsection (a) of this section in a fiscal year shall distribute among units of local government, or combinations of units of local government, in such State for the purposes specified in section 3743(a) of this title that portion of such funds which bears the same ratio to the aggregate amount of such funds as the amount of funds expended by all units of local government for criminal justice in the preceding fiscal year bears to the aggregate amount of funds expended by the State and all units of local government in such State for criminal justice in such preceding fiscal year.

(2) In distributing funds received under this subchapter among urban, rural, and suburban units of local government and combinations thereof, the State shall give priority to those jurisdictions with the greatest need.

(3) Any funds not distributed to units of local government under paragraph (1) shall be available for expenditure by the State involved.

(4) For purposes of determining the distribution of funds under paragraph (1), the most accurate and complete data available for the fiscal year involved shall be used. If data for such fiscal year are not available, then the most accurate and complete data available for the most recent fiscal year preceding such fiscal year shall be used.

(c) Limitation of distributions to approved programs

No funds allocated to a State under subsection (a) of this section or received by a State for distribution under subsection (b) of this section may be distributed by the Director or by the State involved for any program other than a program contained in an approved application.

(d) Award of State earmarked funds to units of local government; priority of needy jurisdictions

If the Director determines, on the basis of information available to it during any fiscal year, that a portion of the funds allocated to a State for that fiscal year will not be required or that a State will be unable to qualify or receive funds under this subchapter, or that a State chooses not to participate in the program established by this subchapter, then such portion shall be awarded by the Director to urban, rural, and suburban units of local government or combinations thereof within such State giving priority to those jurisdictions with greatest need.

(e) Available funds for subchapter V obligation

Any funds not distributed under subsections (b) and (d) of this section shall be available for obligation under subchapter V of this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5672 of this title.

§ 3783. Notice and hearing on denial or termination of grant

(a) Payments to recipients; limitation, reduction, or termination

Whenever, after reasonable notice and opportunity for a hearing on the record in accordance with section 554 of title 5, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics finds that a recipient of assistance under this chapter has failed to comply substantially with—

(1) any provisions of this chapter;

(2) any regulations or guidelines promulgated under this chapter; or

(3) any application submitted in accordance with the provisions of this chapter, or the provisions of any other applicable Federal Act;

the Director involved shall, until satisfied that there is no longer any such failure to comply, terminate payments to the recipient under this chapter, reduce payments to the recipient under this chapter by an amount equal to the amount of such payments which were not expended in accordance with this chapter, or limit the availability of payments under this chapter to programs, projects, or activities not affected by such failure to comply.

(b) Notice of action; reasons for action; hearing or investigation; finality of findings and determinations; reasons in detail for action without hearing

If any grant application submitted under subchapter IV of this chapter has been denied, or any grant under this chapter has been terminated, then the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics, as appropriate, shall notify the applicant of its action and set forth the reason for the action taken. Whenever such an applicant requests a hearing, the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics, or any authorized officer thereof, is authorized and directed to hold such hearings or investigations, including hearings on the record in accordance with section 554 of title 5, at such times and places as necessary, following appropriate and adequate notice to such applicant; and the findings of fact and determinations made with respect thereto shall be final and conclusive, except as otherwise provided herein. The Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics is authorized to take final action without a hearing if, after an administrative review of the denial of such application or termination of such grant, it is determined that the basis for the appeal, if substantiated, would not establish a basis for awarding or continuing of the grant involved. Under such circumstances, a more detailed statement of reasons for the agency action should be made available, upon request, to the applicant.

(c) Rehearing; regulations and procedures; presentation of additional information

If the applicant involved is dissatisfied with the findings and determinations of the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics following notice and hearing provided for in subsection (a) of this section, a request may be made for rehearing, under such regulations and procedure as the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics may establish, and such applicant shall be afforded an opportunity to present such additional information as may be deemed appropriate and pertinent to the matter involved.

All new or modified findings shall be conclusive with respect to questions of fact if supported by substantial evidence when the record as a whole is considered.

(ii) a determination after an investigation by the Office of Justice Programs (prior to a hearing under subparagraph (F) but including an opportunity for the State government or unit of local government to make a documentary submission regarding the allegation of discrimination with respect to such program or activity, with funds made available under this chapter) that a State government or unit of local government is not in compliance with paragraph (1);

the Office of Justice Programs shall, within ten days after such occurrence, notify the chief executive of the affected State, or the State in which the affected unit of local government is located, and the chief executive of such unit of local government, that such program or activity has been so found or determined not to be in compliance with paragraph (1), and shall request each chief executive, notified under this subparagraph with respect to such violation, to secure compliance. For purposes of clause (i) a finding by a Federal or State administrative agency shall be deemed rendered after notice and opportunity for a hearing if it is rendered pursuant to procedures consistent with the provisions of subchapter II of chapter 5 of title 5.

(B) In the event the chief executive secures compliance after notice pursuant to subparagraph (A), the terms and conditions with which the affected State government or unit of local government agrees to comply shall be set forth in writing and signed by the chief executive of the State, by the chief executive of such unit (in the event of a violation by a unit of local government), and by the Office of Justice Programs. On or prior to the effective date of the agreement, the Office of Justice Programs shall send a copy of the agreement to each complainant, if any, with respect to such violation. The chief executive of the State, or the chief executive of the unit (in the event of a violation by a unit of local government) shall file semiannual reports with the Office of Justice Programs detailing the steps taken to comply with the agreement. These reports shall cease to be filed upon the determination of the Office of Justice Programs that compliance has been secured, or upon the determination by a Federal or State court that such State government or local governmental unit is in compliance with this section. Within fifteen days of receipt of such reports, the Office of Justice Programs shall send a copy thereof to each such complainant.

(C) If, at the conclusion of ninety days after notification under subparagraph (A)—

(i) compliance has not been secured by the chief executive of that State or the chief executive of that unit of local government; and

(ii) an administrative law judge has not made a determination under subparagraph (F) that it is likely the State government or unit of local government will prevail on the merits; the Office of Justice Programs shall notify the Attorney General that compliance has not been secured and caused to have suspended further payment of any funds under this chapter to that program or activity. Such suspension shall be limited to the specific program or activity cited by the Office of Justice Programs in the notice under subparagraph (A). Such suspension shall be effective for a period of not more than one hundred and twenty days, or, if there is a hearing under subparagraph (G), not more than thirty days after the conclusion of such hearing, unless there has been an express finding by the Office of Justice Programs, after notice and opportunity for such a hearing, that the recipient is not in compliance with paragraph (1).

(D) Payment of the suspended funds shall resume only if—

(i) such State government or unit of local government enters into a compliance agreement approved by the Office of Justice Programs and the Attorney General in accordance with subparagraph (B);

(ii) such State government or unit of local government complies fully with the final order or judgment of a Federal or State court, or by a Federal or State administrative agency if that order or judgment covers all the matters raised by the Office of Justice Programs in the notice pursuant to subparagraph (A), or is found to be in compliance with paragraph (1) by such court; or

(iii) after a hearing the Office of Justice Programs pursuant to subparagraph (F) finds that noncompliance has not been demonstrated.

(E) Whenever the Attorney General files a civil action alleging a pattern or practice of discriminatory conduct on the basis of race, color, religion, national origin, or sex in any program or activity of a State government or unit of local government which State government or unit of local government receives funds made available under this chapter, and the conduct allegedly violates the provisions of this section and neither party within forty-five days after such filing has been granted such preliminary relief with regard to the suspension or payment of funds as may be otherwise available by law, the Office of Justice Programs shall cause to have suspended further payment of any funds under this chapter to that specific program or activity alleged by the Attorney General to be in violation of the provisions of this subsection until such time as the court orders resumption of payment.

[*See main edition for text of* (*F*)]

(G)(i) At any time after notification under subparagraph (A), but before the conclusion of the one-hundred-and-twenty-day period referred to in subparagraph (C), a State government or unit of local government may request a hearing on the record in accordance with section 554 of title 5, which the Office of Justice Programs shall initiate within sixty days of such request.

(ii) Within thirty days after the conclusion of the hearing, or, in the absence of a hearing, at the conclusion of the one-hundred-and-twenty-day period referred to in subparagraph (C), the Office of Justice Programs shall make a finding of compliance or noncompliance. If the Office of Justice Programs makes a finding of noncompliance, the Office of Justice Programs shall notify the Attorney General in order that the Attorney General may institute a civil action under paragraph (3), cause to have terminated the payment of funds under this chapter, and, if appropriate, seek repayment of such funds.

(iii) If the Office of Justice Programs makes a finding of compliance, payment of the suspended funds shall resume as provided in subparagraph (D).

(H) Any State government or unit of local government aggrieved by a final determination of the Office of Justice Programs under subparagraph (G) may appeal such determination as provided in section 3785[2] of this title.

[*See main edition for text of* (*3*)]

(4)(A) Whenever a State government or unit of local government, or any officer or employee thereof acting in an official capacity, has engaged or is engaging in any act or practice prohibited by this subsection, a civil action may be instituted after exhaustion of administrative remedies by the person aggrieved in an appropriate United States district court or in a State court of general jurisdiction. Administrative remedies shall be deemed to be exhausted upon the expiration of sixty days after the date the administrative complaint was filed with the Office of Justice Programs or any other administrative enforcement agency, unless within such period there has been a determination by the Office of Justice Programs or the agency on the merits of the complaint, in which case such remedies shall be deemed exhausted at the time the determination becomes final.

(a) Amount; recipients

In any case in which the Bureau of Justice Assistance (hereinafter in this subchapter referred to as the "Bureau") determines, under regulations issued pursuant to this subchapter, that a public safety officer has died as the direct and proximate result of a personal injury sustained in the line of duty, the Bureau shall pay a benefit of $50,000 as follows:

§ 5102. Definitions

For purposes of This [1] subchapter—

---

[1] So in original. Probably should be "this".

(1) the term "child abuse and neglect" means the physical or mental injury, sexual abuse or exploitation, negligent treatment, or maltreatment of a child under the age of eighteen, or the age specified by the child protection law of the State in question, by a person (including any employee of a residential facility or any staff person providing out-of-home care) who is responsible for the child's welfare under circumstances which indicate that the child's health or welfare is harmed or threatened thereby, as determined in accordance with regulations prescribed by the Secretary;

(2)(A) the term "sexual abuse" includes—

(i) the employment, use, persuasion, inducement, enticement, or coercion of any child to engage in, or having a child assist any other person to engage in, any sexually explicit conduct (or any simulation of such conduct) for the purpose of producing any visual depiction of such conduct, or

(ii) the rape, molestation, prostitution, or other such form of sexual exploitation of children, or incest with children,

under circumstances which indicate that the child's health or welfare is harmed or threatened thereby, as determined in accordance with regulations prescribed by the Secretary; and

(B) for the purpose of this clause, the term "child" or "children" means any individual who has not or individuals who have not attained the age of eighteen; and

(3) the term "withholding of medically indicated treatment" means the failure to respond to the infant's life-threatening conditions by providing treatment (including appropriate nutrition, hydration, and medication) which, in the treating physician's or physicians' reasonable medical judgment, will be most likely to be effective in ameliorating or correcting all such conditions, except that the term does not include the failure to provide treatment (other than appropriate nutrition, hydration, or medication) to an infant when, in the treating physician's or physicians' reasonable medical judgment, (A) the infant is chronically and irreversibly comatose; (B) the provision of such treatment would (i) merely prolong dying, (ii) not be effective in ameliorating or correcting all of the infant's life-threatening conditions, or (iii) otherwise be futile in terms of the survival of the infant; or (C) the provision of such treatment would be virtually futile in terms of the survivial of the infant and the treatment itself under such circumstances would be inhumane.

(As amended Pub. L. 98–457, title I, §§ 102, 121, Oct. 9, 1984, 98 Stat. 1750, 1752.)

AMENDMENTS

"(2) In the event that, prior to such effective date, funds have not been appropriated pursuant to section 5 of the Act (as amended by section 104 of this Act) [section 5104 of this title] for the purpose of grants under section 4(c)(1) of the Act (as added by section 123(a) of this Act) [section 5103(c)(1) of this title], any State which has not met any requirement of section 4(b)(2)(K) of the Act (as added by section 122(3) of this Act) may be granted a waiver of such requirements for a period of not more than one year, if the Secretary finds that such State is making a good-faith effort to comply with such requirements."

SUBCHAPTER II—ADOPTION OPPORTUNITIES

§ 5111. Congressional findings and declaration of purpose

The Congress hereby finds that the welfare of thousands of children in institutions and foster homes and disabled infants with life-threatening conditions may be in serious jeopardy and that some such children are in need of placement in permanent, adoptive homes; that many thousands of children remain in institutions or foster homes solely because of legal and other barriers to their placement in permanent, adoptive homes; that the majority of such children are of school age, handicapped, or both; that adoption may be the best alternative for assuring the healthy development of such children; that there are qualified persons seeking to adopt such children who are unable to do so because of barriers to their placement; and that, in order both to enhance the stability and love of the child's home environment and to avoid wasteful expenditures of public funds, such children should not have medically indicated treatment withheld from them, nor be maintained in foster care or institutions when adoption is appropriate and families for them can be found. It is, therefore, the purpose of this subchapter to facilitate the elimination of barriers to adoption and to provide permanent and loving home environments for children who would benefit by adoption, particularly children with special needs, including disabled infants with life-threatening conditions, by—

[*See main edition for text of (1)*]

(2) providing a mechanism for the Department of Health and Human Services to—

(A) promote quality standards for adoption services, pre-placement, post-placement, and post-legal adoption counseling, and standards to protect the rights of children in need of adoption;

(B) coordinate with other Federal departments and agencies, including the Bureau of the Census, to provide for a national adoption and foster care information data-gathering and analysis system; and

(C) maintain a national adoption exchange to bring together children who would benefit by adoption and qualified prospective adoptive parents who are seeking such children.

AMENDMENTS

1984—Pub. L. 98-457, § 201(a), (b)(1), in provisions before par. (1), inserted "the welfare of thousands of children in institutions and foster homes and disabled infants with life-threatening conditions may be in serious jeopardy and that some such children are in need of placement in permanent, adoptive homes, that" and substituted "should not have medically indicated treatment withheld from them, nor be maintained in foster care" for "should not be maintained in foster care" and "children with special needs, including disabled infants with life-threatening conditions, by" for "children with special needs by".

Par. (2). Pub. L. 98-457, § 201(b)(2), amended par. (2) generally. Prior to amendment, par. (2) read as follows: "providing a mechanism for the Department of Health and Human Services to (A) promote quality standards for adoption services (including pre-placement, post-placement, and post-adoption counseling and standards to protect the rights of children in need of adoption), and (B) provide for a national adoption and foster care information data gathering and analysis system and a national adoption information exchange system to bring together children who would benefit by adoption and qualified prospective adoptive parents who are seeking such children."

§ 5112. Model adoption legislation and procedures

After soliciting and giving due consideration to the comments of interested individuals, groups, and organizations and consulting further with such panel, the Secretary shall issue and publish model adoption legislation and procedures which shall not conflict with the provisions of any interstate compact in operation pursuant to which States are making, supervising, or regulating placements of children.

SUBCHAPTER III—STATE FUNDING MECHANISMS

§ 5116. Congressional findings and statement of purpose

(a) The Congress finds that—

(1) disturbing increases have occurred in recent years in the numbers of younger Americans who are abused;

(2) many children who run away from home, who fall prey to pornography and prostitution, who suffer from a dependency on alcohol and drugs, and who become juvenile offenders, have been victims of child abuse;

(3) research has shown that abuse tends to repeat itself, and many times parents who abuse their children were once victims themselves;

(4) given the increased demand for treatment and crisis intervention in child abuse and neglect cases, Federal funds distributed to States are most often used for treatment and little is left for prevention efforts;

(5) since 1980 some States have begun to recognize the critical need for prevention efforts, and trust funds (generated by surcharges on marriage licenses, birth certificates or divorce actions, or by special checkoffs on income tax returns) are being established to allow such States to pay for child abuse and neglect prevention activities despite depressed State economies and budget cutbacks;

(6) in recognition of the increased cases of child abuse and neglect, other States have established significant funds for child abuse and neglect prevention activities through direct appropriations; and

(7) the Nation cannot afford to ignore the importance of preventing child abuse.

(b) It is the purpose of this subchapter, by providing for Federal challenge grants, to encourage States to establish and maintain trust funds or other funding mechanisms, including appropriations to support child abuse and neglect prevention activities.

(Pub. L. 98-473, title IV, § 402, Oct. 12, 1984, 98 Stat. 2197.)

(a) Authority of Secretary

The Secretary is authorized, in accordance with the provisions of this subchapter, to make grants to eligible States.

(b) Payments; fiscal years

(c) Authorization of appropriations

(Pub. L. 98-473, title IV, § 404, Oct. 12, 1984, 98 Stat. 2197.)

§ 5116c. State eligibility

Any State is eligible for a grant under this subchapter for any fiscal year if such State has established or maintained in the previous fiscal year a trust fund or other funding mechanism, including appropriations, which is available only for child abuse and neglect prevention activities, including activities which—

(1) provide statewide educational and public informational seminars for the purpose of developing appropriate public awareness regarding the problems of child abuse and neglect;

(2) encourage professional persons and groups to recognize and deal with problems of child abuse and neglect;

(3) make information about the problems of child abuse and neglect available to the public and organizations and agencies which deal with problems of child abuse and neglect; and

(4) encourage the development of community prevention programs, including—

(B) community-based programs relating to crisis care, aid to parents, child-abuse counseling, peer support groups for abusive or potentially abusive parents and their children, lay health visitors, respite or crisis child care, and early identification of families where the potential for child abuse and neglect exists.

§ 5116d. Limitations

(a) Grant amount; "children" defined

(1) Any grant made to any eligible State under this subchapter in any fiscal year shall be equal to the lesser of—

(2) The Secretary shall approve any application that meets the requirements of this subsection, and the Secretary shall not disapprove any such application except after reasonable notice of the Secretary's intention to disapprove and opportunity for a hearing with respect to the disapproval.

(4) The term "metropolitan city" means (A) a city within a metropolitan area which is the central city of such area, as defined and used by the Office of Management and Budget, or (B) any other city, within a metropolitan area, which has a population of fifty thousand or more. In order to permit an orderly transition of each city losing its classification as a metropolitan city by reason of the population data of the 1980 decennial census or revisions in the designation of metropolitan areas or central cities, any city classified as or deemed by law to be a metropolitan city for purposes of assistance under any section of this chapter for fiscal year 1983 shall retain such qualification for purposes of receiving such assistance through March 17, 1986. Any unit of general local government that becomes eligible to be classified as a metropolitan city for fiscal year 1984 or 1985 may, upon submission of written notification to the Secretary, defer its classification as a metropolitan city for all purposes under this chapter for fiscal years 1984, 1985, and 1986 if such unit of general local government elects to have its population included in an urban county under subsection (d) of this section.

[*See main edition for text of (5)*]

(6) The term "urban county" means any county within a metropolitan area which (A) is authorized under State law to undertake essential community development and housing assistance activities in its unincorporated areas, if any, which are not units of general local government, and either (B) has a combined population of two hundred thousand or more (excluding the population of metropolitan cities therein) in such unincorporated areas and in its included units of general local government (i) in which it has authority to undertake essential community development and housing assistance activities and which do not elect to have their population excluded or (ii) with which it has entered into cooperation agreements to undertake or to assist in the undertaking of essential community development and housing assistance activities or (C) has a population in excess of one hundred thousand, a population density of at least five thousand persons per square mile, and contains within its boundaries no incorporated places as defined by the United

States Bureau of Census. In order to permit an orderly transition of each county losing its classification as an urban county by reason of a decrease in population, any county classified as or deemed to be an urban county under this paragraph for purposes of receiving assistance under any section of this chapter for fiscal year 1983 shall retain such qualification for purposes of receiving such assistance through March 17, 1986, or for such longer period covered by a cooperation agreement entered into during fiscal year 1984, except that the provisions of this sentence shall not apply with respect to any county losing its classification as an urban county by reason of the election of any unit of general local government included in such county to have its population excluded under clause (B)(i) of the first sentence or to not renew a cooperation agreement under clause (B)(ii) of such sentence. Notwithstanding the combined population amount set forth in clause (B) of the first sentence, a county shall also qualify as an urban county for purposes of assistance under section 5306 of this title if such county (A) complies with all other requirements set forth in the first sentence; (B) has, according to the most recent available decennial census data, a combined population between 190,000 and 199,999, inclusive, (excluding the population of metropolitan cities therein) in all its unincorporated areas that are not units of general local government and in all units of general local government located within such county; (C) had a population growth rate of not less than 15 percent during the most recent 10-year period measured by applicable censuses; and (D) has submitted data satisfactory to the Secretary that it has a combined population of not less than 200,000 (excluding the population of metropolitan cities therein) in all its unincorporated areas that are not units of general local government and in all units of general local government located within such county.

Poverty levels shall be determined by the Secretary pursuant to criteria provided by the Office of Management and Budget, taking into account and making adjustments, if feasible and appropriate and in the sole discretion of the Secretary, for regional or area variations in income and cost of living, and shall be based on data referable to the same point or period in time.

[See main edition for text of (10) to (16)]

(17) The term "Indian tribe" means any Indian tribe, band, group, and nation, including Alaska Indians, Aleuts, and Eskimos, and any Alaskan Native Village, of the United States, which is considered an eligible recipient under the Indian Self-Determination and Education Assistance Act (Public Law 93-638) [25 U.S.C. 450 et seq.] or under chapter 67 of title 31.

For purposes of such terms, the area involved shall be determined in the same manner as such area is determined for purposes of assistance under section 1437f of this title.

(B) The Secretary may establish percentages of median income for any area that are higher or lower than the percentages set forth in subparagraph (A), if the Secretary finds such variations to be necessary because of unusually high or low family incomes in such area.

(21) The term "buildings for the general conduct of government" means city halls, county administrative buildings, State capitol or office buildings, or other facilities in which the legislative or general administrative affairs of the government are conducted. Such term does not include such facilities as neighborhood service centers or special purpose buildings located in low- and moderate-income areas that house various nonlegislative functions or services provided by government at decentralized locations.

(b) Basis and modification of definitions

Where appropriate, the definitions in subsection (a) of this section shall be based, with respect to any fiscal year, on the most recent data compiled by the United States Bureau of the Census and the latest published reports of the Office of Management and Budget available ninety days prior to the beginning of such fiscal year. The Secretary may by regulation change or otherwise modify the meaning of the terms defined in subsection (a) of this section in order to reflect any technical change or modification thereof made subsequent to such date by the United States Bureau of the Census or the Office of Management and Budget.

[See main edition for text of (c)]

(d) Local governments, inclusion in urban county population

With respect to program years beginning with the program year for which grants are made available from amounts appropriated for fiscal year 1982 under section 5303 of this title, the population of any unit of general local government which is included in that of an urban county as provided in subsection (a)(6)(B) of this section shall be included in the population of such urban county for three program years beginning with the program year in which its population was first so included and shall not otherwise be eligible for a grant under section 5306 of this title as a separate entity, unless the urban county does not receive a grant for any year during such three-year period. During any such three-year period, the population of any unit of general local government which is not included in that of the urban county for the first year shall not be eligible for such inclusion in the second or third year, except where the unit of general local government loses the designation of metropolitan city.

(2) In order to permit public examination and appraisal of such statements, to enhance the public accountability of grantees, and to facilitate coordination of activities with different levels of government, the grantee shall in a timely manner—

(A) furnish citizens or, as appropriate, units of general local government information concerning the amount of funds available for proposed community development and housing activities and the range of activities that may be undertaken, including the estimated amount proposed to be used for activities that will benefit persons of low and moderate income and the plans of the grantee for minimizing displacement of persons as a result of activities assisted with such funds and to assist persons actually displaced as a result of such activities;

(B) publish a proposed statement in such manner to afford affected citizens or, as appropriate, units of general local government an opportunity to examine its content and to submit comments on the proposed statement and on the community development performance of the grantee;

(C) hold one or more public hearings to obtain the views of citizens on community development and housing needs;

(D) provide citizens or, as appropriate, units of general local government with reasonable access to records regarding the past use of funds received under section 5306 of this title by the grantee; and

(1) the grantee is in full compliance with the requirements of subsection (a)(2)(A), (B), and (C) of this section and has made the final statement available to the public;

(2) the grant will be conducted and administered in conformity with Public Law 88-352 [42 U.S.C. 2000a et seq.] and Public Law 90-284, and the grantee will affirmatively further fair housing;

(3) the projected use of funds has been developed so as to give maximum feasible priority to activities which will benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight, and the projected use of funds may also include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available to meet such needs, except that the aggregate use of funds received under section 5306 of this title and, if applicable, as a result of a guarantee under section 5308 of this title, during a period specified by the grantee of not more than 3 years, shall principally benefit persons of low and moderate income in a manner that ensures that not less than 51 percent of such funds are used for activities that benefit such persons during such period;

(5) the grantee will not attempt to recover any capital costs of public improvements assisted in whole or part under section 5306 of this title or with amounts resulting from a guarantee under section 5308 of this title by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless (A) funds received under section 5306 of this title are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this chapter; or (B) for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary that it lacks sufficient funds received under section 5306 of this title to comply with the requirements of subparagraph (A); and

(6) the grantee will comply with the other provisions of this chapter and with other applicable laws.

(c) Special certifications required for certain grants

(1) Any grant made under section 5306(b) of this title shall be made only if the unit of general local government certifies that it is following a current housing assistance plan which has been approved by the Secretary and which—

(A) accurately surveys the condition of the housing stock in the community (including the number of vacant and abandoned dwelling units) and assesses the housing assistance needs of lower income persons (including elderly and handicapped persons, large families, owners of homes requiring rehabilitation assistance, and persons displaced or to be displaced) residing in or expected to reside in the community as a result of existing or projected changes in employment opportunities and population in the community (and those elderly persons residing in or expected to reside in the community), or as estimated in a community accepted State or regional housing opportunity plan approved by the Secretary, and identifies housing stock which is in a deteriorated condition, including the impact of conversion of rental housing to condominium or cooperative ownership on such needs;

[*See main edition for text of* (*B*) *and* (*C*), (*2*)]

(d) Submission of performance and evaluation report by grantee to Secretary; contents; availability for citizen comment; annual review and audit by Secretary of program implementation; adjustments in amount of annual grants

Each grantee shall submit to the Secretary, at a time determined by the Secretary, a performance and evaluation report concerning the use of funds made available under section 5306 of this title, together with an assessment by the grantee of the relationship of such use to the objectives identified in the grantee's statement under subsection (a) of this section and to the requirements of subsection (b)(3) of this section. Such report shall also be made available to the citizens in each grantee's jurisdiction in sufficient time to permit such citizens to comment on such report prior to its submission, and in such manner and at such times as the grantee may determine. The grantee's report shall indicate its programmatic accomplishments, the nature of and reasons for changes in the grantee's program objectives, indications of how the grantee would change its programs as a result of its experiences, and an evaluation of the extent to which its funds were used for activities that benefited low- and moderate-income persons. The report shall include a summary of any comments received by the grantee from citizens in its jurisdiction respecting its program. The Secretary shall encourage and assist national associations of grantees eligible under section 5306(d)(2)(B) of this title, national associations of States, and national associations of units of general local government in nonentitlement areas to develop and recommend to the Secretary, within one year after November 30, 1983, uniform recordkeeping, performance reporting, and evaluation reporting, and auditing requirements for such grantees, States, and units of general local government, respectively. Based on the Secretary's approval of these recommendations, the Secretary shall establish such requirements for use by such grantees, States, and units of general local government. The Secretary shall, at least on an annual basis, make such reviews and audits as may be necessary or appropriate to determine—

[*See main edition for text of* (*1*) *and* (*2*)]

The Secretary may make appropriate adjustments in the amount of the annual grants in accordance with the Secretary's findings under this subsection. With respect to assistance made available to units of general local government under section 5306(d) of this title, the Secretary may adjust, reduce, or withdraw such assistance, or take other action as appropriate in accordance with the Secretary's reviews and audits under this subsection, except that funds already expended on eligible activities under this chapter shall not be recaptured or deducted from future assistance to such units of general local government.

§ 5306. Allocation and distribution of funds

[*See main edition for text of* (*a*)]

(b) Computation of amount allocated to metropolitan cities and urban counties

[*See main edition for text of* (*1*) *to* (*5*)]

(6)(A) Where data are available, the amount determined under paragraph (1) for a metropolitan city that has been formed by the consolidation of one or more metropolitan cities with an urban county shall be equal to the sum of the amounts that would have been determined under paragraph (1) for the metropolitan city or cities and the balance of the consolidated government, if such consolidation had not occurred. This paragraph shall apply only to any consolidation that—

(i) included all metropolitan cities that received grants under this section for the fiscal year preceding such consolidation and that were located within the urban county;

(ii) included the entire urban county that received a grant under this section for the fiscal year preceding such consolidation; and

(iii) took place on or after January 1, 1983.

(B) The population growth rate of all metropolitan cities referred to in section 5302(a)(12) of this title shall be based on the population of (i) metropolitan cities other than consolidated governments the grant for which is determined under this paragraph; and (ii) cities that were metropolitan cities before their incorporation into consolidated governments. For purposes of calculating the entitlement share for the balance of the consolidated government under this paragraph, the entire balance shall be considered to have been an urban county.

(c) Reallocation of undistributed funds within same metropolitan area as original allocation; amount and calculation of reallocation grant

(1) Except as provided in paragraph (2), any amounts allocated to a metropolitan city or an urban county pursuant to the preceding provisions of this section which are not received by the city or county for a fiscal year because of failure to meet the requirements of section 5304(a), (b), or (c) of this title, or which become available as a result of actions under section 5304(d) or 5311 of this title, shall be reallocated in the succeeding fiscal year to the other metropolitan cities and urban counties in the same metropolitan area which certify to the satisfaction of the Secretary that they would be adversely affected by the loss of such amounts from the metropolitan area. The amount of the share of funds reallocated under this paragraph for any metropolitan city or urban county shall bear the same ratio to the total of such reallocated funds in the metropolitan area as the amount of funds awarded to the city or county for the fiscal year in which the reallocated funds become available bears to the total amount of funds awarded to all metropolitan cities and urban counties in the same metropolitan area for that fiscal year, except that—

[*See main edition for text of* (*A*)]

(B) in reallocating amounts resulting from an action under section 5304(d) of this title or section 5311 of this title, a city or county against whom any such action was taken in a fiscal year shall be excluded from a calculation of share for purposes of reallocating, in the succeeding year, the amounts becoming available as a result of such action; and

[*See main edition for text of* (*C*)]

Any amounts allocated under subsection (b) of this section which become available for reallocation and for which no metropolitan city or urban county qualifies under this paragraph shall be added to amounts available for allocation under such subsection (b) of this section in the succeeding fiscal year.

[*See main edition for text of* (*2*)]

(3) Notwithstanding the provisions of paragraph (1), the Secretary may upon request transfer responsibility to any metropolitan city for the administration of any amounts received, but not obligated, by the urban county in which such city is located if (A) such city was an included unit of general local government in such county prior to the qualification of such city as a metropolitan city; (B) such amounts were designated and received by such county for use in such city prior to the qualification of such city as a metropolitan city; and (C) such city and county agree to such transfer of responsibility for the administration of such amounts.

(d) Allocation among States for nonentitlement areas; amount and calculation of grants; distributions by State or Secretary; certain distributions made pursuant to prior provisions; certifications required by Governor enumerated; responsibility for administration and administrative expenses; reallocation; exclusion of Indian tribes in certain computations; certifications required of units of general local government in nonentitlement areas; applicability of this chapter and other law

[*See main edition for text of* (*1*)]

(2)(A) Amounts allocated under paragraph (1) shall be distributed to units of general local government located in nonentitlement areas of the State to carry out activities in accordance with the provisions of this chapter—

(i) by a State that has elected, in such manner and at such time as the Secretary shall prescribe, to distribute such amounts, consistent with the statement submitted under section 5304(a) of this title; or

[*See main edition for text of* (*ii*)]

Notwithstanding any provision of this chapter, the Secretary shall make grants from amounts authorized for use in nonentitlement areas by the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1981, in accordance with the provisions of this chapter which governed grants with respect to such amounts, as such provisions existed prior to October 1, 1981. Any amounts under the preceding sentence (except amounts for which preapplications have been approved by the Secretary prior to October 1, 1981, and which have been obligated by January 1, 1982) which are or become available for obligation after fiscal year 1981 shall be available for distribution in the State in which the grants from such amounts were made, by the State or by the Secretary, whichever is distributing the State allocation in the fiscal year in which such amounts are or become available.

(B) The Secretary shall distribute amounts allocated under paragraph (1) if the State has not elected to distribute such amounts.

(C) To receive and distribute amounts allocated under paragraph (1), the Governor must certify that the State, with respect to units of general local government in nonentitlement areas—

[*See main edition for text of* (*i*) *and* (*ii*)]

(iii) will not refuse to distribute such amounts to any unit of general local government on the basis of the particular eligible activity selected by such unit of general local government to meet its community development needs, except that this clause may not be considered to prevent a State from establishing priorities in distributing such amounts on the basis of the activities selected; and

[*See main edition for text of* (*iv*)]

(D) To receive and distribute amounts allocated under paragraph (1), the Governor of each State shall certify that each unit of general local government to be distributed funds will be required to identify its community development and housing needs, including the needs of low and moderate income persons, and the activities to be undertaken to meet such needs.

(3)(A) If the State receives and distributes such amounts, it shall be responsible for the administration of funds so distributed. The State shall pay from its own resources all administrative expenses incurred by the State in carrying out its responsibilities under this chapter or section 1437o(e)(1) of this title, except that from the amounts received for distribution in nonentitlement areas, the State may deduct an amount to cover such expenses not to exceed the sum of $102,000 plus 50 percent of any such expenses in excess of $100,000. Amounts deducted in excess of $100,000 shall not exceed 2 percent of the amount so received.

[*See main edition for text of* (*B*)]

(C) Any amounts allocated for use in a State under paragraph (1) that are not received by the State for any fiscal year because of failure to meet the requirements of subsection (a) or (b) of section 5304 of this title or to make the certifications required in subparagraphs (C) and (D) of paragraph (2), or that become available as a result of actions against the State under section 5304(d) or 5311 of this title, shall be added to amounts allocated to all States under paragraph (1) for the succeeding fiscal year.

(D) Any amounts allocated for use in a State under paragraph (1) that become available as a result of actions under section 5304(d) or 5311 of this title against units of general local government in nonentitlement areas of the State or as a result of the closeout of a grant made by the Secretary under this section in nonentitlement areas of the State shall be added to amounts allocated to the State under paragraph (1) for the fiscal year in which the amounts become so available.

(4) In computing amounts under paragraph (1), Indian tribes shall be excluded.

(5) No amount may be distributed by any State or the Secretary under this subsection to any unit of general local government located in a nonentitlement area unless such unit of general local government certifies that—

(A) it will minimize displacement of persons as a result of activities assisted with such amounts;

(B) its program will be conducted and administered in conformity with Public Law 88-352 [42 U.S.C. 2000a et seq.] and Public Law 90-284, and that it will affirmatively further fair housing;

(C) it will provide for opportunities for citizen participation, hearings, and access to information with respect to its community development program that are comparable to those required of grantees under section 5304(a)(2) of this title; and

(D) it will not attempt to recover any capital costs of public improvements assisted in whole or part under this section or with amounts resulting from a guarantee under section 5308 of this title by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless (i) funds received under this section are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this chapter; or (ii) for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary or such State, as the case may be, that it lacks sufficient funds received under this section to comply with the requirements of clause (i).

(6) Any activities conducted with amounts received by a unit of general local government under this subsection shall be subject to the applicable provisions of this chapter and other Federal law in the same manner and to the same extent as activities conducted with amounts received by a unit of general local government under subsection (a) of this section.

[*See main edition for text of* (*e*)]

(f) Pro rata adjustment of entitlement amounts

If the total amount available for distribution in any fiscal year to metropolitan cities and urban counties under this section is insufficient to provide the amounts to which metropolitan cities and urban counties would be entitled under subsection (b) of this section, and funds are not otherwise appropriated to meet the deficiency, the Secretary shall meet the deficiency through a pro rata reduction of all amounts determined under subsection (b) of this section. If the total amount available for distribution in any fiscal year to metropolitan cities and urban counties under this section exceeds the amounts to which metropolitan cities and urban counties would be entitled under subsection (b) of this section, the Secretary shall distribute the excess through a pro rata increase of all amounts determined under subsection (b) of this section.

§ 5318. Urban development action grants

(a) Authorization; purpose; amount

The Secretary is authorized to make urban development action grants to cities and urban counties which are experiencing severe economic distress to help stimulate economic development activity needed to aid in economic recovery. Of the total amount approved in appropriation Acts under section 5303 of this title for each of the fiscal years 1982 and 1983, not more than $500,000,000 shall be available for each of the fiscal years 1982 and 1983 for grants under this section. (b) Eligibility of cities and urban counties; criteria and standards; regulations

(1) Urban development action grants shall be made only to cities and urban counties which have, in the determination of the Secretary, demonstrated results in providing housing for low- and moderate-income persons and in providing equal opportunity in housing and employment for low- and moderate-income persons and members of minority groups. The Secretary shall issue regulations establishing criteria in accordance with the preceding sentence and setting forth minimum standards for determining the level of economic distress of cities and urban counties for eligibility for such grants. These standards shall take into account factors such as the age of housing; the extent of poverty; the extent of population lag; growth of per capita income; and the extent of unemployment, job lag, or surplus labor. Any city that has a population of less than 50,000 persons and is not the central city of a metropolitan area, and that was eligible for fiscal year 1983 under this paragraph for assistance under this section, shall continue to be eligible for such assistance until the Secretary revises the standards for eligibility for such cities under this paragraph and includes the extent of unemployment, job lag, or labor surplus as a standard of distress for such cities. The Secretary shall make such revision as soon as practicable following November 30, 1983.

(2) A city or urban county which fails to meet the minimum standards established pursuant to paragraph (1) shall be eligible for assistance under this section if it meets the requirements of the first sentence of such paragraph and—

(A) in the case of a city with a population of fifty thousand persons or more or an urban county, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, neighborhood statistics areas, or block groups, as defined by the United States Bureau of the Census, having at least a population of ten thousand persons or 10 per centum of the population of the city or urban county; (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income of the city or urban county; and (iii) in which at least 30 per centum of the residents have incomes below the national poverty level; or

(B) in the case of a city with a population of less than fifty thousand persons, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, neighborhood statistics areas, or block groups or other areas defined by the United States Bureau of the Census or for which data certified by the United States Bureau of the Census are available having at least a population of two thousand five hundred persons or 10 per centum of the population of the city, whichever is greater; (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income of the city; and (iii) in which at least 30 per centum of the residents have incomes below the national poverty level.

The Secretary shall use up to, but not more than, 20 per centum of the funds appropriated for use in any fiscal year under this section for the purpose of making grants to cities and urban counties eligible under this paragraph.

(c) Applications; documentation of eligibility; proposed plan; assurance of notice and comment; assurance of consideration on historical landmarks

Applications for assistance under this section shall—

[*See main edition for text of* (1) *and* (2)]

[*See main edition for text of* (4)]

(d) Mandatory selection criteria

(1) Except in the case of a city or urban county eligible under subsection (b)(2) of this section, the Secretary shall establish selection criteria for a national competition for grants under this section which must include (A) as the primary criterion, the comparative degree of economic distress among applicants, as measured (in the case of a metropolitan city or urban county) by the differences in the extent of growth lag, the extent of poverty, and the adjusted age of housing in the metropolitan city or urban county; (B) other factors determined to be relevant by the Secretary in assessing the comparative degree of economic deterioration in cities and urban counties; and (C) at least the following other criteria: demonstrated performance of the city or urban county in housing and community development programs; the extent to which the grant will stimulate economic recovery by leveraging private investment; the number of permanent jobs to be created and their relation to the amount of grant funds requested; the proportion of permanent jobs accessible to lower income persons and minorities, including persons who are unemployed; the impact of the proposed activities on the fiscal base of the city or urban county and its relation to the amount of grant funds requested; the extent to which State or local government funding or special economic incentives have been committed; and the feasibility of accomplishing the proposed activities in a timely fashion within the grant amount available.

[*See main edition for text of* (2); (*e*) *to* (*h*)]

(i) Minimum percentage of funds to be allocated to certain noncentral cities; application by consortia of cities of less than 50,000 population

Not less than 25 per centum of the funds made available for grants under this section shall be used for cities with populations of less than fifty thousand persons which are not central cities of a metropolitan statistical area. The Secretary shall encourage cooperation by geographically proximate cities of less than 50,000 population by permitting consortia of such cities, which may also include county governments that are not urban counties, to apply for grants on behalf of a city that is otherwise eligible for assistance under this section. Any grants awarded to such consortia shall be administered in compliance with eligibility requirements applicable to individual cities.

[*See main edition for text of* (o)]

(q) Technical assistance grants

Of the amounts appropriated for purposes of this section for any fiscal year, not more than $2,500,000 may be used by the Secretary to make technical assistance grants to States or their agencies, municipal technical advisory services operated by universities, or State associations of counties or municipalities, to enable such entities to assist units of general local government described in subsection (i) of this section in developing, applying for assistance for, and implementing programs eligible for assistance under this section.

(r) Nondiscrimination by Secretary among types of programs

In providing assistance under this section, the Secretary may not discriminate among programs on the basis of the particular type of activity involved, whether such activity is primarily a neighborhood, industrial, or commercial activity.

SUBCHAPTER I—GENERALLY

§ 5601. Congressional statement of findings

(a) The Congress hereby finds that—

(1) juveniles accounted for almost half the arrests for serious crimes in the United States in 1974 and for less than one-third of such arrests in 1983;

(2) understaffed, overcrowded juvenile courts, probation services, and correctional facilities and inadequately trained staff in such courts, services, and facilities are not able to provide individualized justice or effective help;

(3) present juvenile courts, foster and protective care programs, and shelter facilities are inadequate to meet the needs of children, who, because of this failure to provide effective services, may become delinquents;

[*See main edition for text of* (*4*)]

(5) juvenile delinquency can be reduced through programs designed to keep students in elementary and secondary schools through the prevention of unwarranted and arbitrary suspensions and expulsions;

[*See main edition for text of* (*6*) *to* (*8*); (*b*)]

SUBCHAPTER IV—MISSING CHILDREN

§ 5771. Findings

The Congress hereby finds that—

(1) each year thousands of children are abducted or removed from the control of a parent having legal custody without such parent's consent, under circumstances which immediately place them in grave danger;

(2) many of these children are never reunited with their families;

(3) often there are no clues to the whereabouts of these children;

(4) many missing children are at great risk of both physical harm and sexual exploitation;

(5) in many cases, parents and local law enforcement officials have neither the resources nor the expertise to mount expanded search efforts;

(6) abducted children are frequently moved from one locality to another, requiring the cooperation and coordination of local, State, and Federal law enforcement efforts;

(7) on frequent occasions, law enforcement authorities quickly exhaust all leads in missing children cases, and require assistance from distant communities where the child may be located; and

(8) Federal assistance is urgently needed to coordinate and assist in this interstate problem.

(Pub. L. 93-415, title IV, § 402, as added Pub. L. 98-473, title II, § 660, Oct. 12, 1984, 98 Stat. 2125.)

SUBCHAPTER I—GENERAL PROVISIONS

§ 6000. Congressional declaration of findings and purpose

(a) The Congress finds that—

(1) there are more than two million persons with developmental disabilities in the United States;

(2) individuals with disabilities occurring during their developmental period are more vulnerable and less able to reach an independent level of existence than other handicapped individuals who generally have had a normal developmental period on which to draw during the rehabilitation process;

(3) persons with developmental disabilities often require specialized lifelong services to be provided by many agencies in a coordinated manner in order to meet the persons' needs;

(4) generic service agencies and agencies providing specialized services to disabled persons tend to overlook or exclude persons with developmental disabilities in their planning and delivery of services; and

(5) it is in the national interest to strengthen specific programs, especially programs that reduce or eliminate the need for institutional care, to meet the needs of persons with developmental disabilities.

(b)(1) It is the overall purpose of this chapter to assist States to (A) assure that persons with developmental disabilities receive the care, treatment, and other services necessary to enable them to achieve their maximum potential through increased independence, productivity, and integration into the community, and (B) establish and operate a system which coordinates, monitors, plans, and evaluates services which ensures the protection of the legal and human rights of persons with developmental disabilities.

(2) The specific purposes of this chapter are—

(A) to assist in the provision of comprehensive services to persons with developmental disabilities, with priority to those persons whose needs are not otherwise met under the Rehabilitation Act of 1973 [29 U.S.C. 701 et seq.] or other health, education, or welfare programs;

(B) to assist States in appropriate planning activities;

(C) to make grants to States and public and private, nonprofit agencies to establish model programs, to demonstrate innovative habilitation techniques, and to train professional and paraprofessional personnel with respect to providing services to persons with developmental disabilities;

(D) to make grants to university affiliated facilities to assist them in administering and operating demonstration facilities for the provision of services to persons with developmental disabilities and interdisciplinary training programs for personnel needed to provide specialized services for these persons; and

(E) to make grants to support a system in each State to protect the legal and human rights of all persons with developmental disabilities.

§ 6009. Congressional finding regarding rights of the developmentally disabled

Congress makes the following findings respecting the rights of persons with developmental disabilities:

(1) Persons with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities.

(2) The treatment, services, and habilitation for a person with developmental disabilities should be designed to maximize the developmental potential of the person and should be provided in the setting that is least restrictive of the person's personal liberty.

(3) The Federal Government and the States both have an obligation to assure that public funds are not provided to any institutional or other residential program for persons with developmental disabilities that—

(A) does not provide treatment, services, and habilitation which is appropriate to the needs of such persons; or

(B) does not meet the following minimum standards:

(i) Provision of a nourishing, well-balanced daily diet to the persons with developmental disabilities being served by the program.

(ii) Provision to such persons of appropriate and sufficient medical and dental services.

(iii) Prohibition of the use of physical restraint on such persons unless absolutely necessary and prohibition of the use of such restraint as a punishment or as a substitute for a habilitation program.

(iv) Prohibition on the excessive use of chemical restraints on such persons and the use of such restraints as punishment or as a substitute for a habilitation program or in quantities that interfere with services, treatment, or habilitation for such persons.

(v) Permission for close relatives of such persons to visit them at reasonable hours without prior notice.

(vi) Compliance with adequate fire and safety standards as may be promulgated by the Secretary.

(4) All programs for persons with developmental disabilities should meet standards which are designed to assure the most favorable possible outcome for those served, and—

(A) in the case of residential programs serving persons in need of comprehensive health-related, habilitative, or rehabilitative services, which are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded promulgated in regulations of the Secretary on January 17, 1974 (39 Fed. Reg. pt. II), as appropriate when taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(B) in the case of other residential programs for persons with developmental disabilities, which assure that care is appropriate to the needs of the persons being served by such programs, assure that the persons admitted to facilities of such programs are persons whose needs can be met through services provided by such facilities, and assure that the facilities under such programs provide for the humane care of the residents of the facilities, are sanitary, and protect their rights; and

(C) in the case of nonresidential programs, which assure the care provided by such programs is appropriate to the persons served by the programs.

The rights of persons with developmental disabilities described in findings made in this section are in addition to any constitutional or other rights otherwise afforded to all persons.

Any State desiring to take advantage of this subchapter must have a State plan submitted to and approved by the Secretary under this section.

(b) Plan requirements and contents

In order to be approved by the Secretary under this section, a State plan for the provision of services for persons with developmental disabilities must meet the following requirements:

(1)(A) The plan must provide for the establishment of a State Planning Council, in accordance with section 6024 of this title, for the assignment to the Council of personnel in such numbers and with such qualifications as the Secretary determines to be adequate to enable the Council to carry out its duties under this chapter, and for the identification of the personnel so assigned.

(B) The plan must designate the State agency or agencies which shall administer or supervise the administration of the State plan and, if there is more than one such agency, the portion of such plan which each will administer (or the portion the administration of which each will supervise).

(C) The plan must provide that each State agency designated under subparagraph (B) will keep such records and afford such access thereto as the Secretary or the State Planning Council finds necessary.

(D) The plan must provide for such fiscal control and fund accounting procedures as may be necessary to assure the proper disbursement of and accounting for funds paid to the State under this subchapter.

(2) The plan must—

(A) set out the specific objectives to be achieved under the plan and a listing of the programs and resources to be used to meet such objectives;

(B) set forth the non-Federal share that will be required in carrying out each such objective and program;

(C) describe (and provide for the review annually and revision of the description not less often than once every three years) (i) the extent and scope of services being provided, or to be provided, to persons with developmental disabilities under such other State plans for federally assisted State programs as the State conducts relating to education for the handicapped, vocational rehabilitation, public assistance, medical assistance, social services, maternal and child health, crippled children's services, and comprehensive health and mental health, and under such other plans as the Secretary may specify, and (ii) how funds allotted to the State in accordance with section 6025 of this title will be used to complement and augment rather than duplicate or replace services for persons with developmental disabilities who are eligible for Federal assistance under such other State programs;

(D) for each fiscal year, assess and describe the extent and scope of the priority services being or to be provided under the plan in the fiscal year; and

(E) establish a method for the periodic evaluation of the plan's effectiveness in meeting the objectives described in subparagraph (A).

(3) The plan must contain or be supported by assurances satisfactory to the Secretary that—

(A) the funds paid to the State under section 6025 of this title will be used to make a significant contribution toward strengthening services for persons with developmental disabilities through agencies in the various political subdivisions of the State;

(B) part of such funds will be made available by the State to public or nonprofit private entities;

(C) not more than 25 percent of such funds will be allocated to the agency or agencies designated under subsection (b)(1)(B) of this section for the provision of services by such agency or agencies;

(D) such funds paid to the State under section 6025 of this title will be used to supplement and to increase the level of funds that would otherwise be made available for the purposes for which Federal funds are provided and not to supplant such non-Federal funds; and

(E) there will be reasonable State financial participation in the cost of carrying out the State plan.

(4)(A) The plan must provide for the examination not less often than once every three years of the provision, and the need for the provision, in the State of the four priority services.

(B) The plan must provide for the development, not later than the second year in which funds are provided under the plan after October 19, 1984, and the timely review and revision of, a comprehensive statewide plan to plan, financially support, coordinate, and otherwise better address, on a statewide and comprehensive basis, unmet needs in the State for the provision of services for persons with developmental disabilities as follows:

(i)(I) Except as provided in subclause (II), the plan shall provide for the provision of at least one but not more than two priority services.

(II) In fiscal year 1987, the plan may provide for the provision of three priority services.

(ii) For any fiscal year after fiscal year 1986 for which the total appropriations under section 6030 of this title are at least $50,250,000, the plan shall provide for the provision of employment related activities among the priority services to be provided under the plan.

(iii) At the option of the State, the plan may provide for the provision of one or more additional services for persons with developmental disabilities from the services described in section 6001(11)(A)(ii) of this title.

(C) Notwithstanding subparagraph (E)(i), upon application of a State, which under section 6063(b)(4)(C) of this title (as in effect on October 18, 1984) was permitted to make expenditures for services without regard to the requirements of section 6063(b)(4)(B) of this title (as so in effect) the Secretary, pursuant to regulations which the Secretary shall prescribe, may permit a portion of the funds which, pursuant to subparagraph (E)(i), must otherwise be expended under the State plan of such State for service activities in the priority services, to be expended in fiscal years 1985, 1986, and 1987 for the additional services for which expenditure was permitted under section 6063(b)(4)(C) of this title (as so in effect) if the Secretary determines that—

(E)(i) The plan must provide that not less than 65 percent of the amount available to the State under section 6025 of this title will be expended for service activities in the priority services.

(ii) The plan must provide that the remainder of the amount available to the State from allotments under section 6025 of this title (after making the expenditures required by clause (i) of this paragraph) shall be used for service activities for persons with developmental disabilities, and the planning, coordination, and administration of, and the advocacy for, the provision of such services.

(F) The plan must provide that special financial and technical assistance shall be given to agencies or entities providing services for persons with developmental disabilities who are residents of geographical areas designated as urban or rural poverty areas.

(5)(A)(i) The plan must provide that services furnished, and the facilities in which they are furnished, under the plan for persons with developmental disabilities will be in accordance with standards prescribed by the Secretary in regulations.

(ii) The plan must provide satisfactory assurances that buildings used in connection with the delivery of services assisted under the plan will meet standards adopted pursuant to the Act of August 12, 1968 (known as the Architectural Barriers Act of 1968) [42 U.S.C. 4151 et seq.].

(B) The plan must provide that services are provided in an individualized manner consistent with the requirements of section 6023 of this title (relating to habilitation plans).

(C) The plan must contain or be supported by assurances satisfactory to the Secretary that the human rights of all persons with developmental disabilities (especially those persons without familial protection) who are receiving treatment, services, or habilitation under programs assisted under this subchapter will be protected consistent with section 6009 of this title (relating to rights of the developmentally disabled).

(D) The plan must provide assurances that the State has undertaken affirmative steps to assure the participation in programs under this chapter of individuals generally representative of the population of the State, with particular attention to the participation of members of minority groups.

(6)(A) The plan must provide for the maximum utilization of all available community resources including volunteers serving under the Domestic Volunteer Service Act of 1973 [42 U.S.C. 4951 et seq.] and other appropriate voluntary organizations, except that such volunteer services shall supplement, and shall not be in lieu of, services of paid employees.

(B) The plan must provide for fair and equitable arrangements (as determined by the Secretary after consultation with the Secretary of Labor) to protect the interests of employees affected by actions under the plan to provide alternative community living arrangement services, including arrangements designed to preserve employee rights and benefits and to provide training and retraining of such employees where necessary and arrangements under which maximum efforts will be made to guarantee the employment of such employees.

(7) The plan also must contain such additional information and assurances as the Secretary may find necessary to carry out the provisions and purposes of this subchapter.

Payments under this paragraph may be made in advance or by way of reimbursement, and in such installments, as the Secretary may determine.

(2) Any amount paid under paragraph (1) to any State for any fiscal year shall be paid on condition that there shall be expended from the State sources for such year for administration of the State plan approved under this section not less than the total amount expended for such purposes from such sources during the previous fiscal year.

§ 6025. State allotments

(a) Determination of amount

(1) For each fiscal year, the Secretary shall, in accordance with regulations and this paragraph, allot the sums appropriated for such year under section 6030 of this title among the States on the basis of—

(A) the population,

(B) the extent of need for services for persons with developmental disabilities, and

(C) the financial need,

of the respective States. Sums allotted to the States under this section shall be used in accordance with approved State plans under section 6022 of this title for the provision under such plans of services for persons with developmental disabilities.

(2) Adjustments in the amounts of State allotments based on subparagraphs (A), (B), and (C) of paragraph (1) may be made not more often than annually. The Secretary shall notify States of any adjustment made not less than six months before the beginning of the fiscal year in which such adjustment is to take effect.

(3)(A) Except as provided in paragraph (4), for any fiscal year the allotment under paragraph (1)—

(i) to each of American Samoa, Guam, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, or the Trust Territory of the Pacific Islands may not be less than $100,000, and

(ii) to any other State may not be less than the greater of $250,000, or the amount of the allotment (determined without regard to subsection (d) of this section) received by the State for the fiscal year ending September 30, 1984.

(B) Notwithstanding subparagraph (A), if the aggregate of the amounts to be allotted to each State pursuant to subparagraph (A) in any fiscal year exceeds the total amount appropriated under section 6030 of this title for such fiscal year, the amount to be allotted to a State for such fiscal year shall be an amount which bears the same ratio to the amount which is to be allotted to the State pursuant to such subparagraph as the total amount appropriated under section 6030 of this title for such fiscal year bears to the total of the amount required to be appropriated under such section for allotments to provide each State with the allotment required by such subparagraph.

(4) In any case in which amounts appropriated under section 6030 of this title for a fiscal year exceed $47,000,000, the allotment under paragraph (1) for such fiscal year—

(A) to each of American Samoa, Guam, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, or the Trust Territory of the Pacific Islands may not be less than $160,000; and

(B) to each of the several States, Puerto Rico, or the District of Columbia, may not be less than $300,000.

(5) In determining, for purposes of paragraph (1)(B), the extent of need in any State for services for persons with developmental disabilities, the Secretary shall take into account the scope and extent of the services described, pursuant to section 6022(b)(2)(C) of this title, in the State plan of the State.

(b) Apportionment of allotment among State agencies

Whenever the State plan approved in accordance with section 6022 of this title provides for participation of more than one State agency in administering or supervising the administration of designated portions of the State plan, the State may apportion its allotment among such agencies in a manner which, to the satisfaction of the Secretary, is reasonably related to the responsibilities assigned to such agencies in carrying out the purposes of the State plan. Funds so apportioned to State agencies may be combined with other State or Federal funds authorized to be spent for other purposes, provided the purposes of the State plan will receive proportionate benefit from the combination.

(c) Combined allotments to States involved in joint effort

Whenever the State plan approved in accordance with section 6022 of this title provides for cooperative or joint effort between States or between or among agencies, public or private, in more than one State, portions of funds allotted to one or more such cooperating States may be combined in accordance with the agreements between the agencies involved.

(d) Reallotment of funds not required by State

The amount of an allotment to a State for a fiscal year which the Secretary determines will not be required by the State during the period for which it is available for the purpose for which allotted shall be available for reallotment by the Secretary from time to time, on such date or dates as the Secretary may fix (but not earlier than thirty days after the Secretary has published notice of the intention of the Secretary to make such reallotment in the Federal Register), to other States with respect to which such a determination has not been made, in proportion to the original allotments of such States for such fiscal year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates such State needs and will be able to use during such period; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount so reallotted to a State for a fiscal year shall be deemed to be a part of its allotment under subsection (a) of this section for such fiscal year.

§ 6027. Withholding of payments for planning, administration, and services

Whenever the Secretary, after reasonable notice and opportunity for hearing to the State Planning Council and the appropriate State agency designated pursuant to section 6022(b)(1) of this title finds that—

(1) there is a failure to comply substantially with any of the provisions required by section 6022 of this title to be included in the State plan; or

§ 6042. System requirement

(a) Subchapter II

In order for a State to receive an allotment under subchapter II of this chapter—

(1) the State must have in effect a system to protect and advocate the rights of persons with developmental disabilities;

(2) such system must—

(A) have the authority to pursue legal, administrative, and other appropriate remedies to ensure the protection of the rights of such persons who are receiving treatment, services, or habilitation within the State and to provide information on and referral to programs and services addressing the needs of persons with developmental disabilities;

(B) not be administered by the State Planning Council;

(C) be independent of any agency which provides treatment, services, or habilitation to persons with developmental disabilities; and

(D) except as provided in subsection (b) of this section, be able to obtain access to the records of a person with developmental disabilities who resides in a facility for persons with developmental disabilities if—

(i) a complaint has been received by the system from or on behalf of such person; and

(ii) such person does not have a legal guardian or the State or the designee of the State is the legal guardian of such person;

(3) the State must provide assurances to the Secretary that funds allotted to the State under this section will be used to supplement and increase the level of funds that would otherwise be made available for the purposes for which Federal funds are provided and not to supplant such non-Federal funds;

(4) the State must provide assurances to the Secretary that such system will be provided with a copy of each annual survey report and plan of corrections for cited deficiencies made pursuant to section 1396a(a)(31)(B) of this title with respect to any intermediate care facility for the mentally retarded in the State within 30 days after the completion of each such report or plan; and

(5) the State must provide assurances satisfactory to the Secretary that the agency implementing the system will not be redesignated unless there is good cause for the redesignation and unless notice has been given of the intention to make such redesignation to persons with developmental disabilities or their representatives.

(b) Application

Prior to October 1, 1986, the provisions of paragraph (2)(D) of subsection (a) of this section shall not apply to any State in which the laws of the State prohibit the system required under such subsection from obtaining access to the records of a person with developmental disabilities under the conditions described in such paragraph.

(c) Allotments to States; percentage limitation

(1) To assist States in meeting the requirements of subsection (a) of this section, the Secretary shall allot to the States the amounts appropriated under section 6043 of this title. Allotments and reallotments of such sums shall be made on the same basis as the allotments and reallotments are made under the first sen-

(A) the total amount appropriated under section 6043 of this title for a fiscal year is at least $11,000,000—

(i) the allotment of each of American Samoa, Guam, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands for such fiscal year shall not be less than $80,000; and

(ii) the allotment to each of the several States, Puerto Rico, and the District of Columbia for such fiscal year shall not be less than $150,000; or

(2) A State may use not more than 5 percent of any allotment under this subsection for the costs of monitoring the administration of the system required under subsection (a) of this section.

(3) Notwithstanding paragraph (1), if the aggregate of the amounts of the allotments to be made in accordance with such paragraph for any fiscal year exceeds the total of the amounts appropriated for such allotments under section 6043 of this title, the amount of a State's allotment for such fiscal year shall bear the same ratio to the amount otherwise determined under such paragraph as the total of the amounts appropriated for that year under section 6043 of this title bears to the aggregate amount required to make an allotment to each of the States in accordance with paragraph (1).

(A) the quantity of crude oil in storage within the Strategic Petroleum Reserve is at least 500,000,000 barrels; or

§ 6241. Drawdown and distribution of Reserve

[*See main edition for text of* (*a*)]

(b) Drawdown and distribution of Reserve in accordance with Distribution Plan contained in Strategic Petroleum Reserve Plan

Except as provided in subsections (c), (f), and (g) of this section, no drawdown and distribution of the Reserve may be made except in accordance with the provisions of the Distribution Plan contained in the Strategic Petroleum Reserve Plan which has taken effect pursuant to section 6239(a) of this title.

[*See main edition for text of* (*c*) *to* (*f*)]

(g) Directive to carry out test drawdown

(1) In order to evaluate the implementation of the Distribution Plan, the Secretary shall, commencing within 180 days after July 2, 1985, carry out a test drawdown and distribution under this subsection through the sale or exchange of approximately 1,100,000 barrels of crude oil from the Reserve. The requirement of this paragraph shall not apply if the President determines, within the 180-day period described in the preceding sentence, that implementation of the Distribution Plan is required by a severe

energy supply interruption or by obligations of the United States under the international energy program.

(2) The Secretary shall carry out such drawdown and distribution in accordance with the Distribution Plan and implementing regulations and contract provisions, modified as the Secretary considers appropriate taking into consideration the artificialities of a test and the absence of a severe energy supply interruption. To meet the requirements of subsections (d) and (e) of section 6239 of this title, the Secretary shall transmit any such modification of the Plan, along with explanatory and supporting material, to both Houses of the Congress no later than 15 calendar days prior to the offering of any crude oil for sale under this subsection.

(3) At least part of the crude oil that is sold or exchanged under this subsection shall be sold or exchanged to or with entities that are not part of the Federal Government.

(4) The Secretary may not sell any crude oil under this subsection at a price less than that which the Secretary determines appropriate and, in no event, at a price less than 90 percent of the sales price, as estimated by the Secretary, of comparable crude oil being sold in the same area at the time the Secretary is offering crude oil for sale in such area under this subsection.

(5) The Secretary may cancel any offer to sell or exchange crude oil as part of any drawdown and distribution under this subsection if the Secretary determines that there are insufficient acceptable offers to obtain such crude oil.

(6)(A) The minimum required fill rate in effect for any fiscal year shall be reduced by the amount of any crude oil drawdown from the Reserve under this subsection during such fiscal year.

(B) In the case of a sale of any crude oil under this subsection, the Secretary shall, to the extent funds are available in the SPR Petroleum Account as a result of such sale, acquire crude oil for the Reserve within the 12-month period beginning after the completion of the sale. Such acquisition shall be in addition to any acquisition of crude oil for the Reserve required as part of a fill rate established by any other provision of law.

(7) Rules, regulations, or orders issued in order to carry out this subsection which have the applicability and effect of a rule as defined in section 551(4) of title 5 shall not be subject to the requirements of subchapter II of chapter 5 of such title or to section 6393 of this title.

(8) The Secretary shall transmit to both Houses of the Congress a detailed explanation of the drawdown and distribution carried out under this subsection. Such explanation may be a part of any report made to the President and the Congress under section 6245 of this title.

Each may propose any alternative which would avoid or overcome, to the greatest extent practicable, possible anticompetitive effects while achieving substantially the purposes of this part. A voluntary agreement or plan of action under this section may not be carried out unless approved by the Attorney General, after consultation with the Federal Trade Commission. Prior to the expiration of the period determined under paragraph (2), the Federal Trade Commission shall transmit to the Attorney General its views as to whether such an agreement or plan of action should be approved, and shall publish such views in the Federal Register. The Attorney General, in consultation with the Federal Trade Commission, the Secretary of State, and the Secretary, shall have the right to review, amend, modify, disapprove, or revoke, on his own motion or upon the request of the Federal Trade Commission or any interested person, any voluntary agreement or plan of action at any time, and, if revoked, thereby withdraw prospectively any immunity which may be conferred by subsection (f) or (j) of this section.

(j) Defense in breach of contract actions

In any action in any Federal or State court for breach of contract, there shall be available as a defense that the alleged breach of contract was caused predominantly by action taken during an international energy supply emergency to carry out a voluntary agreement or plan of action authorized and approved in accordance with this section.

(k) Definitions

As used in this section and section 6274 of this title:

(1) The term "international energy supply emergency" means any period (A) beginning on any date which the President determines allocation of petroleum products to nations participating in the international energy program is required by chapters III and IV of such program, and (B) ending on a date on which he determines that such allocation is no longer required. Such a period may not exceed 90 days, but the President may establish one or more additional 90-day periods by making anew the determination under sub-

paragraph (A) of the preceding sentence. Any determination respecting the beginning or end of any such period shall be published in the Federal Register.

(2) The term "allocation and information provisions of the international energy program" means the provisions of the international energy program which relate to international allocation of petroleum products and to the information system provided in such program.

(*l*) Applicability of authority

The authority granted by this section shall apply only to the development or carrying out of voluntary agreements and plans of action to implement chapters III, IV, and V of the international energy program.

(m) Limitation on new plans of action

(1) With respect to any plan of action approved by the Attorney General after July 2, 1985—

(A) the defenses under subsection (f) and (j) of this section shall be applicable to Type 1 activities (as that term is defined in the International Energy Agency Emergency Management Manual, dated December 1982) only if—

(i) the Secretary has transmitted such plan of action to the Congress; and

(ii)(I) 90 calendar days of continuous session have elapsed since receipt by the Congress of such transmittal; or

(II) within 90 calendar days of continuous session after receipt of such transmittal, either House of the Congress has disapproved a joint resolution of disapproval pursuant to subsection (n) of this section; and

(B) such defenses shall not be applicable to Type 1 activities if there has been enacted, in accordance with subsection (n) of this section, a joint resolution of disapproval.

(2) The Secretary may withdraw the plan of action at any time prior to adoption of a joint resolution described in subsection (n)(3) of this section by either House of Congress.

(3) For the purpose of this subsection—

(A) continuity of session is broken only by an adjournment of the Congress sine die at the end of the second session of Congress; and

(B) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of the calendar-day period involved.

(n) Joint resolution of disapproval

(1)(A) The application of defenses under subsections (f) and (j) of this section for Type 1 activities with respect to any plan of action transmitted to Congress as described in subsection (m)(1)(A)(i) of this section shall be disapproved if a joint resolution of disapproval has been enacted into law during the 90-day period of continuous session after which such transmission was received by the Congress. For the purpose of this subsection, the term "joint resolution" means only a joint resolution of either House of the Congress as described in paragraph (3).

(B) After receipt by the Congress of such plan of action, a joint resolution of disapproval may be introduced in either House of the Congress. Upon introduction in the Senate, the joint resolution shall be referred in the Senate immediately to the Committee on Energy and Natural Resources of the Senate.

(2) This subsection is enacted by the Congress—

(A) as an exercise of the rulemaking power of the Senate and as such it is deemed a part of the rules of the Senate, but applicable only with respect to the procedure to be followed in the Senate in the case of resolutions described by paragraph (3); it supersedes other rules only to the extent that is inconsistent therewith; and

(B) with full recognition of the constitutional right of the Senate to change the rules (so far as relating to the procedure of the Senate) at any time, in the same manner and to the same extent as in the case of any other rule of the Senate.

(3) The joint resolution disapproving the transmission under subsection (m) of this section shall read as follows after the resolving clause: "That the Congress of the United States disapproves the availability of the defenses pursuant to section 252 (f) and (j) of the Energy Policy and Conservation Act with respect to Type 1 activities under the plan of action submitted to the Congress by the Secretary of Energy on   .", the blank space therein being filled with the date and year of receipt by the Congress of the plan of action transmitted as described in subsection (m) of this section.

(4)(A) If the Committee on Energy and Natural Resources of the Senate has not reported a joint resolution referred to it under this subsection at the end of 20 calendar days of continuous session after its referral, it shall be in order to move either to discharge the committee from further consideration of such resolution or to discharge the committee from further consideration of any other joint resolution which has been referred to the committee with respect to such plan of action.

(B) A motion to discharge shall be highly privileged (except that it may not be made after the Committee on Energy and Natural Resources has reported a joint resolution with respect to the plan of action), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the joint resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(C) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other joint resolution with respect to the same transmission.

(5)(A) When the Committee on Energy and Natural Resources of the Senate has reported or has been discharged from further consideration of a joint resolution, it shall be in order at any time thereafter within the 90-day period following receipt by the Congress of the plan of action (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of such joint resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider a vote by which the motion was agreed to or disagreed to.

(B) Debate on the joint resolution shall be limited to not more than 10 hours and final action on the joint resolution shall occur immediately following conclusion of such debate. A motion further to limit debate shall not be debatable. A motion to recommit such a joint resolution shall not be in order, and it shall not be in order to move to reconsider the vote by which such a joint resolution was agreed to or disagreed to.

(6)(A) Motions to postpone made with respect to the discharge from committee or consideration of a joint resolution, shall be decided without debate.

(B) Appeals from the decision of the Chair relating to the application of rules of the Senate to the procedures relating to a joint resolution shall be decided without debate.

SUBCHAPTER I—GENERAL PROVISIONS

§ 6901. Congressional findings

[See main edition for text of (a)]

(b) Environment and health

The Congress finds with respect to the environment and health, that—

[See main edition for text of (1) to (4)]

(5) the placement of inadequate controls on hazardous waste management will result in substantial risks to human health and the environment;

(6) if hazardous waste management is improperly performed in the first instance, corrective action is likely to be expensive, complex, and time consuming;

(7) certain classes of land disposal facilities are not capable of assuring long-term containment of certain hazardous wastes, and to avoid substantial risk to human health and the environment, reliance on land disposal should be minimized or eliminated, and land disposal, particularly landfill and surface impoundment, should be the least favored method for managing hazardous wastes; and

(8) alternatives to existing methods of land disposal must be developed since many of the cities in the United States will be running out of suitable solid waste disposal sites within five years unless immediate action is taken.

[See main edition for text of (c) and (d)]

(As amended Pub. L. 98-616, title I, § 101(a), Nov. 8, 1984, 98 Stat. 3224.)

AMENDMENTS

1984—Subsec. (b)(5) to (8). Pub. L. 98-616 added pars. (5) to (7), struck out former par. (5) providing that "hazardous waste presents, in addition to the problems associated with non-hazardous solid waste, special dangers to health and requires a greater degree of regulation than does non-hazardous solid waste; and", redesignated former par. (6) as (8), and substituted a period for a semicolon at the end.

SHORT TITLE OF 1984 AMENDMENT

Section 1 of Pub. L. 98-616 provided that: "This Act [enacting sections 6917, 6936 to 6939a, 6949a, 6979a, 6979b, and 6991 to 6991i of this title, amending sections 6901, 6902, 6905, 6912, 6915, 6916, 6921 to 6933, 6935, 6941 to 6945, 6948, 6956, 6962, 6972, 6973, 6976, 6982 and 6984 of this title and enacting provisions set out as notes under sections 6905, 6921 and 6926 of this title] may be cited as 'The Hazardous and Solid Waste Amendments of 1984'."

§ 6902. Objectives and national policy

(a) Objectives

The objectives of this chapter are to promote the protection of health and the environment and to conserve valuable material and energy resources by—

(1) providing technical and financial assistance to State and local governments and interstate agencies for the development of solid waste management plans (including resource recovery and resource conservation systems) which will promote improved solid waste management techniques (including more effective organizational arrangements), new and improved methods of collection, separation, and recovery of solid waste, and the environmentally safe disposal of nonrecoverable residues;

(2) providing training grants in occupations involving the design, operation, and maintenance of solid waste disposal systems;

(3) prohibiting future open dumping on the land and requiring the conversion of existing open dumps to facilities which do not pose a danger to the environment or to health;

(4) assuring that hazardous waste management practices are conducted in a manner which protects human health and the environment;

(5) requiring that hazardous waste be properly managed in the first instance thereby reducing the need for corrective action at a future date;

(6) minimizing the generation of hazardous waste and the land disposal of hazardous waste by encouraging process substitution, materials recovery, properly conducted recycling and reuse, and treatment;

(7) establishing a viable Federal-State partnership to carry out the purposes of this chapter and insuring that the Administrator will, in carrying out the provisions of subchapter III of this chapter, give a high priority to assisting and cooperating with States in obtaining full authorization of State programs under subchapter III of this chapter;

(8) providing for the promulgation of guidelines for solid waste collection, transport, separation, recovery, and disposal practices and systems;

(9) promoting a national research and development program for improved solid waste management and resource conservation techniques, more effective organizational arrangements, and new and improved methods of collection, separation, and recovery, and recycling of solid wastes and environmentally safe disposal of nonrecoverable residues;

(10) promoting the demonstration, construction, and application of solid waste management, resource recovery, and resource conservation systems which preserve and enhance the quality of air, water, and land resources; and

(11) establishing a cooperative effort among the Federal, State, and local governments and private enterprise in order to recover valuable materials and energy from solid waste.

(b) National policy

The Congress hereby declares it to be the national policy of the United States that, wherever feasible, the generation of hazardous waste is to be reduced or eliminated as expeditiously as possible. Waste that is nevertheless generated should be treated, stored, or disposed of so as to minimize the present and future threat to human health and the environment.

(As amended Pub. L. 98-616, title I, § 101(b), Nov. 8, 1984, 98 Stat. 3224.)

AMENDMENTS

1984—Subsec. (a). Pub. L. 98-616, § 101(b)(1), designated existing provisions as subsec. (a).

Subsec. (a)(4) to (11). Pub. L. 98-616, § 101(b)(2), struck out par. (4) which provided for regulating the treatment, storage, transportation, and disposal of hazardous wastes which have adverse effects on health and the environment, added pars. (4) to (7), and redesignated former pars. (5) to (8) as (8) to (11), respectively.

Subsec. (b). Pub. L. 98-616, § 101(b)(1), added subsec. (b).

§ 6905. Application of chapter and integration with other Acts

[See main edition for text of (a)]

(b) Integration with other Acts

(1) The Administrator shall integrate all provisions of this chapter for purposes of administration and enforcement and shall avoid duplication, to the maximum extent practicable, with the appropriate provisions of the Clean Air Act [42 U.S.C. 7401 et seq.], the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.], the Federal Insecticide, Fungicide, and Rodenticide Act [7 U.S.C. 136 et seq.], the Safe Drinking Water Act [42 U.S.C. 300f et seq.], the Marine Protection, Research and Sanctuaries Act of 1972 [33 U.S.C. 1401 et seq.], and such other Acts of Congress as grant regulatory authority to the Administrator. Such integration shall be effected only to the extent that it can be done in a manner consistent with the goals and policies expressed in this chapter and in the other acts referred to in this subsection.

(2)(A) As promptly as practicable after November 8, 1984, the Administrator shall submit a report describing—

(i) the current data and information available on emissions of polychlorinated dibenzo-p-dioxins from resource recovery facilities burning municipal solid waste;

(ii) any significant risks to human health posed by these emissions; and

(iii) operating practices appropriate for controlling these emissions.

(B) Based on the report under subparagraph (A) and on any future information on such emissions, the Administrator may publish advisories or guidelines regarding the control of dioxin emissions from such facilities. Nothing in this paragraph shall be construed to preempt or otherwise affect the authority of the Administrator to promulgate any regulations under the Clean Air Act [42 U.S.C. 7401 et seq.] regarding emissions of polychlorinated dibenzo-p-dioxins.

(3) Notwithstanding any other provisions of law, in developing solid waste plans, it is the intention of this chapter that in determining the size of a waste-to-energy facility, adequate provisions shall be given to the present and reasonably anticipated future needs, including those needs created by thorough implementation of section 6962(h) of this title, of the recycling and resource recovery interests within the area encompassed by the solid waste plan.

SUBCHAPTER III—HAZARDOUS WASTE MANAGEMENT

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 2022, 6902, 6905, 6916, 6948, 6949a, 6972, 6991, 9601, 9603, 9604, 9607, 9608, 9651 of this title.

§ 6921. Identification and listing of hazardous waste

[*See main edition for text of* (*a*)]

(b) Identification and listing

(1) Not later than eighteen months after October 21, 1976, and after notice and opportunity for public hearing, the Administrator shall promulgate regulations identifying the characteristics of hazardous waste, and listing particular hazardous wastes (within the meaning of section 6903(5) of this title), which shall be subject to the provisions of this subchapter. Such regulations shall be based on the criteria promulgated under subsection (a) of this section and shall be revised from time to time thereafter as may be appropriate. The Administrator, in cooperation with the Agency for Toxic Substances and Disease Registry and the National Toxicology Program, shall also identify or list those hazardous wastes which shall be subject to the provisions of this subchapter solely because of the presence in such wastes of certain constituents (such as identified carcinogens, mutagens, or teratagens) at levels in excess of levels which endanger human health.

[*See main edition for text of* (*2*) *and* (*3*); (*c*)]

(d) Small quantity generator waste

(1) By March 31, 1986, the Administrator shall promulgate standards under sections 6922, 6923, and 6924 of this title for hazardous waste generated by a generator in a total quantity of hazardous waste greater than one hundred kilograms but less than one thousand kilograms during a calendar month.

(2) The standards referred to in paragraph (1), including standards applicable to the legitimate use, reuse, recycling, and reclamation of such wastes, may vary from the standards ap-

plicable to hazardous waste generated by larger quantity generators, but such standards shall be sufficient to protect human health and the environment.

(3) Not later than two hundred and seventy days after November 8, 1984, any hazardous waste which is part of a total quantity generated by a generator generating greater than one hundred kilograms but less than one thousand kilograms during one calendar month and which is shipped off the premises on which such waste is generated shall be accompanied by a copy of the Environmental Protection Agency Uniform Hazardous Waste Manifest form signed by the generator. This form shall contain the following information:

(A) the name and address of the generator of the waste;

(B) the United States Department of Transportation description of the waste, including the proper shipping name, hazard class, and identification number (UN/NA), if applicable;

(C) the number and type of containers;

(D) the quantity of waste being transported; and

(E) the name and address of the facility designated to receive the waste.

If subparagraph (B) is not applicable, in lieu of the description referred to in such subparagraph (B), the form shall contain the Environmental Protection Agency identification number, or a generic description of the waste, or a description of the waste by hazardous waste characteristic. Additional requirements related to the manifest form shall apply only if determined necessary by the Administrator to protect human health and the environment.

(4) The Administrator's responsibility under this subchapter to protect human health and the environment may require the promulgation of standards under this subchapter for hazardous wastes which are generated by any generator who does not generate more than one hundred kilograms of hazardous waste in a calendar month.

(5) Until the effective date of standards required to be promulgated under paragraph (1), any hazardous waste identified or listed under this section generated by any generator during any calendar month in a total quantity greater than one hundred kilograms but less than one thousand kilograms, which is not treated, stored, or disposed of at a hazardous waste treatment, storage, or disposal facility with a permit under section 6925 of this title, shall be disposed of only in a facility which is permitted, licensed, or registered by a State to manage municipal or industrial solid waste.

(6) Standards promulgated as provided in paragraph (1) shall, at a minimum, require that all treatment, storage, or disposal of hazardous wastes generated by generators referred to in paragraph (1) shall occur at a facility with interim status or a permit under this subchapter, except that onsite storage of hazardous waste generated by a generator generating a total quantity of hazardous waste greater than one hundred kilograms, but less than one thousand kilograms during a calendar month, may occur without the requirement of a permit for up to one hundred and eighty days. Such onsite storage may occur without the requirement of a permit for not more than six thousand kilograms for up to two hundred and seventy days if such generator must ship or haul such waste over two hundred miles.

(7)(A) Nothing in this subsection shall be construed to affect or impair the validity of regulations promulgated by the Secretary of Transportation pursuant to the Hazardous Materials Transportation Act [49 App. U.S.C. 1801 et seq.].

(B) Nothing in this subsection shall be construed to affect, modify, or render invalid any requirements in regulations promulgated prior to January 1, 1983 applicable to any acutely hazardous waste identified or listed under this section which is generated by any generator during any calendar month in a total quantity less than one thousand kilograms.

(8) Effective March 31, 1986, unless the Administrator promulgates standards as provided in paragraph (1) of this subsection prior to such date, hazardous waste generated by any generator in a total quantity greater than one hundred kilograms but less than one thousand kilograms during a calendar month shall be subject to the following requirements until the standards referred to in paragraph (1) of this subsection have become effective:

(A) the notice requirements of paragraph (3) of this subsection shall apply and in addition, the information provided in the form shall include the name of the waste transporters and the name and address of the facility designated to receive the waste;

(B) except in the case of the onsite storage referred to in paragraph (6) of this subsection, the treatment, storage, or disposal of such waste shall occur at a facility with interim status or a permit under this subchapter;

(C) generators of such waste shall file manifest exception reports as required of generators producing greater amounts of hazardous waste per month except that such reports shall be filed by January 31, for any waste shipment occurring in the last half of the preceding calendar year, and by July 31, for any waste shipment occurring in the first half of the calendar year; and

(D) generators of such waste shall retain for three years a copy of the manifest signed by the designated facility that has received the waste.

Nothing in this paragraph shall be construed as a determination of the standards appropriate under paragraph (1).

(9) The last sentence of section 6930(b) of this title shall not apply to regulations promulgated under this subsection.

(e) Specified wastes

(1) Not later than 6 months after November 8, 1984, the Administrator shall, where appropriate, list under subsection (b)(1) of this section, additional wastes containing chlorinated dioxins or chlorinated-dibenzofurans. Not later than one year after November 8, 1984, the Administrator shall, where appropriate, list under subsection (b)(1) of this section wastes contain-

ing remaining halogenated dioxins and halogenated-dibenzofurans.

(2) Not later than fifteen months after November 8, 1984, the Administrator shall make a determination of whether or not to list under subsection (b)(1) of this section the following wastes: Chlorinated Aliphatics, Dioxin, Dimethyl Hydrazine, TDI (toluene diisocyanate), Carbamates, Bromacil, Linuron, Organo-bromines, solvents, refining wastes, chlorinated aromatics, dyes and pigments, inorganic chemical industry wastes, lithium batteries, coke byproducts, paint production wastes, and coal slurry pipeline effluent.

(f) Delisting procedures

(1) When evaluating a petition to exclude a waste generated at a particular facility from listing under this section, the Administrator shall consider factors (including additional constituents) other than those for which the waste was listed if the Administrator has a reasonable basis to believe that such additional factors could cause the waste to be a hazardous waste. The Administrator shall provide notice and opportunity for comment on these additional factors before granting or denying such petition.

(2)(A) To the maximum extent practicable the Administrator shall publish in the Federal Register a proposal to grant or deny a petition referred to in paragraph (1) within twelve months after receiving a complete application to exclude a waste generated at a particular facility from being regulated as a hazardous waste and shall grant or deny such a petition within twenty-four months after receiving a complete application.

(B) The temporary granting of such a petition prior to November 8, 1984, without the opportunity for public comment and the full consideration of such comments shall not continue for more than twenty-four months after November 8, 1984. If a final decision to grant or deny such a petition has not been promulgated after notice and opportunity for public comment within the time limit prescribed by the preceding sentence, any such temporary granting of such petition shall cease to be in effect.

(g) EP toxicity

Not later than twenty-eight months after November 8, 1984, the Administrator shall examine the deficiencies of the extraction procedure toxicity characteristic as a predictor of the leaching potential of wastes and make changes in the extraction procedure toxicity characteristic, including changes in the leaching media, as are necessary to insure that it accurately predicts the leaching potential of wastes which pose a threat to human health and the environment when mismanaged.

(h) Additional characteristics

Not later than two years after November 8, 1984, the Administrator shall promulgate regulations under this section identifying additional characteristics of hazardous waste, including measures or indicators of toxicity.

(i) Clarification of household waste exclusion

A resource recovery facility recovering energy from the mass burning of municipal solid waste shall not be deemed to be treating, storing, disposing of, or otherwise managing hazardous wastes for the purposes of regulation under this subchapter, if—

(1) such facility—

(A) receives and burns only—

(i) household waste (from single and multiple dwellings, hotels, motels, and other residential sources), and

(ii) solid waste from commercial or industrial sources that does not contain hazardous waste identified or listed under this section, and

(B) does not accept hazardous wastes identified or listed under this section, and

(2) the owner or operator of such facility has established contractual requirements or other appropriate notification or inspection procedures to assure that hazardous wastes are not received at or burned in such facility.

Not later than eighteen months after October 21, 1976, and after notice and opportunity for public hearings and after consultation with appropriate Federal and State agencies, the Administrator shall promulgate regulations establishing such standards, applicable to generators of hazardous waste identified or listed under this subchapter, as may be necessary to protect human health and the environment. Such standards shall establish requirements respecting—

(1) recordkeeping practices that accurately identify the quantities of such hazardous waste generated, the constituents thereof which are significant in quantity or in potential harm to human health or the environment, and the disposition of such wastes;

(2) labeling practices for any containers used for the storage, transport, or disposal of such hazardous waste such as will identify accurately such waste;

§ 6924. Standards applicable to owners and operators of hazardous waste treatment, storage, and disposal facilities

(a) In general

Not later than eighteen months after October 21, 1976, and after opportunity for public hearings and after consultation with appropriate Federal and State agencies, the Administrator shall promulgate regulations establishing such performance standards, applicable to owners and operators of facilities for the treatment, storage, or disposal of hazardous waste identified or listed under this subchapter, as may be necessary to protect human health and the environment. In establishing such standards the Administrator shall, where appropriate, distinguish in such standards between requirements appropriate for new facilities and for facilities in existence on the date of promulgation of such regulations. Such standards shall include, but need not be limited to, requirements respecting—

(1) maintaining records of all hazardous wastes identified or listed under this chapter which is treated, stored, or disposed of, as the case may be, and the manner in which such wastes were treated, stored, or disposed of;

(2) satisfactory reporting, monitoring, and inspection and compliance with the manifest system referred to in section 6922(5) [2] of this title;

(3) treatment, storage, or disposal of all such waste received by the facility pursuant to such operating methods, techniques, and practices as may be satisfactory to the Administrator;

(4) the location, design, and construction of such hazardous waste treatment, disposal, or storage facilities;

(5) contingency plans for effective action to minimize unanticipated damage from any treatment, storage, or disposal of any such hazardous waste;

(6) the maintenance of operation of such facilities and requiring such additional qualifications as to ownership, continuity of operation, training for personnel, and financial responsibility (including financial responsibility for corrective action) as may be necessary or desirable; and

(7) compliance with the requirements of section 6925 of this title respecting permits for treatment, storage, or disposal.

No private entity shall be precluded by reason of criteria established under paragraph (6) from the ownership or operation of facilities providing hazardous waste treatment, storage, or disposal services where such entity can provide assurances of financial responsibility and continuity of operation consistent with the degree and duration of risks associated with the treatment, storage, or disposal of specified hazardous waste.

(b) Salt dome formations, salt bed formations, underground mines and caves

(1) Effective on November 8, 1984, the placement of any noncontainerized or bulk liquid hazardous waste in any salt dome formation, salt bed formation, underground mine, or cave is prohibited until such time as—

(A) the Administrator has determined, after notice and opportunity for hearings on the record in the affected areas, that such placement is protective of human health and the environment;

(B) the Administrator has promulgated performance and permitting standards for such facilities under this subchapter, and;

(C) a permit has been issued under section 6925(c) of this title for the facility concerned.

(2) Effective on November 8, 1984, the placement of any hazardous waste other than a hazardous waste referred to in paragraph (1) in a salt dome formation, salt bed formation, underground mine, or cave is prohibited until such time as a permit has been issued under section 6925(c) of this title for the facility concerned.

(3) No determination made by the Administrator under subsection (d), (e), or (g) of this section regarding any hazardous waste to which such subsection (d), (e), or (g) of this section applies shall affect the prohibition contained in paragraph (1) or (2) of this subsection.

(4) Nothing in this subsection shall apply to the Department of Energy Waste Isolation Pilot Project in New Mexico.

(c) Liquids in landfills

(1) Effective 6 months after November 8, 1984, the placement of bulk or noncontainerized liquid hazardous waste or free liquids contained in hazardous waste (whether or not absorbents have been added) in any landfill is prohibited. Prior to such date the requirements (as in effect on April 30, 1983) promulgated under this section by the Administrator regarding liquid hazardous waste shall remain in force and effect to the extent such requirements are applicable to the placement of bulk or noncontainerized liquid hazardous waste, or free liquids contained in hazardous waste, in landfills.

(2) Not later than fifteen months after November 8, 1984, the Administrator shall promulgate final regulations which—

(A) minimize the disposal of containerized liquid hazardous waste in landfills, and

(B) minimize the presence of free liquids in containerized hazardous waste to be disposed of in landfills.

Such regulations shall also prohibit the disposal in landfills of liquids that have been absorbed in materials that biodegrade or that release liquids when compressed as might occur during routine landfill operations. Prior to the date on which such final regulations take effect, the requirements (as in effect on April 30, 1983) promulgated under this section by the Administrator shall remain in force and effect to the extent such requirements are applicable to the disposal of containerized liquid hazardous waste, or free liquids contained in hazardous waste, in landfills.

(3) Effective twelve months after November 8, 1984, the placement of any liquid which is not a hazardous waste in a landfill for which a permit is required under section 6925(c) of this title or which is operating pursuant to interim status granted under section 6925(e) of this title is prohibited unless the owner or operator of such landfill demonstrates to the Administrator, or the Administrator determines, that—

(A) the only reasonably available alternative to the placement in such landfill is placement in a landfill or unlined surface impoundment, whether or not permitted under section 6925(c) of this title or operating pursuant to interim status under section 6925(e) of this title, which contains, or may reasonably be anticipated to contain, hazardous waste; and

(B) placement in such owner or operator's landfill will not present a risk of contamination of any underground source of drinking water.

As used in subparagraph (B), the term "underground source of drinking water" has the same meaning as provided in regulations under the Safe Drinking Water Act (title XIV of the Public Health Service Act) [42 U.S.C. 300f et seq.].

(4) No determination made by the Administrator under subsection (d), (e), or (g) of this section regarding any hazardous waste to which such subsection (d), (e), or (g) of this section applies shall affect the prohibition contained in paragraph (1) of this subsection.

(d) Prohibitions on land disposal of specified wastes

(1) Effective 32 months after November 8, 1984 (except as provided in subsection (f) of this section with respect to underground injection into deep injection wells), the land disposal of the hazardous wastes referred to in paragraph (2) is prohibited unless the Administrator determines the prohibition on one or more methods of land disposal of such waste is not required in order to protect human health and the environment for as long as the waste remains hazardous, taking into account—

(A) the long-term uncertainties associated with land disposal,

(B) the goal of managing hazardous waste in an appropriate manner in the first instance, and

(C) the persistence, toxicity, mobility, and propensity to bioaccumulate of such hazardous wastes and their hazardous constituents.

For the purposes of this paragraph, a method of land disposal may not be determined to be protective of human health and the environment for a hazardous waste referred to in paragraph (2) (other than a hazardous waste which has complied with the pretreatment regulations promulgated under subsection (m) of this section), unless, upon application by an interested person, it has been demonstrated to the Administrator, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the disposal unit or injection zone for as long as the wastes remain hazardous.

(2) Paragraph (1) applies to the following hazardous wastes listed or identified under section 6921 of this title:

(A) Liquid hazardous wastes, including free liquids associated with any solid or sludge, containing free cyanides at concentrations greater than or equal to 1,000 mg/l.

(B) Liquid hazardous wastes, including free liquids associated with any solid or sludge, containing the following metals (or elements) or compounds of these metals (or elements) at concentrations greater than or equal to those specified below:

(i) arsenic and/or compounds (as As) 500 mg/l;

(ii) cadmium and/or compounds (as Cd) 100 mg/l;

(iii) chromium (VI and/or compounds (as Cr VI)) 500 mg/l;

(iv) lead and/or compounds (as Pb) 500 mg/l;

(v) mercury and/or compounds (as Hg) 20 mg/l;

(vi) nickel and/or compounds (as Ni) 134 mg/l;

(vii) selenium and/or compounds (as Se) 100 mg/l; and

(viii) thallium and/or compounds (as Th) 130 mg/l.

(C) Liquid hazardous waste having a pH less than or equal to two (2.0).

(D) Liquid hazardous wastes containing polychlorinated biphenyls at concentrations greater than or equal to 50 ppm.

(E) Hazardous wastes containing halogenated organic compounds in total concentration greater than or equal to 1,000 mg/kg.

When necessary to protect human health and the environment, the Administrator shall substitute more stringent concentration levels than the levels specified in subparagraphs (A) through (E).

(3) During the period ending forty-eight months after November 8, 1984, this subsection shall not apply to any disposal of contaminated soil or debris resulting from a response action taken under section 9604 or 9606 of this title or a corrective action required under this subchapter.

(e) Solvents and dioxins

(1) Effective twenty-four months after November 8, 1984 (except as provided in subsection (f) of this section with respect to underground injection into deep injection wells), the land disposal of the hazardous wastes referred to in paragraph (2) is prohibited unless the Administrator determines the prohibition of one or more methods of land disposal of such waste is not required in order to protect human health and the environment for as long as the waste remains hazardous, taking into account the factors referred to in subparagraph (A) through (C) of subsection (d)(1) of this section. For the purposes of this paragraph, a method of land disposal may not be determined to be protective of human health and the environment for a hazardous waste referred to in paragraph (2) (other than a hazardous waste which has complied with the pretreatment regulations promulgated under subsection (m) of this section), unless upon application by an interested person it has been demonstrated to the Administrator, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the disposal unit or injection zone for as long as the wastes remain hazardous.

(2) The hazardous wastes to which the prohibition under paragraph (1) applies are as follows—

(A) dioxin-containing hazardous wastes numbered F020, F021, F022, and F023 (as referred to in the proposed rule published by the Administrator in the Federal Register for April 4, 1983), and

(B) those hazardous wastes numbered F001, F002, F003, F004, and F005 in regulations promulgated by the Administrator under section 6921 of this title (40 C.F.R. 261.31 (July 1, 1983)), as those regulations are in effect on July 1, 1983.

(3) During the period ending forty-eight months after November 8, 1984, this subsection shall not apply to any disposal of contaminated soil or debris resulting from a response action taken under section 9604 or 9606 of this title or a corrective action required under this subchapter.

(f) Disposal into deep injection wells; specified subsection (d) wastes; solvents and dioxins

(1) Not later than forty-five months after November 8, 1984, the Administrator shall complete a review of the disposal of all hazardous wastes referred to in paragraph (2) of subsection (d) of this section and in paragraph (2) of subsection (e) of this section by underground injection into deep injection wells.

(2) Within forty-five months after November 8, 1984, the Administrator shall make a determination regarding the disposal by underground injection into deep injection wells of the hazardous wastes referred to in paragraph (2) of subsection (d) of this section and the hazardous wastes referred to in paragraph (2) of subsection (e) of this section. The Administrator shall promulgate final regulations prohibiting the disposal of such wastes into such wells if it may reasonably be determined that such disposal may not be protective of human health and the environment for as long as the waste remains hazardous, taking into account the factors referred to in subparagraphs (A) through (C) of subsection (d)(1) of this section. In promulgating such regulations, the Administrator shall consider each hazardous waste referred to in paragraph (2) of subsection (d) of this section or in paragraph (2) of subsection (e) of this section which is prohibited from disposal into such wells by any State.

(3) If the Administrator fails to make a determination under paragraph (2) for any hazardous waste referred to in paragraph (2) of subsection (d) of this section or in paragraph (2) of subsection (e) of this section within forty-five months after November 8, 1984, such hazardous waste shall be prohibited from disposal into any deep injection well.

(4) As used in this subsection, the term "deep injection well" means a well used for the underground injection of hazardous waste other than

a well to which section 6979a(a) of this title applies.

(g) Additional land disposal prohibition determinations

(1) Not later than twenty-four months after November 8, 1984, the Administrator shall submit a schedule to Congress for—

(A) reviewing all hazardous wastes listed (as of November 8, 1984) under section 6921 of this title other than those wastes which are referred to in subsection (d) or (e) of this section; and

(B) taking action under paragraph (5) of this subsection with respect to each such hazardous waste.

(2) The Administrator shall base the schedule on a ranking of such listed wastes considering their intrinsic hazard and their volume such that decisions regarding the land disposal of high volume hazardous wastes with high intrinsic hazard shall, to the maximum extent possible, be made by the date forty-five months after November 8, 1984. Decisions regarding low volume hazardous wastes with lower intrinsic hazard shall be made by the date sixty-six months after November 8, 1984.

(3) The preparation and submission of the schedule under this subsection shall not be subject to the Paperwork Reduction Act of 1980 [44 U.S.C. 3501 et seq.]. No hearing on the record shall be required for purposes of preparation or submission of the schedule. The schedule shall not be subject to judicial review.

(4) The schedule under this subsection shall require that the Administrator shall promulgate regulations in accordance with paragraph (5) or make a determination under paragraph (5)—

(A) for at least one-third of all hazardous wastes referred to in paragraph (1) by the date forty-five months after November 8, 1984;

(B) for at least two-thirds of all such listed wastes by the date fifty-five months after November 8, 1984; and

(C) for all such listed wastes and for all hazardous wastes identified under section 6921 of this title by the date sixty-six months after November 8, 1984.

In the case of any hazardous waste identified or listed under section 6921 of this title after November 8, 1984, the Administrator shall determine whether such waste shall be prohibited from one or more methods of land disposal in accordance with paragraph (5) within six months after the date of such identification or listing.

(5) Not later than the date specified in the schedule published under this subsection, the Administrator shall promulgate final regulations prohibiting one or more methods of land disposal of the hazardous wastes listed on such schedule except for methods of land disposal which the Administrator determines will be protective of human health and the environment for as long as the waste remains hazardous, taking into account the factors referred to in subparagraph[3] (A) through (C) of subsection (d)(1) of this section. For the purposes of this paragraph, a method of land disposal may not be determined to be protective of human health and the environment (except with respect to a hazardous waste which has complied with the pretreatment regulations promulgated under subsection (m) of this section) unless, upon application by an interested person, it has been demonstrated to the Administrator, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the disposal unit or injection zone for as long as the wastes remain hazardous.

(6)(A) If the Administrator fails (by the date forty-five months after November 8, 1984) to promulgate regulations or make a determination under paragraph (5) for any hazardous waste which is included in the first one-third of the schedule published under this subsection, such hazardous waste may be disposed of in a landfill or surface impoundment only if—

(i) such facility is in compliance with the requirements of subsection (*o*) of this section which are applicable to new facilities (relating to minimum technological requirements); and

(ii) prior to such disposal, the generator has certified to the Administrator that such generator has investigated the availability of treatment capacity and has determined that the use of such landfill or surface impoundment is the only practical alternative to treatment currently available to the generator.

The prohibition contained in this subparagraph shall continue to apply until the Administrator promulgates regulations or makes a determination under paragraph (5) for the waste concerned.

(B) If the Administrator fails (by the date 55 months after November 8, 1984) to promulgate regulations or make a determination under paragraph (5) for any hazardous waste which is included in the first two-thirds of the schedule published under this subsection, such hazardous waste may be disposed of in a landfill or surface impoundment only if—

(i) such facility is in compliance with the requirements of subsection (*o*) of this section which are applicable to new facilities (relating to minimum technological requirements); and

(ii) prior to such disposal, the generator has certified to the Administrator that such generator has investigated the availability of treatment capacity and has determined that the use of such landfill or surface impoundment is the only practical alternative to treatment currently available to the generator.

The prohibition contained in this subparagraph shall continue to apply until the Administrator promulgates regulations or makes a determination under paragraph (5) for the waste concerned.

(C) If the Administrator fails to promulgate regulations, or make a determination under paragraph (5) for any hazardous waste referred to in paragraph (1) within 66 months after November 8, 1984, such hazardous waste shall be prohibited from land disposal.

---

[3] So in original. Probably should be "subparagraphs".

(h) Variance from land disposal prohibitions

(1) A prohibition in regulations under subsection (d), (e), (f), or (g) of this section shall be effective immediately upon promulgation.

(2) The Administrator may establish an effective date different from the effective date which would otherwise apply under subsection (d), (e), (f), or (g) of this section with respect to a specific hazardous waste which is subject to a prohibition under subsection (d), (e), (f), or (g) of this section or under regulations under subsection (d), (e), (f), or (g) of this section. Any such other effective date shall be established on the basis of the earliest date on which adequate alternative treatment, recovery, or disposal capacity which protects human health and the environment will be available. Any such other effective date shall in no event be later than 2 years after the effective date of the prohibition which would otherwise apply under subsection (d), (e), (f), or (g) of this section.

(3) The Administrator, after notice and opportunity for comment and after consultation with appropriate State agencies in all affected States, may on a case-by-case basis grant an extension of the effective date which would otherwise apply under subsection (d), (e), (f), or (g) of this section or under paragraph (2) for up to one year, where the applicant demonstrates that there is a binding contractual commitment to construct or otherwise provide such alternative capacity but due to circumstances beyond the control of such applicant such alternative capacity cannot reasonably be made available by such effective date. Such extension shall be renewable once for no more than one additional year.

(4) Whenever another effective date (hereinafter referred to as a "variance") is established under paragraph (2), or an extension is granted under paragraph (3), with respect to any hazardous waste, during the period for which such variance or extension is in effect, such hazardous waste may be disposed of in a landfill or surface impoundment only if such facility is in compliance with the requirements of subsection (*o*) of this section.

(i) Publication of determination

If the Administrator determines that a method of land disposal will be protective of human health and the environment, he shall promptly publish in the Federal Register notice of such determination, together with an explanation of the basis for such determination.

(j) Storage of hazardous waste prohibited from land disposal

In the case of any hazardous waste which is prohibited from one or more methods of land disposal under this section (or under regulations promulgated by the Administrator under any provision of this section) the storage of such hazardous waste is prohibited unless such storage is solely for the purpose of the accumulation of such quantities of hazardous waste as are necessary to facilitate proper recovery, treatment or disposal.

(k) "Land disposal" defined

For the purposes of this section, the term "land disposal", when used with respect to a specified hazardous waste, shall be deemed to include, but not be limited to, any placement of such hazardous waste in a landfill, surface impoundment, waste pile, injection well, land treatment facility, salt dome formation, salt bed formation, or underground mine or cave.

(*l*) Ban on dust suppression

The use of waste or used oil or other material, which is contaminated or mixed with dioxin or any other hazardous waste identified or listed under section 6921 of this title (other than a waste identified solely on the basis of ignitability), for dust suppression or road treatment is prohibited.

(m) Treatment standards for wastes subject to land disposal prohibition

(1) Simultaneously with the promulgation of regulations under subsection (d), (e), (f), or (g) of this section prohibiting one or more methods of land disposal of a particular hazardous waste, and as appropriate thereafter, the Administrator shall, after notice and an opportunity for hearings and after consultation with appropriate Federal and State agencies, promulgate regulations specifying those levels or methods of treatment, if any, which substantially diminish the toxicity of the waste or substantially reduce the likelihood of migration of hazardous constituents from the waste so that short-term and long-term threats to human health and the environment are minimized.

(2) If such hazardous waste has been treated to the level or by a method specified in regulations promulgated under this subsection, such waste or residue thereof shall not be subject to any prohibition promulgated under subsection (d), (e), (f), or (g) of this section and may be disposed of in a land disposal facility which meets the requirements of this subchapter. Any regulation promulgated under this subsection for a particular hazardous waste shall become effective on the same date as any applicable prohibition promulgated under subsection (d), (e), (f), or (g) of this section.

(n) Air emissions

Not later than thirty months after November 8, 1984, the Administrator shall promulgate such regulations for the monitoring and control of air emissions at hazardous waste treatment, storage, and disposal facilities, including but not limited to open tanks, surface impoundments, and landfills, as may be necessary to protect human health and the environment.

(*o*) Minimum technological requirements

(1) The regulations under subsection (a) of this section shall be revised from time to time to take into account improvements in the technology of control and measurement. At a minimum, such regulations shall require, and a permit issued pursuant to section 6925(c) of this title after November 8, 1984, by the Administrator or a State shall require—

(A) for each new landfill or surface impoundment, each new landfill or surface impoundment unit at an existing facility, each replacement of an existing landfill or surface impoundment unit, and each lateral expansion of an existing landfill or surface impoundment unit, for which an application for a final determination regarding issuance of a permit under section 6925(c) of this title is received after November 8, 1984—

(i) the installation of two or more liners and a leachate collection system above (in the case of a landfill) and between such liners; and

(ii) ground water monitoring; and

(B) for each incinerator which receives a permit under section 6925(c) of this title after November 8, 1984, the attainment of the minimum destruction and removal efficiency required by regulations in effect on June 24, 1982.

The requirements of this paragraph shall apply with respect to all waste received after the issuance of the permit.

(2) Paragraph (1)(A)(i) shall not apply if the owner or operator demonstrates to the Administrator, and the Administrator finds for such landfill or surface impoundment, that alternative design and operating practices, together with location characteristics, will prevent the migration of any hazardous constituents into the ground water or surface water at least as effectively as such liners and leachate collection systems.

(3) The double-liner requirement set forth in paragraph (1)(A)(i) may be waived by the Administrator for any monofill, if—

(A) such monofill contains only hazardous wastes from foundry furnace emission controls or metal casting molding sand,

(B) such wastes do not contain constituents which would render the wastes hazardous for reasons other than the Extraction Procedure ("EP") toxicity characteristics set forth in regulations under this subchapter, and

(C) such monofill meets the same requirements as are applicable in the case of a waiver under section 6925(j)(2) or (4) of this title.

(4)(A) Not later than thirty months after November 8, 1984, the Administrator shall promulgate standards requiring that new landfill units, surface impoundment units, waste piles, underground tanks and land treatment units for the storage, treatment, or disposal of hazardous waste identified or listed under section 6921 of this title shall be required to utilize approved leak detection systems.

(B) For the purposes of subparagraph (A)—

(i) the term "approved leak detection system" means a system or technology which the Administrator determines to be capable of detecting leaks of hazardous constituents at the earliest practicable time; and

(ii) the term "new units" means units on which construction commences after the date of promulgation of regulations under this paragraph.

(5)(A) The Administrator shall promulgate regulations or issue guidance documents implementing the requirements of paragraph (1)(A) within two years after November 8, 1984.

(B) Until the effective date of such regulations or guidance documents, the requirement for the installation of two or more liners may be satisfied by the installation of a top liner designed, operated, and constructed of materials to prevent the migration of any constituent into such liner during the period such facility remains in operation (including any post-closure monitoring period), and a lower liner designed, operated [4] and constructed to prevent the migration of any constituent through such liner during such period. For the purpose of the preceding sentence, a lower liner shall be deemed to satisfy such requirement if it is constructed of at least a 3-foot thick layer of recompacted clay or other natural material with a permeability of no more than 1×10^{-7} centimeter per second.

(6) Any permit under section 6925 of this title which is issued for a landfill located within the State of Alabama shall require the installation of two or more liners and a leachate collection system above and between such liners, notwithstanding any other provision of this chapter.

(7) In addition to the requirements set forth in this subsection, the regulations referred to in paragraph (1) shall specify criteria for the acceptable location of new and existing treatment, storage, or disposal facilities as necessary to protect human health and the environment. Within 18 months after November 8, 1984, the Administrator shall publish guidance criteria identifying areas of vulnerable hydrogeology.

(p) Ground water monitoring

The standards under this section concerning ground water monitoring which are applicable to surface impoundments, waste piles, land treatment units, and landfills shall apply to such a facility whether or not—

(1) the facility is located above the seasonal high water table;

(2) two liners and a leachate collection system have been installed at the facility; or

(3) the owner or operator inspects the liner (or liners) which has been installed at the facility.

This subsection shall not be construed to affect other exemptions or waivers from such standards provided in regulations in effect on November 8, 1984, or as may be provided in revisions to those regulations, to the extent consistent with this subsection. The Administrator is authorized on a case-by-case basis to exempt from ground water monitoring requirements under this section (including subsection (*o*) of this section) any engineered structure which the Administrator finds does not receive or contain liquid waste (nor waste containing free liquids), is designed and operated to exclude liquid from precipitation or other runoff, utilizes multiple leak detection systems within the outer layer of containment, and provides for continuing operation and maintenance of these leak detection systems during the operating period, closure, and the period required for post-closure monitoring and for which the Administrator concludes on the basis of such findings that there is a reasonable certainty hazardous constituents will not migrate beyond the outer layer of containment prior to the end of the period required for post-closure monitoring.

(q) Hazardous waste used as fuel

(1) Not later than two years after November 8, 1984, and after notice and opportunity for public hearing, the Administrator shall promulgate regulations establishing such—

(A) standards applicable to the owners and operators of facilities which produce a fuel—

(i) from any hazardous waste identified or listed under section 6921 of this title, or

(ii) from any hazardous waste identified or listed under section 6921 of this title and any other material;

(B) standards applicable to the owners and operators of facilities which burn, for purposes of energy recovery, any fuel produced as provided in subparagraph (A) or any fuel which otherwise contains any hazardous waste identified or listed under section 6921 of this title; and

(C) standards applicable to any person who distributes or markets any fuel which is produced as provided in subparagraph (A) or any fuel which otherwise contains any hazardous waste identified or listed under section 6921 of this title [5]

as may be necessary to protect human health and the environment. Such standards may include any of the requirements set forth in paragraphs (1) through (7) of subsection (a) of this section as may be appropriate. Nothing in this subsection shall be construed to affect or impair the provisions of section 6921(b)(3) of this title. For purposes of this subsection, the term "hazardous waste listed under section 6921 of this title" includes any commercial chemical product which is listed under section 6921 of this title and which, in lieu of its original intended use, is (i) produced for use as (or as a component of) a fuel, (ii) distributed for use as a fuel, or (iii) burned as a fuel.

(2)(A) This subsection, subsection (r) of this section, and subsection (s) of this section shall not apply to petroleum refinery wastes containing oil which are converted into petroleum coke at the same facility at which such wastes were generated, unless the resulting coke product would exceed one or more characteristics by which a substance would be identified as a hazardous waste under section 6921 of this title.

(B) The Administrator may exempt from the requirements of this subsection, subsection (r) of this section, or subsection (s) of this section facilities which burn de minimis quantities of hazardous waste as fuel, as defined by the Administrator, if the wastes are burned at the same facility at which such wastes are generated; the waste is burned to recover useful energy, as determined by the Administrator on the basis of the design and operating characteristics of the facility and the heating value and other characteristics of the waste; and the waste is burned in a type of device determined by the Administrator to be designed and operated at a destruction and removal efficiency sufficient such that protection of human health and environment is assured.

(C)(i) After November 8, 1984, and until standards are promulgated and in effect under paragraph (2) of this subsection, no fuel which contains any hazardous waste may be burned in any cement kiln which is located within the boundaries of any incorporated municipality with a population greater than five hundred thousand (based on the most recent census statistics) unless such kiln fully complies with regulations (as in effect on November 8, 1984) under this subchapter which are applicable to incinerators.

(ii) Any person who knowingly violates the prohibition contained in clause (i) shall be deemed to have violated section 6928(d)(2) of this title.

(r) Labeling

(1) Notwithstanding any other provision of law, until such time as the Administrator promulgates standards under subsection (q) of this section specifically superceding this requirement, it shall be unlawful for any person who is required to file a notification in accordance with paragraph (1) or (3) of section 6930 of this title to distribute or market any fuel which is produced from any hazardous waste identified or listed under section 6921 of this title, or any fuel which otherwise contains any hazardous waste identified or listed under section 6921 of this title if the invoice or the bill of sale fails—

(A) to bear the following statement: "WARNING: THIS FUEL CONTAINS HAZARDOUS WASTES", and

(B) to list the hazardous wastes contained therein.

Beginning ninety days after November 8, 1984, such statement shall be located in a conspicuous place on every such invoice or bill of sale and shall appear in conspicuous and legible type in contrast by typography, layouts, or color with other printed matter on the invoice or bill of sale.

(2) Unless the Administrator determines otherwise as may be necessary to protect human health and the environment, this subsection shall not apply to fuels produced from petroleum refining waste containing oil if—

(A) such materials are generated and reinserted onsite into the refining process;

(B) contaminants are removed; and

(C) such refining waste containing oil is converted along with normal process streams into pertroleum-derived [6] fuel products at a facility at which crude oil is refined into petroleum products and which is classified as a number SIC 2911 facility under the Office of Management and Budget Standard Industrial Classification Manual.

(3) Unless the Administrator determines otherwise as may be necessary to protect human health and the environment, this subsection shall not apply to fuels produced from oily materials, resulting from normal petroleum refining, production and transportation practices, if (A) contaminants are removed; and (B) such oily materials are converted along with

normal process streams into petroleum-derived fuel products at a facility at which crude oil is refined into petroleum products and which is classified as a number SIC 2911 facility under the Office of Management and Budget Standard [7] Classification Manual.

(s) Recordkeeping

Not later than fifteen months after November 8, 1984, the Administrator shall promulgate regulations requiring that any person who is required to file a notification in accordance with subparagraph (1), (2), or (3), of section 6930(a) of this title shall maintain such records regarding fuel blending, distribution, or use as may be necessary to protect human health and the environment.

(t) Financial responsibility provisions

(1) Financial responsibility required by subsection (a) of this section may be established in accordance with regulations promulgated by the Administrator by any one, or any combination, of the following: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In promulgating requirements under this section, the Administrator is authorized to specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing such evidence of financial responsibility in order to effectuate the purposes of this chapter.

(2) In any case where the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the Federal Bankruptcy Code or where (with reasonable diligence) jurisdiction in any State court or any Federal Court cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which evidence of financial responsibility must be provided under this section may be asserted directly against the guarantor providing such evidence of financial responsibility. In the case of any action pursuant to this subsection, such guarantor shall be entitled to invoke all rights and defenses which would have been available to the owner or operator if any action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

(3) The total liability of any guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this chapter. Nothing in this subsection shall be construed to limit any other State or Federal statutory, contractual or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of such guarantor for bad faith either in negotiating or in failing to negotiate the settlement of any claim. Nothing in this subsection shall be construed to diminish the liability of any person under section 9607 or 9611 of this title or other applicable law.

(4) For the purpose of this subsection, the term "guarantor" means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this section.

(u) Continuing releases at permitted facilities

Standards promulgated under this section shall require, and a permit issued after November 8, 1984, by the Administrator or a State shall require, corrective action for all releases of hazardous waste or constituents from any solid waste management unit at a treatment, storage, or disposal facility seeking a permit under this subchapter, regardless of the time at which waste was placed in such unit. Permits issued under section 6925 of this title shall contain schedules of compliance for such corrective action (where such corrective action cannot be completed prior to issuance of the permit) and assurances of financial responsibility for completing such corrective action.

(v) Corrective action beyond facility boundary

As promptly as practicable after November 8, 1984, the Administrator shall amend the standards under this section regarding corrective action required at facilities for the treatment, storage, or disposal, of hazardous waste listed or identified under section 6921 of this title to require that corrective action be taken beyond the facility boundary where necessary to protect human health and the environment unless the owner or operator of the facility concerned demonstrates to the satisfaction of the Administrator that, despite the owner or operator's best efforts, the owner or operator was unable to obtain the necessary permission to undertake such action. Such regulations shall take effect immediately upon promulgation, notwithstanding section 6930(b) of this title, and shall apply to—

(1) all facilities operating under permits issued under subsection (c) of this section, and

(2) all landfills, surface impoundments, and waste pile units (including any new units, replacements of existing units, or lateral expansions of existing units) which receive hazardous waste after July 26, 1982.

Pending promulgation of such regulations, the Administrator shall issue corrective action orders for facilities referred to in paragraphs (1) and (2), on a case-by-case basis, consistent with the purposes of this subsection.

(w) Underground tanks

Not later than March 1, 1985, the Administrator shall promulgate final permitting standards under this section for underground tanks that cannot be entered for inspection. Within forty-eight months after November 8, 1984, such standards shall be modified, if necessary, to cover at a minimum all requirements and standards described in section 6991b of this title.

(x) Mining and other special wastes

If (1) solid waste from the extraction, beneficiation or processing of ores and minerals, including phosphate rock and overburden from the mining of uranium, (2) fly ash waste, bottom ash waste, slag waste, and flue gas emission control waste generated primarily from the combustion of coal or other fossil fuels, or (3) cement kiln dust waste, is subject to regulation under this subchapter, the Administrator is authorized to modify the requirements of subsections (c), (d), (e), (f), (g), (*o*), and (u) of this section and section 6925(j) of this title, in the case of landfills or surface impoundments receiving such solid waste, to take into account the special characteristics of such wastes, the practical difficulties associated with implementation of such requirements, and site-specific characteristics, including but not limited to the climate, geology, hydrology and soil chemistry at the site, so long as such modified requirements assure protection of human health and the environment.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6921, 6925, 6926, 6935, 6936, 6971 of this title; title 26 section 4682.

§ 6925. Permits for treatment, storage, or disposal of hazardous waste

(a) Permit requirements

Not later than eighteen months after October 21, 1976, the Administrator shall promulgate regulations requiring each person owning or operating an existing facility or planning to construct a new facility for the treatment, storage, or disposal of hazardous waste identified or listed under this subchapter to have a permit issued pursuant to this section. Such regulations shall take effect on the date provided in section 6930 of this title and upon and after such date the treatment, storage, or disposal of any such hazardous waste and the construction of any new facility for the treatment, storage, or disposal of any such hazardous waste is prohibited except in accordance with such a permit. No permit shall be required under this section in order to construct a facility if such facility is constructed pursuant to an approval issued by the Administrator under section 2605(e) of title 15 for the incineration of polycholorinated [6] biphenyls and any person owning or operating such a facility may, at any time after operation or construction of such facility has begun, file an application for a permit pursuant to this section authorizing such facility to incinerate hazardous waste identified or listed under this subchapter.

[*See main edition for text of* (*b*)]

(c) Permit issuance

(1) Upon a determination by the Administrator (or a State, if applicable), of compliance by a facility for which a permit is applied for under this section with the requirements of this section and section 6924 of this title, the Administrator (or the State) shall issue a permit for such facilities. In the event permit applicants propose modification of their facilities, or in the event the Administrator (or the State) determines that modifications are necessary to conform to the requirements under this section and section 6924 of this title, the permit shall specify the time allowed to complete the modifications.

(2)(A)(i) Not later than the date four years after November 8, 1984, in the case of each application under this subsection for a permit for a land disposal facility which was submitted before such date, the Administrator shall issue a final permit pursuant to such application or issue a final denial of such application.

(ii) Not later than the date five years after November 8, 1984, in the case of each application for a permit under this subsection for an incinerator facility which was submitted before such date, the Administrator shall issue a final permit pursuant to such application or issue a final denial of such application.

(B) Not later than the date eight years after November 8, 1984, in the case of each application for a permit under this subsection for any facility (other than a facility referred to in subparagraph (A)) which was submitted before such date, the Administrator shall issue a final permit pursuant to such application or issue a final denial of such application.

(C) The time periods specified in this paragraph shall also apply in the case of any State which is administering an authorized hazardous waste program under section 6926 of this title. Interim status under subsection (e) of this section shall terminate for each facility referred to in subparagraph (A)(ii) or (B) on the expiration of the five- or eight-year period referred to in subparagraph (A) or (B), whichever is applicable, unless the owner or operator of the facility applies for a final determination regarding the issuance of a permit under this subsection within—

[6] So in original. Probably should be "polychlorinated".

(i) two years after November 8, 1984 (in the case of a facility referred to in subparagraph (A)(ii)), or

(ii) four years after November 8, 1984 (in the case of a facility referred to in subparagraph (B)).

(3) Any permit under this section shall be for a fixed term, not to exceed 10 years in the case of any land disposal facility, storage facility, or incinerator or other treatment facility. Each permit for a land disposal facility shall be reviewed five years after date of issuance or reissuance and shall be modified as necessary to assure that the facility continues to comply with the currently applicable requirements of this section and section 6924 of this title. Nothing in this subsection shall preclude the Administrator from reviewing and modifying a permit at any time during its term. Review of any application for a permit renewal shall consider improvements in the state of control and measurement technology as well as changes in applicable regulations. Each permit issued under this section shall contain such terms and conditions as the Administrator (or the State) determines necessary to protect human health and the environment.

[*See main edition for text of* (*d*)]

(e) Interim status

(1) Any person who—

(A) owns or operates a facility required to have a permit under this section which facility—

(i) was in existence on November 19, 1980, or

(ii) is in existence on the effective date of statutory or regulatory changes under this chapter that render the facility subject to the requirement to have a permit under this section,

(B) has complied with the requirements of section 6930(a) of this title, and

(C) has made an application for a permit under this section [9]

shall be treated as having been issued such permit until such time as final administrative disposition of such application is made, unless the Administrator or other plaintiff proves that final administrative disposition of such application has not been made because of the failure of the applicant to furnish information reasonably required or requested in order to process the application. This paragraph shall not apply to any facility which has been previously denied a permit under this section or if authority to operate the facility under this section has been previously terminated.

(2) In the case of each land disposal facility which has been granted interim status under this subsection before November 8, 1984, interim status shall terminate on the date twelve months after November 8, 1984, unless the owner or operator of such facility—

(A) applies for a final determination regarding the issuance of a permit under subsection (c) of this section for such facility before the date twelve months after November 8, 1984; and

(B) certifies that such facility is in compliance with all applicable groundwater monitoring and financial responsibility requirements.

(3) In the case of each land disposal facility which is in existence on the effective date of statutory or regulatory changes under this chapter that render the facility subject to the requirement to have a permit under this section and which is granted interim status under this subsection, interim status shall terminate on the date twelve months after the date on which the facility first becomes subject to such permit requirement unless the owner or operator of such facility—

(A) applies for a final determination regarding the issuance of a permit under subsection (c) of this section for such facility before the date twelve months after the date on which the facility first becomes subject to such permit requirement; and

(B) certifies that such facility is in compliance with all applicable groundwater monitoring and financial responsibility requirements.

[*See main edition for text of* (*f*)]

(g) Research, development, and demonstration permits

(1) The Administrator may issue a research, development, and demonstration permit for any hazardous waste treatment facility which proposes to utilize an innovative and experimental hazardous waste treatment technology or process for which permit standards for such experimental activity have not been promulgated under this subchapter. Any such permit shall include such terms and conditions as will assure protection of human health and the environment. Such permits—

(A) shall provide for the construction of such facilities, as necessary, and for operation of the facility for not longer than one year (unless renewed as provided in paragraph (4)), and

(B) shall provide for the receipt and treatment by the facility of only those types and quantities of hazardous waste which the Administrator deems necessary for purposes of determining the efficacy and performance capabilities of the technology or process and the effects of such technology or process on human health and the environment, and

(C) shall include such requirements as the Administrator deems necessary to protect human health and the environment (including, but not limited to, requirements regarding monitoring, operation, insurance or bonding, financial reponsibility, closure, and remedial action), and such requirements as the Administrator deems necessary regarding testing and providing of information to the Administrator with respect to the operation of the facility.

---

[9] So in original. Probably should be followed by a comma.

The Administrator may apply the criteria set forth in this paragraph in establishing the conditions of each permit without separate establishment of regulations implementing such criteria.

(2) For the purpose of expediting review and issuance of permits under this subsection, the Administrator may, consistent with the protection of human health and the environment, modify or waive permit application and permit issuance requirements established in the Administrator's general permit regulations except that there may be no modification or waiver of regulations regarding financial responsibility (including insurance) or of procedures established under section 6974(b)(2) of this title regarding public participation.

(3) The Administrator may order an immediate termination of all operations at the facility at any time he determines that termination is necessary to protect human health and the environment.

(4) Any permit issued under this subsection may be renewed not more than three times. Each such renewal shall be for a period of not more than 1 year.

(h) Waste minimization

Effective September 1, 1985, it shall be a condition of any permit issued under this section for the treatment, storage, or disposal of hazardous waste on the premises where such waste was generated that the permittee certify, no less often than annually, that—

(1) the generator of the hazardous waste has a program in place to reduce the volume or quantity and toxicity of such waste to the degree determined by the generator to be economically practicable; and

(2) the proposed method of treatment, storage, or disposal is that practicable method currently available to the generator which minimizes the present and future threat to human health and the environment.

(i) Interim status facilities receiving wastes after July 26, 1982

The standards concerning ground water monitoring, unsaturated zone monitoring, and corrective action, which are applicable under section 6924 of this title to new landfills, surface impoundments, land treatment units, and waste-pile units required to be permitted under subsection (c) of this section shall also apply to any landfill, surface impoundment, land treatment unit, or waste-pile unit qualifying for the authorization to operate under subsection (e) of this section which receives hazardous waste after July 26, 1982.

(j) Interim status surface impoundments

(1) Except as provided in paragraph (2), (3), or (4), each surface impoundment in existence on November 8, 1984, and qualifying for the authorization to operate under subsection (e) of this section shall not receive, store, or treat hazardous waste after the date four years after November 8, 1984, unless such surface impoundment is in compliance with the requirements of section 6924(*o*)(1)(A) of this title which would apply to such impoundment if it were new.

(2) Paragraph (1) of this subsection shall not apply to any surface impoundment which (A) has at least one liner, for which there is no evidence that such liner is leaking; (B) is located more than one-quarter mile from an underground source of drinking water; and (C) is in compliance with generally applicable ground water monitoring requirements for facilities with permits under subsection (c) of this section.

(3) Paragraph (1) of this subsection shall not apply to any surface impoundment which (A) contains treated waste water during the secondary or subsequent phases of an aggressive biological treatment facility subject to a permit issued under section 1342 of title 33 (or which holds such treated waste water after treatment and prior to discharge); (B) is in compliance with generally applicable ground water monitoring requirements for facilities with permits under subsection (c) of this section; and (C)(i) is part of a facility in compliance with section 1311(b)(2) of title 33, or (ii) in the case of a facility for which no effluent guidelines required under section 1314(b)(2) of title 33 are in effect and no permit under section 1342(a)(1) of title 33 implementing section 1311(b)(2) of title 33 has been issued, is part of a facility in compliance with a permit under section 1342 of title 33, which is achieving significant degradation of toxic pollutants and hazardous constituents contained in the untreated waste stream and which has identified those toxic pollutants and hazardous constituents in the untreated waste stream to the appropriate permitting authority.

(4) The Administrator (or the State, in the case of a State with an authorized program), after notice and opportunity for comment, may modify the requirements of paragraph (1) for any surface impoundment if the owner or operator demonstrates that such surface impoundment is located, designed and operated so as to assure that there will be no migration of any hazardous constitutent [10] into ground water or surface water at any future time. The Administrator or the State shall take into account locational criteria established under section 6924(*o*)(7) of this title.

(5) The owner or operator of any surface impoundment potentially subject to paragraph (1) who has reason to believe that on the basis of paragraph (2), (3), or (4) such surface impoundment is not required to comply with the requirements of paragraph (1), shall apply to the Administrator (or the State, in the case of a State with an authorized program) not later than twenty-four months after November 8, 1984, for a determination of the applicability of paragraph (1) (in the case of paragraph (2) or (3)) or for a modification of the requirements of paragraph (1) (in the case of paragraph (4)), with respect to such surface impoundment. Such owner or operator shall provide, with such application, evidence pertinent to such decision, including:

---

[10] So in original. Probably should be "constituent".

(A) an application for a final determination regarding the issuance of a permit under subsection (c) of this section for such facility, if not previously submitted;

(B) evidence as to compliance with all applicable ground water monitoring requirements and the information and analysis from such monitoring;

(C) all reasonably ascertainable evidence as to whether such surface impoundment is leaking; and

(D) in the case of applications under paragraph (2) or (3), a certification by a registered professional engineer with academic training and experience in ground water hydrology that—

(i) under paragraph (2), the liner of such surface impoundment is designed, constructed, and operated in accordance with applicable requirements, such surface impoundment is more than one-quarter mile from an underground source of drinking water and there is no evidence such liner is leaking; or

(ii) under paragraph (3), based on analysis of those toxic pollutants and hazardous constituents that are likely to be present in the untreated waste stream, such impoundment satisfies the conditions of paragraph (3).

In the case of any surface impoundment for which the owner or operator fails to apply under this paragraph within the time provided by this paragraph or paragraph (6), such surface impoundment shall comply with paragraph (1) notwithstanding paragraph (2), (3), or (4). Within twelve months after receipt of such application and evidence and not later than thirty-six months after November 8, 1984, and after notice and opportunity to comment, the Administrator (or, if appropriate, the State) shall advise such owner or operator on the applicability of paragraph (1) to such surface impoundment or as to whether and how the requirements of paragraph (1) shall be modified and applied to such surface impoundment.

(6)(A) In any case in which a surface impoundment becomes subject to paragraph (1) after November 8, 1984, due to the promulgation of additional listings or characteristics for the identification of hazardous waste under section 6921 of this title, the period for compliance in paragraph (1) shall be four years after the date of such promulgation, the period for demonstrations under paragraph (4) and for submission of evidence under paragraph (5) shall be not later than twenty-four months after the date of such promulgation, and the period for the Administrator (or if appropriate, the State) to advise such owners or operators under paragraph (5) shall be not later than thirty-six months after the date of promulgation.

(B) In any case in which a surface impoundment is initially determined to be excluded from the requirements of paragraph (1) but due to a change in condition (including the existence of a leak) no longer satisfies the provisions of paragraph (2), (3), or (4) and therefore becomes subject to paragraph (1), the period for compliance in paragraph (1) shall be two years after the date of discovery of such change of condition, or in the case of a surface impoundment excluded under paragraph (3) three years after such date of discovery.

(7)(A) The Administrator shall study and report to the Congress on the number, range of size, construction, likelihood of hazardous constituents migrating into ground water, and potential threat to human health and the environment of existing surface impoundments excluded by paragraph (3) from the requirements of paragraph (1). Such report shall address the need, feasibility, and estimated costs of subjecting such existing surface impoundments to the requirements of paragraph (1).

(B) In the case of any existing surface impoundment or class of surface impoundments from which the Administrator (or the State, in the case of a State with an authorized program) determines hazardous constituents are likely to migrate into ground water, the Administrator (or if appropriate, the State) is authorized to impose such requirements as may be necessary to protect human health and the environment, including the requirements of section 6924(*o*) of this title which would apply to such impoundments if they were new.

(C) In the case of any surface impoundment excluded by paragraph (3) from the requirements of paragraph (1) which is subsequently determined to be leaking, the Administrator (or, if appropriate, the State) shall require compliance with paragraph (1), unless the Administrator (or, if appropriate, the State) determines that such compliance is not necessary to protect human health and the environment.

(8) In the case of any surface impoundment in which the liners and leak detection system have been installed pursuant to the requirements of paragraph (1) and in good faith compliance with section 6924(*o*) of this title and the Administrator's regulations and guidance documents governing liners and leak detection systems, no liner or leak detection system which is different from that which was so installed pursuant to paragraph (1) shall be required for such unit by the Administrator when issuing the first permit under this section to such facility. Nothing in this paragraph shall preclude the Administrator from requiring installation of a new liner when the Administrator has reason to believe that any liner installed pursuant to the requirements of this subsection is leaking.

(9) In the case of any surface impoundment which has been excluded by paragraph (2) on the basis of a liner meeting the definition under paragraph (12)(A)(ii), at the closure of such impoundment the Administrator shall require the owner or operator of such impoundment to remove or decontaminate all waste residues, all contaminated liner material, and contaminated soil to the extent practicable. If all contaminated soil is not removed or decontaminated, the owner or operator of such impoundment shall be required to comply with appropriate post-closure requirements, including but not limited to ground water monitoring and corrective action.

(10) Any incremental cost attributable to the requirements of this subsection or section

6924(*o*) of this title shall not be considered by the Administrator (or the State, in the case of a State with an authorized program under section 1342 of title 33)—

(A) in establishing effluent limitations and standards under section 1311, 1314, 1316, 1317, or 1342 of title 33 based on effluent limitations guidelines and standards promulgated any time before twelve months after November 8, 1984; or

(B) in establishing any other effluent limitations to carry out the provisions of section 1311, 1317, or 1342 of title 33 on or before October 1, 1986.

(11)(A) If the Administrator allows a hazardous waste which is prohibited from one or more methods of land disposal under subsection (d), (e), or (g) of section 6924 of this title (or under regulations promulgated by the Administrator under such subsections) to be placed in a surface impoundment (which is operating pursuant to interim status) for storage or treatment, such impoundment shall meet the requirements that are applicable to new surface impoundments under section 6924(*o*)(1) of this title, unless such impoundment meets the requirements of paragraph (2) or (4).

(B) In the case of any hazardous waste which is prohibited from one or more methods of land disposal under subsection (d), (e), or (g) of section 6924 of this title (or under regulations promulgated by the Administrator under such subsection) the placement or maintenance of such hazardous waste in a surface impoundment for treatment is prohibited as of the effective date of such prohibition unless the treatment residues which are hazardous are, at a minimum, removed for subsequent management within one year of the entry of the waste into the surface impoundment.

(12)(A) For the purposes of paragraph (2)(A) of this subsection, the term "liner" means—

(i) a liner designed, constructed, installed, and operated to prevent hazardous waste from passing into the liner at any time during the active life of the facility; or

(ii) a liner designed, constructed, installed, and operated to prevent hazardous waste from migrating beyond the liner to adjacent subsurface soil, ground water, or surface water at any time during the active life of the facility.

(B) For the purposes of this subsection, the term "aggressive biological treatment facility" means a system of surface impoundments in which the initial impoundment of the secondary treatment segment of the facility utilizes intense mechanical aeration to enhance biological activity to degrade waste water pollutants and

(i) the hydraulic retention time in such initial impoundment is no longer than 5 days under normal operating conditions, on an annual average basis;

(ii) the hydraulic retention time in such initial impoundment is no longer than thirty days under normal operating conditions, on an annual average basis: *Provided*, That the sludge in such impoundment does not constitute a hazardous waste as identified by the extraction procedure toxicity characteristic in effect on November 8, 1984; or

(iii) such system utilizes activated sludge treatment in the first portion of secondary treatment.

(C) For the purposes of this subsection, the term "underground source or [1] drinking water" has the same meaning as provided in regulations under the Safe Drinking Water Act (title XIV of the Public Health Service Act [42 U.S.C. 300f et seq.]).

(13) The Administrator may modify the requirements of paragraph (1) in the case of a surface impoundment for which the owner or operator, prior to October 1, 1984, has entered into, and is in compliance with, a consent order, decree, or agreement with the Administrator or a State with an authorized program mandating corrective action with respect to such surface impoundment that provides a degree of protection of human health and the environment which is at a minimum equivalent to that provided by paragraph (1).

§ 6926. Authorized State hazardous waste programs

[*See main edition for text of* (*a*)]

(b) Authorization of State program

Any State which seeks to administer and enforce a hazardous waste program pursuant to this subchapter may develop and, after notice and opportunity for public hearing, submit to the Administrator an application, in such form as he shall require, for authorization of such program. Within ninety days following submission of an application under this subsection, the Administrator shall issue a notice as to whether or not he expects such program to be authorized, and within ninety days following such notice (and after opportunity for public hearing) he shall publish his findings as to whether or not the conditions listed in items (1), (2), and (3) below have been met. Such State is authorized to carry out such program in lieu of the Federal program under this subchapter in such State and to issue and enforce permits for the storage, treatment, or disposal of hazardous waste (and to enforce permits deemed to have been issued under section 6935(d)(1)[12] of this title) unless, within ninety days following submission of the application the Administrator notifies such State that such program may not be authorized and, within ninety days following such notice and after opportunity for public hearing, he finds that (1) such State program is not equivalent to the Federal program under this subchapter, (2) such program is not consistent with the Federal or State programs applicable in other States, or (3) such program does not provide adequate enforcement of compliance with the requirements of this subchapter. In authorizing a State program, the Administrator may base his findings on the Federal program in effect one year prior to submission of a State's application or in effect on January 26, 1983, whichever is later.

(c) Interim authorization

(1) Any State which has in existence a hazardous waste program pursuant to State law before the date ninety days after the date of promulgation of regulations under sections 6922, 6923, 6924, and 6925 of this title, may submit to the Administrator evidence of such existing program and may request a temporary authorization to carry out such program under this subchapter. The Administrator shall, if the evidence submitted shows the existing State program to be substantially equivalent to the Federal program under this subchapter, grant an interim authorization to the State to carry out such program in lieu of the Federal program pursuant to this subchapter for a period ending no later than January 31, 1986.

(2) The Administrator shall, by rule, establish a date for the expiration of interim authorization under this subsection.

(3) Pending interim or final authorization of a State program for any State which reflects the amendments made by the Hazardous and Solid Waste Amendments of 1984, the State may enter into an agreement with the Administrator under which the State may assist in the administration of the requirements and prohibitions which take effect pursuant to such Amendments.

(4) In the case of a State permit program for any State which is authorized under subsection (b) of this section or under this subsection, until such program is amended to reflect the amendments made by the Hazardous and Solid Waste Amendments of 1984 and such program amendments receive interim or final authorization, the Administrator shall have the authority in such State to issue or deny permits or those portions of permits affected by the requirements and prohibitions established by the Hazardous and Solid Waste Amendments of 1984. The Administrator shall coordinate with States the procedures for issuing such permits.

[*See main edition for text of* (*d*) *and* (*e*)]

(f) Availability of information

No State program may be authorized by the Administrator under this section unless—

(1) such program provides for the public availability of information obtained by the State regarding facilities and sites for the treatment, storage, and disposal of hazardous waste; and

(2) such information is available to the public in substantially the same manner, and to the same degree, as would be the case if the Administrator was carrying out the provisions of this subchapter in such State.

(g) Amendments made by 1984 act

(1) Any requirement or prohibition which is applicable to the generation, transportation, treatment, storage, or disposal of hazardous waste and which is imposed under this subchapter pursuant to the amendments made by the Hazardous and Solid Waste Amendments of 1984 shall take effect in each State having an interim or finally authorized State program on the same date as such requirement takes effect in other States. The Administrator shall carry out such requirement directly in each such State unless the State program is finally authorized (or is granted interim authorization as provided in paragraph (2)) with respect to such requirement.

(2) Any State which, before November 8, 1984, has an existing hazardous waste program which has been granted interim or final authorization under this section may submit to the Administrator evidence that such existing program contains (or has been amended to include) any requirement which is substantially equivalent to a requirement referred to in paragraph (1) and may request interim authorization to carry out that requirement under this subchapter. The Administrator shall, if the evidence submitted shows the State requirement to be substantially equivalent to the requirement referred to in paragraph (1), grant an interim authorization to the State to carry out such re-

quirement in lieu of direct administration in the State by the Administrator of such requirement.

[*See main edition for text of* (*a*)]

(b) Availability to public

(1) Any records, reports, or information (including records, reports, or information obtained by representatives of the Environmental Protection Agency) obtained from any person under this section shall be available to the public, except that upon a showing satisfactory to the Administrator (or the State, as the case may be) by any person that records, reports, or information, or particular part thereof, to which the Administrator (or the State, as the case may be) or any officer, employee or representative thereof has access under this section if made public, would divulge information entitled to protection under section 1905 of title 18, such information or particular portion thereof shall be considered confidential in accordance with the purposes of that section, except that such record, report, document, or information may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter, or when relevant in any proceeding under this chapter.

[*See main edition for text of* (*2*) *to* (*4*)]

(c) Federal facility inspections

Beginning twelve months after November 8, 1984, the Administrator shall, or in the case of a State with an authorized hazardous waste program the State may, undertake on an annual basis a thorough inspection of each facility for the treatment, storage, or disposal of hazardous waste which is owned or operated by a Federal agency to enforce its compliance with this subchapter and the regulations promulgated thereunder. The records of such inspections shall be available to the public as provided in subsection (b) of this section.

(d) State-operated facilities

The Administrator shall annually undertake a thorough inspection of every facility for the treatment, storage, or disposal of hazardous waste which is operated by a State or local government for which a permit is required under section 6925 of this title. The records of such inspection shall be available to the public as provided in subsection (b) of this section.

(e) Mandatory inspections

(1) The Administrator (or the State in the case of a State having an authorized hazardous waste program under this subchapter) shall commence a program to thoroughly inspect every facility for the treatment, storage, or disposal of hazardous waste for which a permit is required under section 6925 of this title no less often than every two years as to its compliance with this subchapter (and the regulations promulgated under this subchapter). Such inspections shall commence not later than twelve months after November 8, 1984. The Administrator shall, after notice and opportunity for public comment, promulgate regulations governing the minimum frequency and manner of such inspections, including the manner in which records of such inspections shall be maintained and the manner in which reports of such inspections shall be filed. The Administrator may distinguish between classes and categories of facilities commensurate with the risks posed by each class or category.

(2) Not later than six months after November 8, 1984, the Administrator shall submit to the Congress a report on the potential for inspections of hazardous waste treatment, storage, or disposal facilities by nongovernmental inspectors as a supplement to inspections conducted by officers, employees, or representatives of the Environmental Protection Agency or States having authorized hazardous waste programs or operating under a cooperative agreement with the Administrator. Such report shall be prepared in cooperation with the States, insurance companies offering environmental impairment insurance, independent companies providing inspection services, and other such groups as appropriate. Such report shall contain recommendations on provisions and requirements for a

program of private inspections to supplement governmental inspections.

§ 6928. Federal enforcement

(a) Compliance orders

(1) Except as provided in paragraph (2), whenever on the basis of any information the Administrator determines that any person has violated or is in violation of any requirement of this subchapter, the Administrator may issue an order assessing a civil penalty for any past or current violation, requiring compliance immediately or within a specified time period, or both, or the Administrator may commence a civil action in the United States district court in the district in which the violation occurred for appropriate relief, including a temporary or permanent injunction.

[*See main edition for text of* (2)]

(3) Any order issued pursuant to this subsection may include a suspension or revocation of any permit issued by the Administrator or a State under this subchapter and shall state with reasonable specificity the nature of the violation. Any penalty assessed in the order shall not exceed $25,000 per day of noncompliance for each violation of a requirement of this subchapter. In assessing such a penalty, the Administrator shall take into account the seriousness of the violation and any good faith efforts to comply with applicable requirements.

(b) Public hearing

Any order issued under this section shall become final unless, no later than thirty days after the order is served, the person or persons named therein request a public hearing. Upon such request the Administrator shall promptly conduct a public hearing. In connection with any proceeding under this section the Administrator may issue subpenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may promulgate rules for discovery procedures.

(c) Violation of compliance orders

If a violator fails to take corrective action within the time specified in a compliance order, the Administrator may assess a civil penalty of not more than $25,000 for each day of continued noncompliance with the order and the Administrator may suspend or revoke any permit issued to the violator (whether issued by the Administrator or the State).

(d) Criminal penalties

Any person who—

(1) knowingly transports or causes to be transported any hazardous waste identified or listed under this subchapter to a facility which does not have a permit under this subchapter, or pursuant to title I of the Marine Protection, Research, and Sanctuaries Act (86 Stat. 1052) [33 U.S.C. 1411 et seq.],

(2) knowingly treats, stores, or disposes of any hazardous waste identified or listed under this subchapter—

(A) without a permit under this subchapter or pursuant to title I of the Marine Protection, Research, and Sanctuaries Act (86 Stat. 1052) [33 U.S.C. 1411 et seq.]; or

(B) in knowing violation of any material condition or requirement of such permit; or

(C) in knowing violation of any material condition or requirement of any applicable interim status regulations or standards;

(4) knowingly generates, stores, treats, transports, disposes of, exports, or otherwise handles any hazardous waste (whether such activity took place before or takes place after November 8, 1984) and who knowingly destroys, alters, conceals, or fails to file any record, application, manifest, report, or other document required to be maintained or filed for purposes of compliance with regulations promulgated by the Administrator (or by a State in the case of an authorized State program) under this subchapter;

(5) knowingly transports without a manifest, or causes to be transported without a manifest, any hazardous waste required by regulations promulgated under this subchapter (or by a State in the case of a State program authorized under this subchapter) to be accompanied by a manifest;; [13] or

(6) knowingly exports a hazardous waste identified or listed under this subchapter (A) without the consent of the receiving country or, (B) where there exists an international agreement between the United States and the government of the receiving country establishing notice, export, and enforcement procedures for the transportation, treatment, storage, and disposal of hazardous wastes, in a manner which is not in conformance with such agreement [14]

If the conviction is for a violation committed after a first conviction of such person under this paragraph, the maximum punishment under the respective paragraph shall be doubled with respect to both fine and imprisonment.

(e) Knowing endangerment

Any person who knowingly transports, treats, stores, disposes of, or exports any hazardous waste identified or listed under this subchapter in violation of paragraph (1), (2), (3), (4), (5), or (6) of subsection (d) of this section who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury, shall, upon conviction, be subject to a fine of not more than $250,000 or imprisonment for not more than fifteen years, or both. (h) Interim status corrective action orders

(1) Whenever on the basis of any information the Administrator determines that there is or has been a release of hazardous waste into the environment from a facility authorized to operate under section 6925(e) of this title, the Administrator may issue an order requiring corrective action or such other response measure as he deems necessary to protect human health or the environment or the Administrator may commence a civil action in the United States district court in the district in which the facility is located for appropriate relief, including a temporary or permanent injunction.

(2) Any order issued under this subsection may include a suspension or revocation of authorization to operate under section 6925(e) of this title, shall state with reasonable specificity the nature of the required corrective action or other response measure, and shall specify a time for compliance. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6924, 6945, 6972, 9606 of this title.

§ 6929. Retention of State authority

Upon the effective date of regulations under this subchapter no State or political subdivision may impose any requirements less stringent than those authorized under this subchapter respecting the same matter as governed by such regulations, except that if application of a regulation with respect to any matter under this subchapter is postponed or enjoined by the action of any court, no State or political subdivision shall be prohibited from acting with respect to the same aspect of such matter until such time as such regulation takes effect. Nothing in this chapter shall be construed to prohibit any State or political subdivision thereof from imposing any requirements, including those for site selection, which are more stringent than those imposed by such regulations. Nothing in this chapter (or in any regulation adopted under this chapter) shall be construed to prohibit any State from requiring that the State be provided with a copy of each manifest used in connection with hazardous waste which is generated within that State or transported to a treatment, storage, or disposal facility within that State.

(As amended Pub. L. 98-616, title II, § 213(b), Nov. 8, 1984, 98 Stat. 3242.)

AMENDMENTS

1984—Pub. L. 98-616 added "Nothing in this chapter (or in any regulation adopted under this chapter) shall be construed to prohibit any State from requiring that the State be provided with a copy of each manifest used in connection with hazardous waste which is generated within that State or transported to a treatment, storage, or disposal facility within that State."

§ 6930. Effective date

(a) Preliminary notification

Not later than ninety days after promulgation of regulations under section 6921 of this title identifying by its characteristics or listing any substance as hazardous waste subject to this subchapter, any person generating or transporting such substance or owning or operating a facility for treatment, storage, or disposal of such substance shall file with the Administrator (or with States having authorized hazardous waste permit programs under section 6926 of this title) a notification stating the location and general description of such activity and the identified or listed hazardous wastes handled by such person. Not later than fifteen months after November 8, 1984—

(1) the owner or operator of any facility which produces a fuel (A) from any hazardous waste identified or listed under section 6921 of this title, (B) from such hazardous waste identified or listed under section 6921 of this title and any other material, (C) from used oil, or (D) from used oil and any other material;

(2) the owner or operator of any facility (other than a single- or two-family residence) which burns for purposes of energy recovery any fuel produced as provided in paragraph (1) or any fuel which otherwise contains used oil or any hazardous waste identified or listed under section 6921 of this title; and

(3) any person who distributes or markets any fuel which is produced as provided in paragraph (1) or any fuel which otherwise contains used oil or any hazardous waste identified or listed under section 6921 of this title[15]

shall file with the Administrator (and with the State in the case of a State with an authorized hazardous waste program) a notification stating the location and general description of the facility, together with a description of the identified or listed hazardous waste involved and, in the case of a facility referred to in paragraph (1) or (2), a description of the production or energy recovery activity carried out at the facility and such other information as the Administrator deems necessary. For purposes of the preceding provisions, the term "hazardous waste listed under section 6921 of this title" also includes any commercial chemical product which is listed under section 6921 of this title and which, in lieu of its original intended use, is (i) produced for use as (or as a component of) a fuel, (ii) distributed for use as a fuel, or (iii) burned as a fuel. Notification shall not be required under the second sentence of this subsection in the case of facilities (such as residential boilers) where the Administrator determines that such notification is not necessary in order for the Administrator to obtain sufficient information respecting current practices of facilities using hazardous waste for energy recovery. Nothing in this subsection shall be construed to affect or impair the provisions of section 6921(b)(3) of this title. Nothing in this subsection shall affect regulatory determinations under section 6935 of this title. In revising any regulation under section 6921 of this title identifying additional characteristics of hazardous waste or listing any additional substance as hazardous waste subject to this subchapter, the Administrator may require any person referred to in the preceding provisions to file with the Administrator (or with States having authorized hazardous waste permit programs under section 6926 of this title) the notification described in the preceding provisions. Not more than one such notification shall be required to be filed with respect to the same substance. No identified or listed hazardous waste subject to this subchapter may be transported, treated, stored, or disposed of unless notification has been given as required under this subsection.

(b) Effective date of regulation

The regulations under this subchapter respecting requirements applicable to the generation, transportation, treatment, storage, or disposal of hazardous waste (including requirements respecting permits for such treatment, storage, or disposal) shall take effect on the date six months after the date of promulgation thereof (or six months after the date of revision in the case of any regulation which is revised after the date required for promulgation thereof). At the time a regulation is promulgated, the Administrator may provide for a shorter period prior to the effective date, or an immediate effective date for:

(1) a regulation with which the Administrator finds the regulated community does not need six months to come into compliance;

(2) a regulation which responds to an emergency situation; or

(3) other good cause found and published with the regulation.

(As amended Pub. L. 98-616, title II, §§ 204(a), 234, Nov. 8, 1984, 98 Stat. 3235, 3258.)

AMENDMENTS

1984—Subsec. (a). Pub. L. 98-616, § 204(a), added provisions relating to the burning and blending of hazardous wastes, after the first sentence and substituted "the preceding provisions" for "the preceding sentence" in three places.

Subsec. (b). Pub. L. 98-616, § 234, added provision that at the time a regulation is promulgated, the Administrator may provide for a shorter period prior to the effective date, or an immediate effective date for a regulation with which the Administrator finds the regulated community does not need six months to come into compliance, a regulation which responds to an emergency situation, or other good cause found and published with the regulation.

§ 6935. Restrictions on recycled oil

(a) In general

Not later than one year after October 15, 1980, the Administrator shall promulgate regulations establishing such performance standards and other requirements as may be necessary to protect the public health and the environment from hazards associated with recycled oil. In developing such regulations, the Administrator shall conduct an analysis of the economic impact of the regulations on the oil recycling industry. The Administrator shall ensure that such regulations do not discourage the recovery or recycling of used oil, consistent with the protection of human health and the environment.

(b) Identification or listing of used oil as hazardous waste

Not later than twelve months after November 8, 1984, the Administrator shall propose whether to list or identify used automobile and truck crankcase oil as hazardous waste under section 6921 of this title. Not later than twenty-four months after November 8, 1984, the Administrator shall make a final determination whether to list or identify used automobile and truck crankcase oil and other used oil as hazardous wastes under section 6921 of this title.

(c) Used oil which is recycled

(1) With respect to generators and transporters of used oil identified or listed as a hazardous waste under section 6921 of this title, the standards promulgated under section[17] 6921(d),

(2)(A) In the case of used oil which is exempt under paragraph (1), not later than twenty-four months after November 8, 1984, the Administrator shall promulgate such standards under this subsection regarding the generation and transportation of used oil which is recycled as may be necessary to protect human health and the environment. In promulgating such regulations with respect to generators, the Administrator shall take into account the effect of such regulations on environmentally acceptable types of used oil recycling and the effect of such regulations on small quantity generators and generators which are small businesses (as defined by the Administrator).

(B) The regulations promulgated under this subsection shall provide that no generator of used oil which is exempt under paragraph (1) from the standards promulgated under section [17] 6921(d), 6922, and 6923 of this title shall be subject to any manifest requirement or any associated recordkeeping and reporting requirement with respect to such used oil if such generator—

(i) either—

(I) enters into an agreement or other arrangement (including an agreement or arrangement with an independent transporter or with an agent of the recycler) for delivery of such used oil to a recycling facility which has a permit under section 6925(c) of this title (or for which a valid permit is deemed to be in effect under subsection (d) of this section), or

(II) recycles such used oil at one or more facilities of the generator which has such a permit under section 6925 of this title (or for which a valid permit is deemed to have been issued under subsection (d) of this section);

(ii) such used oil is not mixed by the generator with other types of hazardous wastes; and

(iii) the generator maintains such records relating to such used oil, including records of agreements or other arrangements for delivery of such used oil to any recycling facility referred to in clause (i)(I), as the Administrator deems necessary to protect human health and the environment.

(3) The regulations under this subsection regarding the transportation of used oil which is exempt from the standards promulgated under section [17] 6921(d), 6922, and 6923 of this title under paragraph (1) shall require the transporters of such used oil to deliver such used oil to a facility which has a valid permit under section 6925 of this title or which is deemed to have a valid permit under subsection (d) of this section. The Administrator shall also establish other standards for such transporters as may be necessary to protect human health and the environment.

(d) Permits

(1) The owner or operator of a facility which recycles used oil which is exempt under subsection (c)(1) of this section, shall be deemed to have a permit under this subsection for all such treatment or recycling (and any associated tank or container storage) if such owner and operator comply with standards promulgated by the Administrator under section 6924 of this title; except that the Administrator may require such owners and operators to obtain an individual permit under section 6925(c) of this title if he determines that an individual permit is necessary to protect human health and the environment.

(2) Notwithstanding any other provision of law, any generator who recycles used oil which is exempt under subsection (c)(1) of this section shall not be required to obtain a permit under section 6925(c) of this title with respect to such used oil until the Administrator has promulgated standards under section 6924 of this title regarding the recycling of such used oil.

After November 8, 1984, any person who exports any hazardous waste identified or listed under section 6921 of this title shall file with the Administrator no later than March 1 of each year, a report summarizing the types, quantities, frequency, and ultimate destination of all such hazardous waste exported during the previous calendar year.

(h) Other standards

Nothing in this section shall preclude the Administrator from establishing other standards for the export of hazardous wastes under section 6922 of this title or section 6923 of this title.

(Pub. L. 89-272, title II, § 3017, as added Pub. L. 98-616, title II, § 245(a), Nov. 8, 1984, 98 Stat. 3262.)

§ 6939. Domestic sewage

(a) Report

The Administrator shall, not later than 15 months after November 8, 1984, submit a report to the Congress concerning those substances identified or listed under section 6921 of this title which are not regulated under this subchapter by reason of the exclusion for mixtures of domestic sewage and other wastes that pass through a sewer system to a publicly owned treatment works. Such report shall include the types, size and number of generators which dispose of such substances in this manner, the types and quantities disposed of in this manner, and the identification of significant generators, wastes, and waste constituents not regulated under existing Federal law or regulated in a manner sufficient to protect human health and the environment.

(b) Revisions of regulations

Within eighteen months after submitting the report specified in subsection (a) of this section, the Administrator shall revise existing regulations and promulgate such additional regulations pursuant to this subchapter (or any other authority of the Administrator, including section 1317 of title 33) as are necessary to assure that substances identified or listed under section 6921 of this title which pass through a sewer system to a publicly owned treatment works are adequately controlled to protect human health and the environment.

(c) Report on wastewater lagoons

The Administrator shall, within thirty-six months after November 8, 1984, submit a report to Congress concerning wastewater lagoons at publicly owned treatment works and their effect on groundwater quality. Such report shall include—

(1) the number and size of such lagoons;

(2) the types and quantities of waste contained in such lagoons;

(3) the extent to which such waste has been or may be released from such lagoons and contaminate ground water; and

(4) available alternatives for preventing or controlling such releases.

The Administrator may utilize the authority of sections 6927 and 6934 of this title for the purpose of completing such report.

(d) Application of sections 6927 and 6930

The provisions of sections 6927 and 6930 of this title shall apply to solid or dissolved materials in domestic sewage to the same extent and in the same manner as such provisions apply to hazardous waste.

(Pub. L. 89-272, title II, § 3018, as added Pub. L. 98-616, title II, § 246(a), Nov. 8, 1984, 98 Stat. 3264.)

§ 6939a. Exposure information and health assessments

(a) Exposure information

Beginning on the date nine months after November 8, 1984, each application for a final determination regarding a permit under section 6925(c) of this title for a landfill or surface impoundment shall be accompanied by information reasonably ascertainable by the owner or operator on the potential for the public to be exposed to hazardous wastes or hazardous constituents through releases related to the unit. At a minimum, such information must address:

(1) reasonably foreseeable potential releases from both normal operations and accidents at the unit, including releases associated with transportation to or from the unit;

(2) the potential pathways of human exposure to hazardous wastes or constituents resulting from the releases described under paragraph (1); and

(3) the potential magnitude and nature of the human exposure resulting from such releases.

The owner or operator of a landfill or surface impoundment for which an application for such a final determination under section 6925(c) of this title has been submitted prior to November 8, 1984, shall submit the information required by this subsection to the Administrator (or the State, in the case of a State with an authorized program) no later than the date nine months after November 8, 1984.

(b) Health assessments

(1) The Administrator (or the State, in the case of a State with an authorized program) shall make the information required by subsection (a) of this section, together with other relevant information, available to the Agency for Toxic Substances and Disease Registry established by section 9604(i) of this title.

(2) Whenever in the judgment of the Administrator, or the State (in the case of a State with an authorized program), a landfill or a surface impoundment poses a substantial potential risk to human health, due to the existence of releases of hazardous constituents, the magnitude of contamination with hazardous constituents which may be the result of a release, or the magnitude of the population exposed to such release or contamination, the Administrator or the State (with the concurrence of the Administrator) may request the Administrator of the Agency for Toxic Substances and Disease Registry to conduct a health assessment in connection with such facility and take other appropriate action with respect to such risks as authorized by section 9604(b) and (i) of this title. If funds are provided in connection with such request the Administrator of such Agency shall conduct such health assessment.

(c) Members of the public

Any member of the public may submit evidence of releases of or exposure to hazardous constituents from such a facility, or as to the risks or health effects associated with such releases or exposure, to the Administrator of the Agency for Toxic Substances and Disease Registry, the Administrator, or the State (in the case of a State with an authorized program).

(d) Priority

In determining the order in which to conduct health assessments under this subsection, the Administrator of the Agency for Toxic Substances and Disease Registry shall give priority to those facilities or sites at which there is documented evidence of release of hazardous constituents, at which the potential risk to human health appears highest, and for which in the judgment of the Administrator of such Agency existing health assessment data is inadequate to assess the potential risk to human health as provided in subsection (f) of this section.

(e) Periodic reports

The Administrator of such Agency shall issue periodic reports which include the results of all the assessments carried out under this section. Such assessments or other activities shall be reported after appropriate peer review.

(f) "Health assessments" defined

For the purposes of this section, the term "health assessments" shall include preliminary assessments of the potential risk to human health posed by individual sites and facilities subject to this section, based on such factors as the nature and extent of contamination, the existence of potential for pathways of human exposure (including ground or surface water contamination, air emissions, and food chain contamination), the size and potential susceptibility of the community within the likely pathways of exposure, the comparison of expected human exposure levels to the short-term and long-term health effects associated with identified contaminants and any available recommended exposure or tolerance limits for such contaminants, and the comparison of existing morbidity and mortality data on diseases that may be associated with the observed levels of exposure. The assessment shall include an evaluation of the risks to the potentially affected population from all sources of such contaminants, including known point or nonpoint sources other than the site or facility in question. A purpose of such preliminary assessments shall be to help determine whether full-scale health or epidemiological studies and medical evaluations of exposed populations shall be undertaken.

(g) Cost recovery

In any case in which a health assessment performed under this section discloses the exposure of a population to the release of a hazardous substance, the costs of such health assessment may be recovered as a cost of response under section 9607 of this title from persons causing or contributing to such release of such hazardous substance or, in the case of multiple releases contributing to such exposure, to all such release.

SUBCHAPTER IV—STATE OR REGIONAL SOLID WASTE PLANS

§ 6941. Objectives of subchapter

The objectives of this subchapter are to assist in developing and encouraging methods for the disposal of solid waste which are environmentally sound and which maximize the utilization of valuable resources including energy and materials which are recoverable from solid waste and to encourage resource conservation. Such objectives are to be accomplished through Federal technical and financial assistance to States or regional authorities for comprehensive planning pursuant to Federal guidelines designed to foster cooperation among Federal, State, and local governments and private industry. In developing such comprehensive plans, it is the intention of this chapter that in determining the size of the waste-to-energy facility, adequate provision shall be given to the present and reasonably anticipated future needs, including those needs created by thorough implementation of section 6962(h) of this title, of the recycling and resource recovery interest within the area encompassed by the planning process.

(As amended Pub. L. 98-616, title III, § 301(a), title V, § 501(f)(1), Nov. 8, 1984, 98 Stat. 3267, 3276.)

L. 98-616, § 301(a), added "In developing such comprehensive plans, it is the intention of this chapter that in determining the size of the waste-to-energy facility, adequate provision shall be given to the present and reasonably anticipated future needs of the recycling and resource recovery interest within the area encompassed by the planning process."

§ 6943. Requirements for approval of plans

[*See main edition for text of* (*a*)]

(b) Discretionary plan provisions relating to recycled oil

Any State plan submitted under this subchapter may include, at the option of the State, provisions to carry out each of the following:

(1) Encouragement, to the maximum extent feasible and consistent with the protection of the public health and the environment, of the use of recycled oil in all appropriate areas of State and local government.

(2) Encouragement of persons contracting with the State to use recycled oil to the maximum extent feasible, consistent with protection of the public health and the environment.

(3) Informing the public of the uses of recycled oil.

(4) Establishment and implementation of a program (including any necessary licensing of persons and including the use, where appropriate, of manifests) to assure that used oil is collected, transported, treated, stored, reused, and disposed of, in a manner which does not present a hazard to the public health or the environment.

Any plan submitted under this chapter before October 15, 1980, may be amended, at the option of the State, at any time after such date to include any provision referred to in this subsection.

(c) Energy and materials conservation and recovery feasibility planning and assistance

(1) A State which has a plan approved under this subchapter or which has submitted a plan for such approval shall be eligible for assistance under section 6948(a)(3) of this title if the Administrator determines that under such plan the State will—

(A) analyze and determine the economic and technical feasibility of facilities and programs to conserve resources which contribute to the waste stream or to recover energy and materials from municipal waste;

(B) analyze the legal, institutional, and economic impediments to the development of systems and facilities for conservation of energy or materials which contribute to the waste stream or for the recovery of energy and materials from municipal waste and make recommendations to appropriate governmental authorities for overcoming such impediments;

(C) assist municipalities within the State in developing plans, programs, and projects to conserve resources or recover energy and materials from municipal waste; and

(D) coordinate the resource conservation and recovery planning under subparagraph (C).

(2) The analysis referred to in paragraph (1)(A) shall include—

(A) the evaluation of, and establishment of priorities among, market opportunities for industrial and commercial users of all types (including public utilities and industrial parks) to utilize energy and materials recovered from municipal waste;

(B) comparisons of the relative costs of energy recovered from municipal waste in relation to the costs of energy derived from fossil fuels and other sources;

(C) studies of the transportation and storage problems and other problems associated with the development of energy and materials recovery technology, including curbside source separation;

(D) the evaluation and establishment of priorities among ways of conserving energy or materials which contribute to the waste stream;

(E) comparison of the relative total costs between conserving resources and disposing of or recovering such waste; and

(F) studies of impediments to resource conservation or recovery, including business practices, transportation requirements, or storage difficulties.

Such studies and analyses shall also include studies of other sources of solid waste from which energy and materials may be recovered or minimized.

(d) Size of waste-to-energy facilities

Notwithstanding any of the above requirements, it is the intention of this chapter and the planning process developed pursuant to this chapter that in determining the size of the waste-to-energy facility, adequate provision shall be given to the present and reasonably anticipated future needs of the recycling and resource recovery interest within the area encompassed by the planning process.

(As amended Pub. L. 98-616, title III, § 301(b), title V, § 502(h), Nov. 8, 1984, 98 Stat. 3267, 3277.)

The Administrator shall conduct a study of the extent to which the guidelines and criteria under this chapter (other than guidelines and criteria for facilities to which subchapter III of this chapter applies) which are applicable to solid waste management and disposal facilities, including, but not limited to landfills and surface impoundments, are adequate to protect human health and the environment from ground water contamination. Such study shall include a detailed assessment of the degree to which the criteria under section 6907(a) of this title and the criteria under section 6944 of this title regarding monitoring, prevention of contamination, and remedial action are adequate to protect ground water and shall also include recommendation with respect to any additional enforcement authorities which the Administrator, in consultation with the Attorney General, deems necessary for such purposes.

The criteria shall be those necessary to protect human health and the environment and may take into account the practicable capability of such facilities. At a minimum such revisions for facilities potentially receiving such wastes should require ground water monitoring as necessary to detect contamination, establish criteria for the acceptable location of new or existing facilities, and provide for corrective action as appropriate.

(g) Executive Office

The Office of Procurement Policy in the Executive Office of the President, in cooperation with the Administrator, shall implement the requirements of this section. It shall be the responsibility of the Office of Procurement Policy to coordinate this policy with other policies for Federal procurement, in such a way as to maximize the use of recovered resources, and to, every two years beginning in 1984, report to the Congress on actions taken by Federal agencies and the progress made in the implementation of this section, including agency compliance with subsection (d) of this section.

(h) "Recovered materials" defined

As used in this section, in the case of paper products, the term "recovered materials" includes—

(1) postconsumer materials such as—

(A) paper, paperboard, and fibrous wastes from retail stores, office buildings, homes, and so forth, after they have passed through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage; and

(B) all paper, paperboard, and fibrous wastes that enter and are collected from municipal solid waste, and

(2) manufacturing, forest residues, and other wastes such as—

(A) dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: envelope cuttings, bindery trimmings, and other paper and paperboard waste, resulting from printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and

(B) finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others;

(C) fibrous byproducts of harvesting, manufacturing, extractive, or wood-cutting processes, flax, straw, linters, bagasse, slash, and other forest residues;

(D) wastes generated by the conversion of goods made from fibrous material (that is, waste rope from cordage manufacture, textile mill waste, and cuttings); and

(E) fibers recovered from waste water which otherwise would enter the waste stream.

(i) Procurement program

(1) Within one year after the date of publication of applicable guidelines under subsection (e) of this section, each procuring agency shall develop an affirmative procurement program which will assure that items composed of recovered materials will be purchased to the maximum extent practicable and which is consistent with applicable provisions of Federal procurement law.

(2) Each affirmative procurement program required under this subsection shall, at a minimum, contain—

(A) a recovered materials preference program;

(B) an agency promotion program to promote the preference program adopted under subparagraph (A);

(C) a program for requiring estimates of the total percentage of recovered material utilized in the performance of a contract; certification of minimum recovered material content actually utilized, where appropriate; and reasonable verification procedures for estimates and certifications; and

(D) annual review and monitoring of the effectiveness of an agency's affirmative procurement program.

In the case of paper, the recovered materials preference program required under subparagraph (A) shall provide for the maximum use of the post consumer recovered materials referred to in subsection (h)(1) of this section.

(3) In developing the preference program, the following options shall be considered for adoption:

(A) Case-by-Case Policy Development: Subject to the limitations of subsection (c)(1)(A) through (C) of this section, a policy of awarding contracts to the vendor offering an item composed of the highest percentage of recovered materials practicable (and in the case of paper, the highest percentage of the post consumer recovered materials referred to in subsection (h)(1) of this section). Subject to such limitations, agencies may make an award to a vendor offering items with less than the maximum recovered materials content.

(B) Minimum Content Standards: Minimum recovered materials content specifications which are set in such a way as to assure that the recovered materials content (and in the case of paper, the content of post consumer materials referred to in subsection (h)(1) of this section) required is the maximum available without jeopardizing the intended end use of the item, or violating the limitations of subsection (c)(1)(A) through (C) of this section.

Procuring agencies shall adopt one of the options set forth in subparagraphs (A) and (B) or a substantially equivalent alternative, for inclusion in the affirmative procurement program.

In any action under subsection (a)(1)(A) of this section in a court of the United States, any person may intervene as a matter of right.

The Administrator shall conduct detailed, comprehensive studies of methods to extend the useful life of sanitary landfills and to better use sites in which filled or closed landfills are located. Such studies shall address—

(1) methods to reduce the volume of materials before placement in landfills;

(2) more efficient systems for depositing waste in landfills;

(3) methods to enhance the rate of decomposition of solid waste in landfills, in a safe and environmentally acceptable manner;

(4) methane production from closed landfill units;

(5) innovative uses of closed landfill sites, including use for energy production such as solar or wind energy and use for metals recovery;

(6) potential for use of sewage treatment sludge in reclaiming landfilled areas; and

(7) methods to coordinate use of a landfill owned by one municipality by nearby municipalities, and to establish equitable rates for such use, taking into account the need to provide future landfill capacity to replace that so used.

The Administrator is authorized to conduct demonstrations in the areas of study provided in this subsection. The Administrator shall periodically report on the results of such studies, with the first such report not later than October 1, 1986. In carrying out this subsection, the Administrator need not duplicate other studies which have been completed and may rely upon information which has previously been compiled.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6991c, 6991e of this title.

§ 6991b. Release detection, prevention, and correction regulations

(a) Regulations

The Administrator, after notice and opportunity for public comment, and at least three months before the effective dates specified in subsection (f) of this section, shall promulgate release detection, prevention, and correction regulations applicable to all owners and operators of underground storage tanks, as may be necessary to protect human health and the environment.

(b) Distinctions in regulations

In promulgating regulations under this section, the Administrator may distinguish between types, classes, and ages of underground storage tanks. In making such distinctions, the Administrator may take into consideration factors, including, but not limited to: location of the tanks, soil and climate conditions, uses of the tanks, history of maintenance, age of the tanks, current industry recommended practices, national consensus codes, hydrogeology, water table, size of the tanks, quantity of regulated substances periodically deposited in or dispensed from the tank, the technical capability of the owners and operators, and the compatibility of the regulated substance and the materials of which the tank is fabricated.

(c) Requirements

The regulations promulgated pursuant to this section shall include, but need not be limited to, the following requirements respecting all underground storage tanks—

(1) requirements for maintaining a leak detection system, an inventory control system together with tank testing, or a comparable system or method designed to identify releases in a manner consistent with the protection of human health and the environment;

(2) requirements for maintaining records of any monitoring or leak detection system or inventory control system or tank testing or comparable system;

(3) requirements for reporting of releases and corrective action taken in response to a release from an underground storage tank;

(4) requirements for taking corrective action in response to a release from an underground storage tank; and

(5) requirements for the closure of tanks to prevent future releases of regulated substances into the environment.

(d) Financial responsibility

(1) As he deems necessary or desirable, the Administrator shall promulgate regulations containing requirements for maintaining evidence of financial responsibility as he deems necessary and desirable for taking corrective action and compensating third parties for bodily injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank.

(2) Financial responsibility required by this subsection may be established in accordance with regulations promulgated by the Administrator by any one, or any combination, of the following: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In promulgating requirements under this subsection, the Administrator is authorized to specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing such evidence of financial responsibility in order to effectuate the purposes of this subchapter.

(3) In any case where the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the Federal Bankruptcy Code or where with reasonable diligence jurisdiction in any State court of the Federal courts cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which evidence of financial responsibility must be provided under this subsection may be asserted directly against the guarantor providing such evidence of financial responsibility. In the case of any action pursuant to this paragraph such guarantor shall be entitled to invoke all rights and defenses which would have been available to the owner or operator if any action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

(4) The total liability of any guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this section. Nothing in this subsection shall be construed to limit any other State or Federal statutory, contractual or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of such guarantor for bad faith either in negotiating or in failing to negotiate the settlement of any claim. Nothing in this subsection shall be construed to diminish the liability of any person

under section 9607 or 9611 of this title or other applicable law.

(5) For the purpose of this subsection, the term "guarantor" means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

(e) New tank performance standards

The Administrator shall, not later than three months prior to the effective date specified in subsection (f) of this section, issue performance standards for underground storage tanks brought into use on or after the effective date of such standards. The performance standards for new underground storage tanks shall include, but need not be limited to, design, construction, installation, release detection, and compatibility standards.

(f) Effective dates

(1) Regulations issued pursuant to subsection [2] (c) and (d) of this section, and standards issued pursuant to subsection (e) of this section, for underground storage tanks containing regulated substances defined in section 6991(2)(B) of this title (petroleum, including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure) shall be effective not later than thirty months after November 8, 1984.

(2) Standards issued pursuant to subsection (e) of this section (entitled "New Tank Performance Standards") for underground storage tanks containing regulated substances defined in section 6991(2)(A) of this title shall be effective not later than thirty-six months after November 8, 1984.

(3) Regulations issued pursuant to subsection (c) of this section (entitled "Requirements") and standards issued pursuant to subsection (d) of this section (entitled "Financial Responsibility") for underground storage tanks containing regulated substances defined in section 6991(2)(A) of this title shall be effective not later than forty-eight months after November 8, 1984.

(g) Interim prohibition

(1) Until the effective date of the standards promulgated by the Administrator under subsection (e) of this section and after one hundred and eighty days after November 8, 1984, no person may install an underground storage tank for the purpose of storing regulated substances unless such tank (whether of single or double wall construction)—

(A) will prevent releases due to corrosion or structural failure for the operational life of the tank;

(B) is cathodically protected against corrosion, constructed of noncorrosive material, steel clad with a noncorrosive material, or designed in a manner to prevent the release or threatened release of any stored substance; and

(C) the material used in the construction or lining of the tank is compatible with the substance to be stored.

(2) Notwithstanding paragraph (1), if soil tests conducted in accordance with ASTM Standard G57-78, or another standard approved by the Administrator, show that soil resistivity in an installation location is 12,000 ohm/cm or more (unless a more stringent standard is prescribed by the Administrator by rule), a storage tank without corrosion protection may be installed in that location during the period referred to in paragraph (1).

SUBCHAPTER I — REGULATION OF OCEAN THERMAL ENERGY CONVERSION FACILITIES AND PLANTSHIPS

§ 9111. License for ownership, construction, and operation of ocean thermal energy conversion facilities or plantships

(a) License requirement

No person may engage in the ownership, construction, or operation of an ocean thermal energy conversion facility which is documented under the laws of the United States, which is located in whole or in part between the highwater mark and the seaward boundary of the territorial sea of the United States, or which is connected to the United States by pipeline or cable, except in accordance with a license issued pursuant to this chapter. No citizen of the United States may engage in the ownership, construction or operation of an ocean thermal energy conversion plantship except in accordance with a license issued pursuant to this chapter, or in accordance with a license issued by a foreign nation whose licenses are found by the Administrator, after consultation with the Secretary of State, to be compatible with licenses issued pursuant to this chapter.

(b) Documented plantships; documented facilities; facilities located in territorial sea; facilities connected to United States by pipeline or cable

The Administrator shall, upon application and in accordance with the provisions of this chapter, issue, transfer, amend, or renew licenses for the ownership, construction, and operation of—

(1) ocean thermal energy conversion plantships documented under the laws of the United States, and

(2) ocean thermal energy conversion facilities documented under the laws of the United States, located in whole or in part between the highwater mark and the seaward boundary of the territorial sea of the United States, or connected to the United States by pipeline or cable.

(c) License issuance prerequisites

The Administrator may issue a license to a citizen of the United States in accordance with the provisions of this chapter unless—

(1) he determines that the applicant cannot or will not comply with applicable laws, regulations, and license conditions;

[See main edition for text of (2) and (3)]

(4) he has been informed, within 45 days after the conclusion of public hearings on that application, or on proposed licenses for the designated application area, by the Administrator of the Environmental Protection Agency that the ocean thermal energy conversion facility or plantship will not conform with all applicable provisions of any law for which he has regulatory authority;

(5) he has received the opinion of the Attorney General, pursuant to section 9114 of this title, stating that issuance of the license would create a situation in violation of the antitrust laws, or the 90-day period provided in section 9114 of this title has not expired;

(6) he has consulted with the Secretary of Energy, the Secretary of Transportation, the Secretary of State, the Secretary of the Interior, and the Secretary of Defense, to determine their views on the adequacy of the application, and its effect on programs within their respective jurisdictions and determines on the basis thereof, that the application for a license is inadequate;

(7) the proposed ocean thermal energy conversion facility or plantship will be documented under the laws of a foreign nation;

[See main edition for text of (8) and (9)]

(10) the Governor of any adjacent coastal State with an approved coastal zone management program in good standing pursuant to the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.) determines that, in his or her view, the application is inadequate or inconsistent with respect to programs within his or her jurisdiction;

[See main edition for text of (11) and (12)]

(13) when the license is for an ocean thermal energy conversion plantship, he determines that the applicant has not provided adequate assurance that the plantship will be operated in such a way as to prevent its thermal plume from impinging on so as to degrade the thermal gradient used by any other ocean thermal energy conversion facility or plantship without the consent of its owner, and from impinging on so as to adversely affect the territorial sea or area of national resource jurisdiction, as recognized by the United States, of any other nation unless the Secretary of State approves such impingement after consultation with such nation; or

(14) if a regulation has been adopted which places an upper limit on the number or total capacity of ocean thermal energy conversion facilities or plantships to be licensed under this chapter for simultaneous operation, either overall or within specific geographic areas, pursuant to a determination under the provisions of section 9117(b)(4) of this title, issuance of the license will cause such upper limit to be exceeded.

(d) Issuance conditions; written agreement of compliance; disposal or removal requirements

[See main edition for text of (1)]

(2) No license shall be issued, transferred, or renewed under this chapter unless the applicant, licensee or transferee first agrees in writ-

ing that (A) there will be no substantial change from the plans, operational systems, and methods, procedures, and safeguards set forth in his application, as approved, without prior approval in writing from the Administrator, and (B) he will comply with conditions the Administrator may prescribe in accordance with the provisions of this chapter.

[*See main edition for text of* (*a*) *to* (*g*)]

(h) Administrative fee

The Administrator shall not take final action on any application unless the applicant has paid to the Administrator a reasonable administrative fee, which shall be deposited into miscellaneous receipts of the Treasury. The amount of the fee imposed by the Administrator on any applicant shall reflect the reasonable administrative costs incurred by the National Oceanic and Atmospheric Administration in reviewing and processing the application.

[*See main edition for text of* (*i*)]

(As amended Pub. L. 98–623, title VI, § 602(f), Nov. 8, 1984, 98 Stat. 3412.)

§ 9115. Adjacent coastal States

(a) Designation of adjacent coastal State

[*See main edition for text of* (*1*)]

(2) The Administrator shall, upon request of a State, designate such State as an "adjacent coastal State" if he determines (A) that there is a risk of damage to the coastal environment of such State equal to or greater than the risk posed to a State required to be designated as an "adjacent coastal State" by paragraph (1) of this subsection or (B) that the thermal plume of the proposed ocean thermal energy conversion facility or plantship is likely to impinge on so as to degrade the thermal gradient at possible locations for ocean thermal energy conversion facilities which could reasonably be expected to be directly connected by electric transmission cable or pipeline to such State. This paragraph shall apply only with respect to requests made by a State not later than the 14th day after the date of publication of notice of application for a proposed ocean thermal energy conversion facility in the Federal Register in accordance with section 9112(d) of this title. The Administrator shall make any designation required by this paragraph not later than the 45th day after the date he receives such a request from a State.

(b) State coastal zone management program

(1) Not later than 5 days after the designation of an adjacent coastal State pursuant to this section, the Administrator shall transmit a complete copy of the application to the Governor of such State. The Administrator shall not issue a license without consultation with the Governor of each adjacent coastal State which has an approved coastal zone management program in good standing pursuant to the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.). If the Governor of such a State has not transmitted his approval or disapproval to the Administrator by the 45th day after public hearings on the application are concluded pursuant to section 9112(g) of this title, such approval shall be conclusively presumed. If the Governor of such a State notifies the Administrator that an application which the Governor would otherwise approve pursuant to this paragraph is inconsistent in some respect with the State's coastal zone management program, the Administrator shall condition the license granted so as to make it consistent with such State program.

(1) Subject to recognized principles of international law and after consultation with the Secretary of Commerce, the Secretary of the Interior, the Secretary of State, and the Secretary of Defense, the Secretary of the department in which the Coast Guard is operating shall designate a zone of appropriate size around and including any ocean thermal energy conversion facility licensed under this chapter and may designate such a zone around and including any ocean thermal energy conversion plantship licensed under this chapter for the purposes of navigational safety and protection of the facility or plantship. The Secretary of the department in which the Coast Guard is operating shall by regulation define permitted activities within such zone consistent with the purpose for which it was designated. The Secretary of the department in which the Coast Guard is operating shall, not later than 30 days after publication of notice pursuant to section 9112(d) of this title, designate such safety zone with respect to any proposed ocean thermal energy conversion facility or plantship.

[*See main edition for text of* (2)]

(3) Except in a situation involving force majeure, a licensee of an ocean thermal energy conversion facility or plantship shall not permit a vessel, registered in or flying the flag of a foreign state, to call at, load or unload cargo at, or otherwise utilize such a facility or plantship licensed under this chapter unless (A) the foreign state involved has agreed, by specific agreement with the United States, to recognize the jurisdiction of the United States over the vessel and its personnel, in accordance with the provisions of this chapter, while the vessel is located within the safety zone, and (B) the vessel owner or operator has designated an agent in the United States for receipt of service of process in the event of any claim or legal proceeding resulting from activities of the vessel or its personnel while located within such a safety zone.

(e) Rules and regulations; vessels; "ocean thermal energy conversion facility" defined

[*See main edition for text of* (1)]

(A) be documented;

(B) comply with minimum standards of design, construction, alteration, and repair; and

(C) be manned or crewed by United States citizens or aliens lawfully admitted to the United States for permanent residence, unless—

(i) there is not a sufficient number of United States citizens, or aliens lawfully admitted to the United States for permanent residence, qualified and available for such work, or

(ii) the President makes a specific finding, with respect to the particular vessel, platform, or moored, fixed or standing structure, that application of this requirement would not be consistent with the national interest.

(3) For the purposes of the documentation laws, for which compliance is required under paragraph (1) of this subsection, ocean thermal energy conversion facilities and plantships shall be deemed to be vessels and, if documented, vessels of the United States for the purposes of the Ship Mortgage Act, 1920 (46 U.S.C. 911-984) [46 App. U.S.C. 911 et seq.].

(4) For the purposes of this subsection the term "ocean thermal energy conversion facility" refers only to an ocean thermal energy conversion facility which has major components other than water intake or discharge pipes located seaward of the highwater mark [1]

---

[1] So in original. Probably should be followed by a period.

(1) to impinge on so as to degrade the thermal gradient used by another ocean thermal energy conversion facility or plantship, or

Such regulations shall also provide for the Administrator to mediate or arbitrate any disputes among licensees regarding the extent to which the thermal plume of one licensee's facility or plantship impinges on the operation of another licensee's facility or plantship.

(c) Coast Guard operations

The Secretary of the department in which the Coast Guard is operating shall promulgate, after consultation with the Administrator, and shall enforce, regulations governing the movement and navigation of ocean thermal energy conversion plantships licensed under this chapter to ensure that the thermal plume of such an ocean thermal energy conversion plantship does not unreasonably impinge on so as to degrade the thermal gradient used by the operation of any other ocean thermal energy conversion plantship or facility except in case of force majeure or with the consent of owner of the other such plantship or facility, and to ensure that the thermal plume of such an ocean thermal energy conversion plantship does not impinge on so as to adversely affect the territorial sea or area of national resource jurisdiction, as recognized by the United States, of any other nation unless the Secretary of State has approved such impingement after consultation with such nation.

§ 9836. Designation of Head Start agencies

(a) Authorization; prerequisites

The Secretary is authorized to designate as a Head Start agency any local public or private nonprofit agency, within a community, which (1) has the power and authority to carry out the purposes of this subchapter and perform the functions set forth in section 9837 of this title within a community; and (2) is determined by the Secretary to be capable of planning, conducting, administering, and evaluating, either directly or by other arrangements, a Head Start program.

[*See main edition for text of* (*b*)]

(c) Priority

In the administration of the provisions of this section, the Secretary shall give priority in the designation of Head Start agencies to any local public or private nonprofit agency which is receiving funds under any Head Start program on August 13, 1981, unless—

(1) the Secretary makes a finding that the agency involved fails to meet program and fiscal requirements established by the Secretary; and

(2) except that if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the Secretary shall give priority in the designation of Head Start agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds in the fiscal year preceding the fiscal year for which the determination is made.

The provisions of clause (2) shall apply only to agencies actually operating Head Start programs.

(d) Designation; Head Start agency; qualified applicants

If there is no Head Start agency as described in subsection (c)(2) of this section, and no existing Head Start program serving a community, then the Secretary may designate a Head Start agency from among qualified applicants in such community. Any such designation shall be governed by the program and fiscal requirements, criteria, and standards applicable on September 1, 1983, to then existing Head Start agencies.

(e) Applicability

The provisions of subsections (c) and (d) of this section shall be applied by the Secretary in the distribution of any additional appropriations made available under this subchapter during any fiscal year as well as to initial designations of Head Start agencies.

(f) Involvement of parents and area residents in selection of agencies

The Secretary shall require that the practice of significantly involving parents and area residents affected by the program in selection of Head Start agencies be continued.

(As amended Pub. L. 98-558, title I, § 104, Oct. 30, 1984, 98 Stat. 2878.)

§ 9840. Participation in Head Start programs

(a) Criteria for eligibility

(1) The Secretary shall by regulation prescribe eligibility for the participation of persons in Head Start programs assisted under this subchapter. Except as provided in paragraph (2), such criteria may provide (A) that children from low-income families shall be eligible for participation in programs assisted under this subchapter if their families' incomes are below the poverty line, or if their families are eligible or, in the absence of child care, would potentially be eligible for public assistance; and (B) pursuant to such regulations as the Secretary shall prescribe, that programs assisted under this subchapter may include, to a reasonable extent, participation of children in the area served who would benefit from such programs but whose families do not meet the low-income criteria prescribed pursuant to clause (A). During the period beginning on October 30, 1984, and ending on October 1, 1986, and unless specifically authorized in any statute of the United States enacted after October 30, 1984, the Secretary may not make any change in the method, as in effect on April 25, 1984, of calculating income used to prescribe eligibility for the participation of persons in the Head Start programs assisted under this subchapter if such change would result in any reduction in, or exclusion from, participation of persons in any of such programs.

[*See main edition for text of* (2); (*b*)]

(c) Availability of more than one year of services; children eligible

Each Head Start program operated in a community may provide more than one year of Head Start services to children from age 3 to the age of compulsory school attendance in the State in which the Head Start program is located.

Notwithstanding the directory language that the new sentence be added at the end of subsec. (a), the amendment was executed by adding the sentence at the end of par. § 9902. Definitions

For purposes of this chapter:

(1) The term "eligible entity" means any organization which was officially designated as a community action agency or a community action program under the provisions of section 210 of the Economic Opportunity Act of 1964 [42 U.S.C. 2790] for fiscal year 1981, unless such community action agency or a community action program lost its designation under section 210 of such Act as a result of a failure to comply with the provisions of such Act [42 U.S.C. 2701 et seq.]. The term "eligible entity" also includes any limited purpose agency designated under title II of the Economic Opportunity Act of 1964 [42 U.S.C. 2781 et seq.] for fiscal year 1981 which served the general purposes of a community action agency under title II of such Act, unless such designated agency lost its designation under title II of such Act as a result of a failure to comply with the provisions of such Act, any grantee which received financial assistance under section 222(a)(4) of the Economic Opportunity Act of 1964 [42 U.S.C. 2809(a)(4)] in fiscal year 1981, and any organization to which a State which applied for and received a waiver from the Secretary under Public Law

98-139 made a grant under this Act in fiscal year 1984. In any geographic area of a State not presently served by an eligible entity, the Governor of the State may decide to serve such a new area by—

(A) requesting an existing eligible entity which is located and provides services in an area contiguous to the new area to serve the new area;

(B) if no existing eligible entity is located and provides services in an area contiguous to the new area, requesting the eligible entity located closest to the area to be served or an existing eligible entity serving an area within reasonable proximity of the new area to provide services in the new area; or

(C) where no existing eligible entity requested to serve the new area decides to do so, designating any existing eligible entity, any organization which has a board meeting the requirements of section 9904(c)(3) of this title or any political subdivision of the State to serve the new area. The Governor's designation of an organization which has a board meeting the requirements of section 9904(c)(3) of this title or a political subdivision of the State to serve the new area shall qualify such organization as an eligible entity under this Act.

(2) The term "poverty line" means the official poverty line defined by the Office of Management and Budget based on Bureau of the Census data. The Secretary shall revise the poverty line annually (or at any shorter interval the Secretary deems feasible and desirable) which shall be used as a criterion of eligibility in community service block grant programs. The required revision shall be accomplished by multiplying the official poverty line by the percentage change in the Consumer Price Index For All Urban Consumers during the annual or other interval immediately preceding the time at which the revision is made. Whenever the State determines that it serves the objectives of the block grant established by this chapter the State may revise the poverty line to not to exceed 125 percent of the official poverty line otherwise applicable under this paragraph.

§ 10301. Congressional findings and declarations

The Congress finds and declares that—

(1) the existence of an adequate supply of water of good quality for the production of materials and energy for the Nation's needs and for the efficient use of the Nation's energy and water resources is essential to national economic stability and growth, and to the well-being of the people;

(2) the management of water resources is closely related to maintaining environmental quality and social well-being;

(3) there is an increasing threat of impairment to the quantity and quality of surface and groundwater resources;

(4) the Nation's capabilities for technological assessment and planning and for policy formulation for water resources must be strengthened at the Federal, State, and local governmental levels;

(5) there should be a continuing national investment in water and related research and technology commensurate with growing national needs;

(6) it is necessary to provide for the research and development of technology for the conversion of saline and other impaired waters to a quality suitable for municipal, industrial, agricultural, recreational, and other beneficial uses; and

(7) the Nation must provide programs to strengthen research and associated graduate education because the pool of scientists, engineers, and technicians trained in fields related to water resources constitutes an invaluable natural resource which should be increased, fully utilized, and regularly replenished.

(Pub. L. 98-242, title I, § 102, Mar. 22, 1984, 98 Stat. 97.)

DESALTING PLANTS

Pub. L. 95-84, § 2, Aug. 2, 1977, 91 Stat. 400; Pub. L. 95-467, title II, § 205(a), (b), Oct. 17, 1978, 92 Stat. 1311; Pub. L. 96-457, § 3, Oct. 15, 1980, 94 Stat. 2032; Pub. L. 98-242, title I, § 110(a), Mar. 22, 1984, 98 Stat. 101, provided that:

"(a) The Secretary of the Interior is authorized and directed to demonstrate the engineering and economic viability of membrane and phase-change desalting processes. Such demonstrations shall include the study, design, construction, operation, and maintenance of desalting plants at locations in the United States (which may include the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, the Virgin Islands, the Mariana Islands, and the Trust Territory of the Pacific Islands): *Provided*, That at least two such plants shall demonstrate desalting of brackish ground water: *And provided further*, That the plants constructed pursuant to this section shall be for the purpose of showing that the technology being demonstrated is ready for application; such plants shall be sufficient to demonstrate the specific application of the technology, and shall be significantly different in operation and process so as not to duplicate any other demonstration plant constructed pursuant to this section. The Secretary is further authorized to conduct such demonstrations or any portion thereof by means of cooperative agreements (as defined and authorized by 41 U.S.C. 504 et seq. (the Federal Grant and Cooperative Agreement Act of 1977; Public Law 95-224)) [31 U.S.C. 6301 et seq.] with duly authorized non-Federal public entities. Title to demonstration facilities constructed by the non-Federal public entity under a cooperative agreement shall vest in the non-Federal public entity.

"(b) Funds appropriated pursuant to the authority provided by this section [this note] may not be expended until thirty calendar days (excluding days on which either the House of Representatives or the Senate is not in session because of an adjournment of more than three calendar days to a day certain) have elapsed following transmittal of a report to the chairman of the Committee on Interior and Insular Affairs of the House of Representatives and the chairman of the Committee on Environment and Public Works of the United States Senate. Such report shall present information that includes, but is not limited to, how the plant being proposed differs from others, if any, already constructed under this section, the location of the demonstration plant, the characteristics of the water proposed to be desalted, the process to be utilized, the water supply problems confronting the area in which the plant will be located, alternative sources of water and their probable cost, the capacity of the plant, the initial investment cost of the demonstration plant, the annual operating cost of the demonstration plant, the source of energy for the plant and its cost, the means of reject brine disposal and its environmental consequences, and the unit cost of product water, considering the amortization of all components of the demonstration plant and ancillary facilities. Such report shall be accompanied by a proposed contract (or cooperative agreement) between the Secretary and a duly authorized non-Federal entity, in which such entity shall agree to provide not less than 15 per centum and not more than 35 per centum of the total cost of the demonstration; such cost to include, without being limited to, necessary water rights, water supplies, rights-of-way, power source interconnections, brine disposal facilities, land, construction, ancillary facilities, and the operation and maintenance costs for a period of four years following final acceptance of the construction of the plant from the plant contractor. The contributions of the non-Federal entity under such proposed contract may be in-kind. During the participation by the Secretary in the construction and the operation and maintenance of such demonstration, access to the demonstration and its operating data will not be denied to the Secretary or his representatives. The period of participation by the Secretary in the operation and maintenance of any such demonstration shall be four years. The Secretary is authorized to include in the proposed contract a provision for conveying, as appropriate, and in such amounts as are appropriate, rights, title, and interest of the Federal Government in the demonstration project to the non-Federal public entity.

"(c) There is authorized to be appropriated, to remain available until expended, for the fiscal year ending September 30, 1978, and thereafter, the sum of $50,000,000 to finance the total Federal share of the cost of the demonstration plants authorized by this section; such cost to include, without being limited to, necessary water rights, water supplies, rights-of-way, power source interconnections, brine disposal facilities, land, construction, ancillary facilities, and the operation and maintenance costs for the four-year period of Federal participation in such costs.

"(d) When appropriations have been made for the commencement or continuation of design, construction, or operation and maintenance of any demonstration plant authorized under this Act [this note], the Secretary may, in connection with such design, construction, or operation and maintenance, enter into contracts and cooperative agreements for miscellaneous services, for materials and supplies, as well as for construction, which may cover such periods of time as the Secretary may consider necessary but in which the liability of the United States shall be contingent upon appropriations being made therefor."

§ 10302. Congressional declaration of purpose

It is the purpose of this chapter to assist the Nation and the States in augmenting their water resources science and technology as a way to—

(1) assure supplies of water sufficient in quantity and quality to meet the Nation's expanding needs for the production of food, materials, and energy;

(2) discover practical solutions to the Nation's water and water resources related problems, particularly those problems related to impaired water quality;

(3) assure the protection and enhancement of environmental and social values in connection with water resources management and utilization;

(4) promote the interest of State and local governments as well as private industry in research and the development of technology that will reclaim waste water and to convert saline and other impaired waters to waters suitable for municipal, industrial, agricultural, recreational, and other beneficial uses;

(5) coordinate more effectively the Nation's water resources research program; and

(6) promote the development of a cadre of trained research scientists, engineers, and technicians for future water resources problems.

§ 10303. Water resources research and technology institutes

(a) Establishment; designation of site by State legislature or Governor

Subject to the approval of the Secretary of the Interior (hereafter in this chapter referred to as the "Secretary") under this section, one water resources research and technology institute, center, or equivalent agency (hereafter in this chapter referred to as the "institute") may be established in each State (as used in this chapter, the term "State" includes the Commonwealth of Puerto Rico, the District of Columbia, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Mariana Islands and the Trust Territory of the Pacific Islands) at a college or university which was established in accordance with the Act approved July 2, 1862 (12 Stat. 503) [7 U.S.C. 301 et seq.], or at some other institution designated by act of the legislature of the State concerned. If there is more than one such college or university in a State established in accordance with such Act of July 2, 1862, the institute in such State shall, in the absence of a designation to the contrary by act of the legislature of the State, be established at the one such college or university designated by the Governor of the State. Two or more States may cooperate in the establishment of a single institute or regional institute, in which event the sums otherwise allocated to institutes in each of the cooperating States shall be paid to such single or regional institute.

(b) Scope of research; other activities; cooperation and coordination

Each institute shall—

(1) plan, conduct, or otherwise arrange for competent research with respect to water resources, including investigations and experiments of either a basic or *practical nature*, or

both; promote the dissemination and application of the results of these efforts; and provide for the training of scientists and engineers through such research, investigations, and experiments, and

(2) cooperate closely with other colleges and universities in the State that have demonstrated capabilities for research, information dissemination, and graduate training in order to develop a statewide program designed to resolve State and regional water and related land problems.

Each institute shall also cooperate closely with other institutes and other organizations in the region to increase the effectiveness of the institutes and for the purpose of regional coordination.

(c) Grants; matching funds

From the sums appropriated pursuant to subsection (f) of this section, the Secretary shall make grants to each institute to be matched on a basis of no less than one non-Federal dollar for every Federal dollar during the fiscal years ending September 30, 1985, and September 30, 1986, one and one-half non-Federal dollars for each Federal dollar during the fiscal years ending September 30, 1987, and September 30, 1988, and two non-Federal dollars for each Federal dollar during the fiscal year ending September 30, 1989.

(d) Submission and approval of water research program; requisite assurances

Prior to and as a condition of the receipt each fiscal year of funds appropriated under subsection (f) of this section, each institute shall submit to the Secretary for his approval a water research program that includes assurances, satisfactory to the Secretary, that such program was developed in close consultation and collaboration with the director of that State's department of water resources or similar agency, other leading water resources offials within the State, and interested members of the public. The program described in the preceding sentence shall include plans to promote research, training, information dissemination, and other activities meeting the needs of the State and Nation, and shall encourage regional cooperation among institutes in research into areas of water management, development, and conservation that have a regional or national character.

(e) Evaluation of each institution's water resources research program; reevaluations

(1) The Secretary shall establish procedures for a careful and detailed evaluation of each institute to determine that the quality and relevance of its water resources research and its effectiveness as an institution for planning, conducting and arranging for research warrants its continued support under this section in the national interest. The evaluation of each institute shall be made by a team of knowledgeable individuals including employees of the Department of the Interior, university faculty or administrators, water research institute directors from other institutes, State or local water resource agency personnel, and private citizens selected for this purpose. The Secretary may also secure the cooperation of the National Research Council/National Academy of Science.[1] The evaluation team shall visit the institute and shall assess the scientific quality of its research program, the potential effectiveness of its research in meeting water resource needs, and the demonstrated performance in making research results available to users in the State and elsewhere. Criteria for making the determination that an institute is an effective instrument for water resources research shall include the following: accreditation in sufficient disciplines to successfully mount a multidisciplinary research program; sufficient resources, including laboratory, library, computer, and support facilities; a sufficiently close administrative relation and physical proximity to the university and to all the parts of it needed to provide an effective working relationship with researchers in a wide range of disciplines; and institutional commitment to the support and continuation of an effective water research program.

(2) The Secretary shall arrange for each of the institutes supported under this section to be evaluated under this subsection within two years after its establishment and to be reevaluated at intervals not to exceed four years. If, as a result of any such evaluation, the Secretary determines that an institute does not qualify for further support under this section, then no further grants to the institute may be made until the institute's qualification is reestablished to the satisfaction of the Secretary.

(f) Authorization of appropriations

(1) For the purpose of carrying out this section, there is authorized to be appropriated to the Secretary the sum of $10,000,000 for each of the fiscal years ending September 30, 1985, through September 30, 1989, such sums to remain available until expended.

(2) Any sums appropriated under this subsection but which fail to be obligated by the close of the fiscal year for which they were appropriated shall be transferred by the Secretary and available for obligation during the succeeding fiscal year under the terms of section 10305 of this title.

(a) Authority of Secretary; application; requirements; approval

(1) In order to assist in supporting the establishment, maintenance, and expansion of pro-

grams and projects to prevent incidents of family violence and to provide immediate shelter and related assistance for victims of family violence and their dependents, the Secretary is authorized, in accordance with the provisions of this title, to make demonstration grants to States.

(2) No demonstration grant may be made under this subsection unless the chief executive officer of the State seeking such grant submits an application to the Secretary at such time and in such manner as the Secretary may reasonably require. Each such application shall—

(A) provide that funds provided under this subsection will be distributed in demonstration grants to local public agencies and nonprofit private organizations (including religious and charitable organizations, and voluntary associations) for programs and projects within such State to prevent incidents of family violence and to provide immediate shelter and related assistance for victims of family violence and their dependents in order to prevent future violent incidents;

(B) provide, with respect to funds provided to a State under this subsection for any fiscal year, that—

(i) not more than 5 percent of such funds will be used for State administrative costs; and

(ii) in the distribution of funds by the State under this subsection, the State will give special emphasis to the support of community-based projects of demonstrated effectiveness carried out by nonprofit private organizations, particularly those projects the primary purpose of which is to operate shelters for victims of family violence and their dependents, and those which provide counseling, alcohol and drug abuse treatment, and self-help services to abusers and victims;

(C) set forth procedures designed to involve knowledgeable individuals and interested organizations and assure an equitable distribution of grants and grant funds within the State and between urban and rural areas within such State;

(D) specify the State agency to be designated as responsible for the administration of programs and activities relating to family violence which are carried out by the State under this chapter and for coordination of related programs within the State;

(E) provide assurances that procedures will be developed to assure the confidentiality of records pertaining to any individual provided family violence prevention or treatment services by any program assisted under this chapter and provide assurances that the address or location of any shelter-facility assisted under this chapter will, except with written authorization of the person or persons responsible for the operation of such shelter, not be made public;

(F) provide assurances that, within one year after receipt of funds under this subsection, the State will, provide assurances to the Secretary that the State has or has under consideration a procedure for the eviction of an abusing spouse from a shared residence; and

(G) meet such requirements as the Secretary reasonably determines are necessary to carry out the purposes and provisions of this chapter.

(3) The Secretary shall approve any application that meets the requirements of this subsection, and the Secretary shall not disapprove any such application except after reasonable notice of the Secretary's intention to disapprove and after opportunity for correction of any deficiencies.

(b) Indian tribes and tribal organizations; application

(1) The Secretary is authorized to make demonstration grants to Indian tribes and tribal organizations for projects designed to prevent family violence and to provide immediate shelter and related assistance for victims of family violence and their dependents.

(2) No demonstration grant may be made under this subsection unless an application is made to the Secretary at such time, in such manner, and containing or accompanied by such information as the Secretary deems essential to carry out the purposes and provisions of this chapter. Such application shall comply, as applicable, with the provisions of clauses (C) (with respect only to involving knowledgeable individuals and organizations), (D), and (E) of subsection (a)(2) of this section.

(c) Funding limitations

No demonstration grant may be made under this section in any fiscal year to any single entity (other than to a State) for an amount in excess of $50,000, and the total amount of such grants to any such single entity may not exceed $150,000. A single entity may not be awarded demonstration grants under this section for a total period in excess of three fiscal years.

(d) Direct payments to victims or dependents

No funds provided through demonstration grants made under this section may be used as direct payment to any victim of family violence or to any dependent of such victim.

(e) Income eligibility standards

No income eligibility standard may be imposed upon individuals with respect to eligibility for assistance or services supported with funds appropriated to carry out this chapter.

(f) Grants to entities other than States; local share

No demonstration grant may be made under this section to any entity other than a State unless the entity provides for the following local share as a proportion of the total amount of funds provided under this chapter to the project involved: 35 percent in the first year such project receives a grant under this chapter, 55 percent in the second such year, and 65 percent in the third such year. Except in the case of a public entity, not less than 50 percent of the local share of such agency or organization shall be raised from private sources. The local share required under this subsection may be in cash or in-kind. The local share may not include any Federal funds provided under any authority other than this chapter.

(g) Shelter and related assistance

The Secretary shall assure that not less than 60 percent of the funds distributed under subsection (a) or (b) of this section shall be distributed to entities for the purpose of providing immediate shelter and related assistance to victims of family violence and their dependents.

(Pub. L. 98-457, title III, § 303, Oct. 9, 1984, 98 Stat. 1757.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 10403, 10405, 10409 of this title.

§ 10403. Allotment of funds

(a) Proportionality of allotment; minimum allotment

From the sums appropriated under section 10409 of this title for grants to States for any fiscal year, each State shall be allotted for payment in a grant authorized under section 10402(a) of this title an amount which bears the same ratio to such sums as the population of such State bears to the population of all States, except that—

(1) each State shall be allotted not less than whichever is the greater of the following amounts: one-half of 1 percent of the amounts available for grants under section 10402(a) of this title for the fiscal year for which the allotment is made, or $50,000; and

(2) Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands shall each be allotted not less than one-eighth of 1 percent of the amounts available for grants under section 10402(a) of this title for the fiscal year for which the allotment is made.

For the purpose of the exception contained in clause (1) of the preceding sentence only, the term "State" does not include Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

(b) Determination of population of States

For the purpose of this section, the population of each State, and the total population of all the States, shall be determined by the Secretary on the basis of the most recent census data available to the Secretary, and the Secretary shall use for such purpose, if available, the annual interim current census data produced by the Secretary of Commerce pursuant to section 181 of title 13.

(c) Ratable reduction of amounts; increase on availability of additional funds

If the sums appropriated under section 10409 of this title for any fiscal year for grants to States authorized under section 10402(a) of this title are not sufficient to pay in full the total amounts which all States are entitled to receive under such section for such fiscal year, then the maximum amounts which all States are entitled to receive under such section for such fiscal year shall be ratably reduced. In the event that additional funds become available for making such grants for any fiscal year during which the preceding sentence is applicable, such reduced amounts shall be increased on the same basis as they were reduced.

(d) Reallotment; continued availability of funds

(1) If, at the end of the sixth month of any fiscal year for which sums are appropriated under section 10409 of this title, the amount allotted to a State has not been made available to such State in grants under section 10402(a) of this title because of the failure of such State to meet the requirements for a grant, then the Secretary shall reallot such amount to States which meet such requirements.

(2) Funds made available by the Secretary through reallotment under paragraph (1) shall remain available for expenditure until the end of the fiscal year following the fiscal year in which such funds become available for reallotment.

(Pub. L. 98-457, title III, § 304, Oct. 9, 1984, 98 Stat. 1759.)

§ 10404. Secretarial responsibilities

(a) The Secretary shall appoint an employee of the Department of Health and Human Services to carry out the provisions of this chapter. The individual appointed under this subsection shall, prior to such appointment, have had expertise in the field of family violence prevention and services.

(b) The Secretary shall—

(1) coordinate all programs within the Department of Health and Human Services, and seek to coordinate all other Federal programs, which involve the prevention of incidents of family violence and the provision of assistance for victims and potential victims of family violence and their dependents, and ensure that such activities as they relate to elderly persons are coordinated with the Administration on Aging and the National Institute on Aging within the Department of Health and Human Services;

(2)(A) provide for research into the causes of family violence, and into the prevention, identification, and treatment thereof (such as research into (i) the effectiveness of reducing repeated incidents of family violence through a variety of sentencing alternatives, such as incarceration, fines, and counseling programs, individually or in combination, and through the use of civil protection orders removing the abuser from the family household, and (ii) the necessity and impact of a mandatory reporting requirement relating to incidents of family violence, particularly abuse of elderly persons), and (B) make a complete study and investigation (in consultation with the National Institute on Aging) of the national incidence of abuse, neglect, and exploitation of elderly persons, including a determination of the extent to which incidents of such abuse, neglect, and exploitation are increasing in number or severity; and

(3) provide for the training of personnel and provide technical assistance in the conduct of programs for the prevention and treatment of family violence.

(Pub. L. 98-457, title III, § 305, Oct. 9, 1984, 98 Stat. 1760.)

§ 10405. Evaluation

Not later than two years after the date on which funds are obligated under section 10402(a) of this title for the first time after October 9, 1984, the Secretary shall review, evaluate, and report to the appropriate Committees of the Congress, as to the effectiveness of the programs administered and operated pursuant to this chapter, particularly in relation to repeated incidents of family violence. Such report shall also include a summary of the assurances provided to the Secretary under section 10402(a)(2)(F) of this title.

(Pub. L. 98-457, title III, § 306, Oct. 9, 1984, 98 Stat. 1760.)

§ 10406. Discrimination prohibited

(a) Recipients of Federal financial assistance; types of discrimination prohibited

(1) For the purpose of applying the prohibitions against discrimination on the basis of age under the Age Discrimination Act of 1975 [42 U.S.C. 6101 et seq.], on the basis of handicap under section 504 of the Rehabilitation Act of 1973 [29 U.S.C. 794], on the basis of sex under title IX of the Education Amendments of 1972 [20 U.S.C. 1681 et seq.], or on the basis of race, color, or national origin under title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.], programs and activities funded in whole or in part with funds made available under this part[1] are considered to be programs and activities receiving Federal financial assistance.

(2) No person shall on the ground of sex or religion be excluded from participation in, be denied the benefits of, or be subject to discrimination under, any program or activity funded in whole or in part with funds made available under this chapter. Nothing in this chapter shall require any such program or activity to include any individual in any program or activity without taking into consideration that individual's sex in those certain instances where sex is a bona fide occupational qualification or programmatic factor reasonably necessary to the normal operation of that particular program or activity. The Secretary shall enforce the provisions of the preceding sentence in accordance with section 602 of the Civil Rights Act of 1964 [42 U.S.C. 2000d-1]. Section 603 of such Act [42 U.S.C. 2000d-2] shall apply with respect to any action taken by the Secretary to enforce such sentence. This paragraph shall not be construed as affecting any other legal remedy.

(b) Notification and request to secure compliance; referral to Attorney General or other action by Secretary

Whenever the Secretary finds that a State or other entity that has received financial assistance under this chapter has failed to comply with a provision of law referred to in subsection (a)(1) of this section, with subsection (a)(2) of this section, or with an applicable regulation (including one prescribed to carry out subsection (a)(2) of this section), the Secretary shall notify the chief executive officer of the State and shall request such officer to secure compliance. If, within a reasonable period of time, not to exceed sixty days, the chief executive officer fails or refuses to secure compliance, the Secretary may—

(1) refer the matter to the Attorney General of the United States with a recommendation that an appropriate civil action be instituted,

(2) exercise the powers and functions provided by title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.], the Age Discrimination Act of 1975 [42 U.S.C. 6101 et seq.], sections 504 and 505 of the Rehabilitation Act of 1973 [29 U.S.C. 794, 794a], or title IX of the Education Amendments of 1972 [20 U.S.C. 1681 et seq.], as may be applicable, or

(3) take such other action as may be provided by law.

(c) Civil action by Attorney General

When a matter is referred to the Attorney General pursuant to subsection (b)(1) of this section, or whenever the Attorney General has reason to believe that a State or an entity is engaged in a pattern or practice in violation of a provision of law referred to in subsection (a)(1) of this section or in violation of subsection (a)(2) of this section, the Attorney General may bring a civil action in any appropriate district court of the United States for such relief as may be appropriate, including injunctive relief.
